WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Provinces - Interesting Statements Concerning His Experience.

STELLARTON, N.S .- James R. Murray, a well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I resorted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medicine I did not have any ambition, but now all is changed and my dyspeptic trouble perfectly cured." JAMES R. MURRAY.

N. B. If you decide to take Hood's Sarsaparilla, do not be induced to buy any substitute. Be sure to get Hood's.

WEEKLY. Trade this week has been lighter than any week this season. Thursday was the only day that was not counted The weather on Saturday and Tuesday was very bad and unfit for forwarding produce. In looking over values we notice only a few changes since our last weekly report.

Wheat has been a disappointment to many. It was expected that the upward move was going to continue, but instead of going higher it has gone down, and today the usual price paid was \$1 38. We quote \$1 40 for Demo-

Receipts of oats were small, and as the week wore on they sold higher. Today 70c was paid in one case, 65c to 70c being the usual figures. Outside of these two changes there is little Butter was about 1c lower towards the close and eggs 2c higher. Poultry, ducks and turkeys show no

alteration. Meats were offered sparingly, and prices of beef and lamb held steady, while dressed hogs scored an advance

The only difference to be seen in hides and skins was in lamb skins, the ruling price of which was 70c to 80c: demand good. Tanners complain at the prices, and claim they are too for the price of leather.

Potatoes were the center of attraction in the vegetable line. A good deal of shipping is being done to this point by outsiders, and we believe they are costing 70c on the track, few large lots being taken at over that price. No change occurred in any other kind. ples, grapes and quinces were the principal receipts. Hay fluctuated between \$6 and \$7,

with an occasional lot of extra good quality going at \$7 50. Straw was

Montreal, Nov. 8 .- The only news of interest in local export live stock circles today was the more encouraging cable advices from Liverpool and London on both cattle and sheep, and prices show an advance of 1c since figures shippers state that cattle are losing money and sheep just about letting out. The receipts of live stock at the east

DISCOVERED FIRE CLAY.

Rich Fine Made by Thos. Whittaker, of London, in the Nipissing Mr. Thomas Whittaker, of 135 Bath-

urst street, and a former member of the city police force, has made a discovery that may net him thousands of dollars, and open up a new branch of industry in Canada. About three and a half years ago

Mr. Whittaker took up 200 acres of government lands in the Nipissing. He did some work on it, but found nothing of any special value on the wild lands. He returned to the farm last winter, and in the spring the floods and freshets came with unusual force and was 1ed away a few feet of Mr. Whittaker's land on the river shore. This exposed to view a large amount of pure fire clay. On Mr. Whittaker's property there is a section of fire clay extending over 15 acres, and ranging from twelve to at Osgoode Hall, Toronto, in the case fifteen feet in depth. The clay was ex- of Anderson vs. G. T. R. The appeal amined by the government expert, and was by defendants from the Q. B. Difound to be the genuine article. Mining rights have been secured, and a company has been formed in Toronto which will work on the fire clay. It is reported that on Mr. Whittaker's property there are millions of tons of this material, and, if so, it will likely prove

Thousands of pounds of this is used annually at McClary's and other large factories in this city, who import it at a net cost of 1 cent a pound, or \$20 per ton. There has been little or no fire clay found in this country, all of this mineral being imported from the United States, England and Scotland. The discovery of fire clay in Ontarlo in such large quantities may open up a new branch of industry, develop sorts; veals, \$5 to \$8; grassers, \$3 25 the country, and settle what has hitherto been practically a desert.

AILSA CRAIG.

The Grand Trunk Must Pay \$3,000 on Account of Wm. McKenzie's Death.

Ailsa Craig, Nov. 10 .- News has been received here of the decision rendered visional Court. The action was by the personal representative of Wm. Mc-Kenzie, deceased. McKenzie had a ticket from Ailsa Craig to London and return. On the journey — it was a stormy in winter and having left his wife in London, he was anxious to get home to his children-he got off at Lucan crossing, a station without access, except by the track, or across private property. While walking along the track to the highway, a freight train came behind and killed him. The Divisional Court reversed Chief Justice Meredith and held, that, as deceased was lawfully on the track, he was entitled to the warning by whistle or bell, required by section 256 of the Railway Act, to be sounded 80 rods before a train reaches a crossing. Judgment was entered for plaintiff for \$3,-000. The appeal was dismissed with costs.

LEGAL DECISIONS.

Affecting Parties in Caradoc, Goderich and Other Points.

The following, among other cases, were disposed of yesterday at Osgoode Hall, Toronto: Township of Caradoc vs. township of

Ekfrid; township of Metcalf vs. township of Ekfrid: Judgment on appeal by plaintiffs in both actions and from report on decision of Mr. Britton, when drainage reference, in favor of defendants, the initiating township, dismissing an appeal from the report of an engineer upon a drainage scheme affecting the three townships. The principal question was as to the construction f section 75 of the act of 1894. The court held that the defendants had jurisdiction to initiate the work. The majority of the court, however, held that the las paved the way for the execution of the course pointed out by the statute in assessing for outlet was not followed. Appeal allowed with costs, Burton, J. A., dissenting. Osler, Q.C., and T. G. Mere-(London) for appellants, the township of Caradoc. Folinsbee (Strath-

roy) for appellants the township of Metcalfe. M. Wilson, Q. C., and J. B. Rankin (Chatham) for defendants. Johnston vs. Town of Petrolia-Judgment on appeal by defendants the corporation of the town of Petrolla from judgment of Meredith, J., in favor of the plaintiff against appellant, in action to restrain defendants from fouling a stream, called Bear Creek, flowing past plaintiff's farm, and for damages, and on appeal by plaintiff from the same judgment in so far as it dismissed the action against the other two defendants. Both appeals dismissed with costs. Aylesworth, Q. C., for defendants the Town of Petrolia. W. R. Riddell and Weir (Sarnia) for plaintiff. W. Cassels, Q.C., and T. G. Meredith (London) for defendants the Imperial Oil Company. McCarthy, Q.C., and Shaunessy (Petrolia) for defendants Fair-

Rogers & Co. McMicking vs. Gibbons—Judgment on appeal by plaintiff from judgment of Meredith, C. J., after the trial at Goderich, in so far as it declared that the defendant, James Cunningham, a first mortgagee, was entitled on being redeemed by the plaintiff, a second mortgagee, to the full amount of arrears of interest due, and was not restricted to six years' arrears. The chief justice so decided on the authority of Delaney vs. C. P. R., 21 O. R. 11. Plaintiff contended that this case was not an authority upon the point, or if it was that it was contrary to

other authorities, and should be overruled. The court held that the same rule applied in redemption as in foreclosure, and that the arrears were confined to the six years mentioned in the statute. Appeal allowed without costs. Garrow, Q.C., for appellant. Holt (Goderich) for defendant James Cunningham. Holwell vs. Township of Wilmot .-Judgment on appeal by plaintiff from judgment of Ferguson, J., who tried the action at Stratford, dismissing it

with costs. One A. Kaufman, who was the treasurer of the defendant township, being in default for moneys col- girl. lected by him, mortgaged his chattels to one Irwin, and on the 27th of February, 1896, received a check for \$3,400 from Irwin's solicitor. The same day or the next morning he indorsed the Commerce at London, who, on the 29th of February placed it to the credit of the "township of Wilmot; A. Kaufman, treasurer," in the books of the bank. Kaufman was insolvent prior to the 24th of February, 1896, and on the evening of the 28th February he made an assignment to the plaintiff for the general benefit of his creditors under the statute. The plaintiff claimed the check or its proceeds for the benefit of his creditors. It was held below that no right to the money passed to the plaintiff by the assignment, having special regard to the language of sec. 43 of the Postoffice Act, R. S. C., ch. 35, and that there was no preference of the township which could be attacked by the plaintiff. The court held that plaintiff was not entitled to succeed; that the money had gone beyond revocation before assignment. Appeal dismissed with costs. W. Nesbitt for appellant. Aylesworth, Q.C., for defendants.

DURRANT'S DOOM.

His Mother Believes in His Innocence -The Supreme Court's Decision Clears the Way for Five

More Executions. San Francisco, Nov. 10 .- The news that the United States Supreme Court had decided not to interfere with the execution of Durrant spread quickly over the city, and crowds of interested people read the announcement eagerly. The decision of the supreme court was not unexpected here. Warden Hale, of San Quentin, who is in Washington, wired the news to Warden Edgar. At 11 o'clock Mr. Edgar had not notified Durrant of his fate, and had not de-

cided when he would do so. The decision of the supreme court has paved the way for the execution sentenced to death, but whose execution has been deferred pending the de cision of the Durrant case. the are Train Wrecker Worden, Harvey Allender, of San Jose, and E. Banks, of San Diego, who butchered

an aged couple. Durrant's parents were notified yesterday morning of the court's decision, and were deeply affected. Mrs. Durrant wept, but said her son was innocent, and that she did not yet give up hope that he would be vindicated and his innocence proved. District Attorney Barnes stated that the only thing the attorneys for Durrant could do now was to appeal from the order of the supreme court, but that he thought they would not try this, as they were sure to fail.

DANCE PARTNER FELL ON HIM

Edward Mackin Fatally Injured Whi

Dancing the Waltz. New York, Nov. 9 .- Edward Mackin. 30 years old, a peddler, of 117 Mott street, owes his death to the fact that he was passionately fond of dancing. Mackin, who at one time kept the news stand in front of the Morton House, went to the Independence Club ball, which was held in Webster Hall on Saturday night, Oct. 30. He danced every number on the programme, and at 1 o'clock in the morning, when the orchestra struck up "The Blue Danube," Mackin singled out a partner who

weighed about 190 pounds. After about ten minues of fast waltzing his head grew dizzy, and Mackin fell to the ground, dragging his partner with him. She fell squarely on his abdomen, and Mackin groaned in agony. He was taken home in a passing wagon and was attended by Dr. M. J. Burke, of 164 Hester street.
