INTER CLUB BILLIARDS.

Masonic Players Take Slight Lead in Opening Games of Tournament.

The annual billiard tournament, between the Masonic and B.I.S. Clubs, opened last night in the Masonic rooms in a very fitting manner. There was a large attendance present, standing room being at a premium. Mr. D. R. Thistle, President of the Masonic Club, made a short address, in which he welcomed the B.I.S. players to their rooms, and hoped that the tournament would be as successful as those held in the past. Hon. W. J. Higgins, President of the B.I.S., followed, and made a fitting reply on behalf of the B.I.S., and concluded by voicing the sentiments as expressed by the previous speaker. His Worship Mayor Cook, who very generously donated a handsome cup for competition, declared the tournament open by breaking the balls.

First Game.

The first game was between G. Rabbitts (Masonic) and W. Skinner (B.I.S.). From the beginning Rabbitts played a steady game, and made some pretty shots. Up to the 200 mark he was nearly 100 points ahead of his opponent, but after this he did not improve his position. At no time during the game did Skinner get the balls going and his exhibition was somewhat disappointing to the B.I.S. supporters. The game ended, Rabbitts 350; Skinner 268.

Second Game.

The second game was played by W. J. Martin (Masonic) and W. J. O'Neill (B.I.S.). This game was very close throughout. Mr. Martin winning by the close margin of 18 points. The game was a rather slow one, both players being unable to get to their regular form, and no big breaks were made. The concluding scores were, Martin 350; O'Neill 332. The following are breaks for both games:—

G. Rabbitts (Masonic)—350—11, 34, 12, 11, 19, 11, 25, 11, 11, 17, 23, 35, 27, 22, 29—1.
W. B. Skinner (B. I. S.)—268—11, 16, 11, 19, 13, 16, 11, 14, 13, 22, 10—156.
W. J. Martin (Masonic)—350—10, 18, 16, 18, 13, 14, 12, 11, 10, 12—134.
W. J. O'Neill (B. I. S.)—332—14, 23, 14, 10, 15, 13, 10, 10, 11, 16, 10—149.
To-night's games are:—7.30, D. R. Thistle (Masonic) vs. E. Phelan (B. I. S.); 9.00—J. Edwards (Masonic) vs. T. Ryan (B. I. S.).

Doll That Talks

and Sings

A New York toy maker has invented a doll that can recite poems and sing up-to-date songs.

A motor beneath the doll's clothing controls a small disc phonograph, so that nursery rhymes, recitations, or short songs can be turned on at will. The body of the doll is fitted into a strong box, to hold the phonograph in position, and the motor is actuated by pushing to and fro a lever hidden beneath its clothes. At the end of the record the reproducer is lifted automatically and returned to the starting point. This movement engages a brake which stops the motor.

In the front part of the doll's body (hidden by its clothing) are openings behind which is a short horn or megaphone connected with the reproducer.

TIED IN LAST ROUNDS.

NEW YORK, Nov. 6.—Quintin Romero, of Chile, and Sully Montgomery, Centre College football star, drew in the six round final to a series of heavyweight fights in Madison Square Garden last night.

Montgomery, in his first important professional bout, outboxed the Chilean in the first three rounds, and almost dropped his opponent in the fourth with a right to the jaw. Romero took the last two rounds. Montgomery tired rapidly and was badly beaten in the final session.

The holding of the Chilean to a draw was not only considered a feather in Montgomery's cap, but many of the 8,000 spectators of the bout disagreed with the decision, holding that Montgomery had outpointed his rival. Romero had to extend himself all through the last three rounds to get a draw. He had to call on all his experience to avoid a knockout in the fourth round when the Texan staggered him and sent him careening about the ring with a terrific right to the jaw just a few seconds before the bell ended the round. Romero pressed a furious attack during the fifth round, but he was unable to knock out his rival, Montgomery, who's from Fort Worth, Texas, weighed 204 pounds; Romero weighed 199 1/2.

black with the name "Tda" painted on it in yellow. The lettering, apparently done by an amateur, is three inches long. It is thought that the planking has not been long adrift, as the wood is freshly broken off. The prevailing winds for the past ten days have been North East and North.—Chronicle.

Why We Quarrel

A well-known pathologist has recently made an interesting discovery. He has found that bad temper has the curious effect of increasing the amount of sugar in the blood by from 10 per cent. to 30 per cent. in the course of a few minutes.

That is why an angry man wants to fight the object of his rage. He becomes hot-blooded because this accession of carbonaceous material intoxicates his muscular system.

The strange thing is that this rapid change is due to a tiny gland about the size of a pin. When it functions normally a person remains calm and even tempered. If the essence exudes too lavishly, hatred, passion, and quarrels ensue.

A Noah's Ark Island

What may be described as a Noah's Ark Island is now under the protection of the U.S. Government in Gatun Lake, Panama Canal.

The island, which is officially called Barro Colorado Island, was formed when the Chagres River was dammed to form Gatun Lake. All forms of animal life gathered on its high ground to escape the rising waters. It abounds with ant-eaters, sloths, armadillos, peccaries, tapirs, agoutis, and other animals.

Many scientists are quartered there for research work. The island is six square miles in extent, and is only two miles from the Panama Canal.

A very conservative skirt length is ten inches from the ground.

Another FAIR!

During this week we will have our Store nicely decorated and will place on Exhibition our entire stock of Imported and Local goods comprising the very best brands of Cut and Plug Tobacco, high grade Pipes and the best Imported Cigarettes and a full line of Smokers' requisites.

Conference on Unemployment

Estimated that 800 Men will have to be cared for this winter.

(Halifax Morning Chronicle).

Estimates made when a delegation from the City Council conferred with the Provincial Government, placed the unemployed to be cared for this winter in Halifax at 800 men. The delegation, which was headed by Mayor Murphy, included Aldermen Finley, Blissett, H. W. Cameron, and Munih; and C. C. Blackadar, chairman of the Poor Association. The proposal on the part of the City Fathers was that the City would operate the stone yards, and utilize the material in a street opening and extension programme for the city. In view of the fact that work of this nature done in the winter would cost more than if done regularly at other times of the year, the City delegation proposed that the Provincial Government should assist in carrying the increased cost.

While the whole matter was discussed tentatively, it was understood when the conference was over that members of the Government wanted to know the reason the city should consider that the Provincial Government should establish a precedent in assisting Halifax in paying the cost of street extensions. If it were done for Halifax the Provincial Government might be compelled to do it for a number of other communities in the Province where unemployment was serious.

The operation of the stone yards would employ 125 men, which would be only a small proportion of the number of men that are expected to be out of work when winter has once set in. It is feared that Halifax will have to carry this year as in the past a large amount of unemployed which migrate to the city from outside districts. Under such circumstances the municipal authorities of the County are freed altogether from the responsibility, or any share of the cost of maintaining such people.

The matter of Federal Government construction work being started, especially on the unfinished Ocean terminals was considered, but as nothing but tentative proposals were made, the conference adjourned to meet again at three o'clock when the Provincial Exhibition will be discussed.

On a Ship Afire

Among the many duties that fall to coast guard cutters is the discovery and destruction of derelicts. Often these are harder to find than the proverbial needle.

But Lieut. Rae B. Hall of the U.S. Seminole had no difficulty in finding one derelict. She was a fire, with a pillar of smoke mounting to the sky. Volunteers were asked to put a line aboard. The Lieut. has a handy way of doing that sort of thing, so he stepped forth and took command of the boat's crew. There was a heavy sea running and it took deft seamanship to get aboard the hulk, but finally the crew clambered over her rail. She was a fire below decks and burning merrily.

It looked like a ten minute job to make a line fast up forward and get back in the boat. But ten minutes stretched to an hour and darkness fell into the bargain. Then it was found that the small boat from the cutter had broken away and left her crew aboard the burning derelict. At that moment the line parted, just to complete the cycle of events.

The night was thoroughly black by this time and the cutter lost to sight somewhere ahead. The men had no way to signal and no lights for their own use. The fire did not shoot up high enough to indicate their position for the cutter. The wind was mounting into a gale. They could not go below. They had nothing to eat or drink. No help was in sight before morning.

Only one human comfort remained—cigarettes. Careful rationing preserved it until morning, when there was the cutter, bearing down on their course, bringing a new line, a warm breakfast, cozy bunks and heart's ease.

Under Five Sovereigns

London. (C.P.)—Having lived under five sovereigns, England's oldest "Derby and Joan" are in the limelight. Mrs. Sophy Taylor, of Chislehead, Kent, has just celebrated her 100th birthday, and her husband became a centenarian last April.

Wedding According to Ukrainian Custom

Smoky Lake, Alta. (C.P.)—Celebrated according to the old Ukrainian traditions was a recent wedding here. It began on a Wednesday evening, the young people gathered at dinner at eight o'clock, and Ukrainian dishes being served. Then old folk songs were sung and dancing went on in the open air, a platform hedged by evergreens having been erected and the revelers made the most of the
