Recent recessions in rails were ex-

tended by 1 to 4 points, few issues of that division escaping the process of attrition. New low records were registered by the St. Paul, New York Cen tral and Baltimore, while many other transportation stocks came within easy approach of their minimums. No developments of a special or definite nature were offered in explana-tion of the enovement, but in well in-formed circles, the belief still obtained that the selling emanated from foreign quarters. The bears were not slow to avail themselves of the decline, which was accelerated from time to time by the aversion of short contracts. he extension of short contracts. Call money was stabilized by the money pool, but time funds were again in scant supply, though quotations were unchanged.

HEAVY SELLING OF DOMINION IRON

Is Only Feature of Toronto Market; Business Stagnated

Montreal, Oct. 2.—Some selling of Dominion Iron in the late afternoon provided about the only incident in anlistless market for securities here today. About 400 shares came on the market, with a considerable porion of offerings emanating from To

The selling found steady absorption at 59, a net decline of 1/4 point, and 509 was bid at the close.

The stagnation of business and the indefinite tendency in prices were accepted without much comment on the street. Arrangements for the forthcoming war loan are claiming an in-creasing amount of attention on the part of the active elements in the street and the market influence of the loan continues as yet too much a matter o conflicting opinion to be a factor in inducing buying or selling of stocks. A firmer tone in the third war loan which sold % point higher, at 95, under a very light demand, and closed 94% bid, was the chief feature in bonds.

STOP COTTON SEED TRADING New York, Oct. 2.—Speculative trading cotton seed oil futures on the New fork produce exchange has been for bidden, according to a statement here today by Edward Flash, ir., vice-president of the exchange. TORONTO FEARS N.Y. HIDDEN MOVEMENT

Maple Leaf and Brazilian Features of a Dull Day

Toronto, Oct. 2.-Maple Leaf and Bra zilian were features of a market that was generally weaker today. Canadian securi-ties were not affected to any extent by the stronger close in New York, and there seems to be a definite opinion among traders that something is underlying the was rather disappointing after the lib-eral action of Ogilvie directors. Today's dealings were at 106 to 107 with the close at the low point. Bond business was fairly active, the 1925 loan being the leader with a turn-over of \$25,000, par value, and with the price steady at 96 5-S. The 1931 loan was firmer at 95 2-4 and the 1937 issue eased off 1-8 to 94 3-4. Bonds were heavy on moderate trading, the Liberty issue selling at 99.94 to par. Total sales, \$3,750,000.

LONDON STOCK EXCHANGE London, Oct. 2.—The prospectus of the new war bonds was well received and it is thought the issue will be supported lib-erally, as the terms are attractive. Business on the stock exchange was interrupted by air raid gossip, but the tone of the market was good. There was an up-ward tendency in Argentine rails and a fair demand for gildedged securities. Grand Trunk shares were weak on the passing of the dividend. Speculative rubbers were easier. Russians weakened about the uncertain situation.
