FIFTY-THIRD CONGRESS.

Close of the First Year of Its Existence.

WASHINGTON, D. C., HOUSE, Aug. 6.—The first year of active existence of the 53rd Congress closed with the session today.

There was nothing in the proceedings in the House, however, to indicate the fact. Most of the day was spent in discussing the conference report on the Indian Appropriation Bill. The conferees had come together upon every item except the one relating to the ratification of the treaties with the Sioux and Nez Percés Indians for the division of their respective reserves.

There was a pretty long and interesting discussion in the Senate today over Mr. Chandler's resolution for an inquiry into the history of the Dominion Coal Company, of Nova Scotia, and over Mr. Mills' amendments to it, proposing to extend the inquiry to coal and transportation companies in the United States which might be affected by the Canadian competition as to whether the members of Congress or officers of the Government held any pecuniary interest in these companies. At the close of the morning hour the matter went over without action. The remainder of the day's session was occupied in the discussion of the Anti-Anarchist Bill, which was finally passed and sent to conference committee.

The conference report on the River and Harbor Appropriation Bill was agreed to, and the Senate at 5:45 adjourned.

HE'S ALL RIGHT.

Richard Harrison Had Backache for Some Years—It Was Due to Kidney Disease—No More Backaches Now.

HALL'S BRIDGE, Ont., Aug. 6.—Richard Harrison is well known here and everywhere highly respected. That he has been a sufferer for some years from backache and other kidney troubles was a well known fact that gained much sympathy for him. Lately he has been moving around as spry as a kitten and in the best of health. All his kidney troubles had disappeared, so he said when questioned, and further said that the cause of his disappearance was his having used a few boxes of Dr. Williams' Pink Pills. The reputation of pills as a specific in all kidney diseases is now firmly established in this Ontario.

The City Council

Gets Through Early for Once and Surprises Itself.

The Street Railway Company Did Not Receive the Amended Offer,

And Therefore Did Not Reply—A Trip to Montreal—No New Watering Cart—A Lesson to Sidewalk Contractors—The Band Concert Squable.

The City Council held its regular meeting last night and got through its business with surprising promptitude. City Clerk Kingston was at his post again after his holidays, and a couple of errors in the printing of the minutes in his absence were remedied. No reply was received from the street railway company with reference to the late offer, but this was not to be wondered at when it was found that the offer had not yet been sent to the company. As the next regular meeting fell on Civic Holiday the council adjourned until the second week in September. The members present were: Mayor Eavery, Ald. Taylor, John Henman, John Pritchard, Stephen O'Meara, J. W. Jones, W. C. Coe, Wm. Heaman, Robt. Carrothers, Thos. Jones, M. Scarrow, J. Fitzgerald, H. Dreaney, E. J. Fitzgerald, J. Nutkins, Joseph Judd, Geo. Shaw and Ed Parnell.

COMMITTEE REPORTS.

No. 3 committee report recommended a trip for Chief Roe, the city engineer and a member of No. 3 committee, to the National Association of Fire Engineers in Montreal on Aug. 14, 15, 16 and 17.

Ald. Carrothers and J. W. Jones took exception to the city engineer going along. Mr. Jones thought that two members of the committee should go.

Ald. Thomas Jones thought that the engineer should go. Ald. O'Meara moved that only the chief be sent. Lost.

The clause was adopted, and the chief, the engineer and a member of No. 3 committee will go.

The purchase of a new watering cart from George Heaman at \$225 was recommended.

After a long debate Ald. J. W. Jones said that proper care had not been taken of the present carts. He moved that in the fall tenders be called for the overhauling and repairing of the present carts and for one new cart if found necessary.

This amendment carried and the original clause was struck out.

NUMBER TWO COMMITTEE.

The first clause of No. 2 committee's report recommended that \$132 be granted to the First Hussars' Band for band concert purposes.

Ald. Judd moved that the amount be taken out of the fund already placed for that purpose.

Ald. Taylor urged that the clause be voted down. The Seventh Band was a citizens' band and should be encouraged.

Ald. Judd added to his motion that the bands play alternately until the \$132 was expended.

Mayor Eavery—Who runs the city? Is it the council or is it the bands or the citizens behind the bands. The mayor further said that the city's honor was at stake, and that the best music should be supplied. They were bothered every night with cliques trying to push the interests of certain bands.

Ald. Thomas Jones and Ald. Judd said that the members of the different bands were all citizens, and they should be treated on the same level. The latter explained that the Seventh, anyhow, had just twice as much of the appropriation as either of the other bands.

Ald. Judd's motion carried.

The engineer reported that he was unable to recommend the acceptance of the Carling street artificial stone walk from Mr. S. H. Craig, the contractor. He had notified that gentleman that unless the work was made satisfactory the \$500 already paid on it would have to be returned.

Ald. J. W. Jones moved that the engineer be instructed to see that the specifications were carried out.

Ald. F. J. Fitzgerald said that the council had accepted a cheap walk instead of a good one. Mr. Craig now wanted to lay down a new surface at a 60 per cent advance in cost. He asked if that could be done.

The mayor said that it could be done, but the city would have to pay the cost.

Ald. Parnell said that the ratepayers who wanted the cheap walk should pay the cost (about \$200).

Ald. Judd characterized the matter as a piece of cheek on Mr. Craig's part and on the part of his surety to expect the city to pay the difference.

Ald. J. W. Jones' motion carried.

On the suggestion of Ald. James Fitzgerald the macadam pavement on Dufferin avenue will be extended from Colborne to Mainland street.

NUMBER ONE COMMITTEE.

The accounts contained one of \$104.80 expenses of a deputation to Ottawa and Detroit on business connected with the L. E. and D. R. R. The band concert item amounted to \$128.25. The total of the accounts was \$10,893.55.

concern to provide him with a hide inspector's office on the market No. 3. A. F. Wick, secretary of the teamsters' picnic committee—Inviting the mayor and aldermen to participate in their civic holiday demonstration and asking that the city pay for the electric lights for the evening's programme. Accepted and granted.

Nelson Sage—complaining against assessment of an artificial stone walk. No. 1.

GALA DAY AT KINGSTON.

Handsome Monument Unveiled by Archbishop Cleary.

KINGSTON, Ont., Aug. 6.—The handsome monument erected on the grounds of the general hospital by Archbishop Cleary in memory of his countrymen who perished here during the plague, 1847-48, was unveiled in the presence of a great gathering of citizens. The monument—plinth, pedestal and statue—stands nearly twelve feet high. The statue, which is of pure Carrara marble and was sculptured in Italy, is a figure of the Angel of the Resurrection. It is erected on the top of the mound beneath which were laid nearly half a century ago the remains of the plague-stricken Irish who had been driven to this city in dire distress, having contracted the pestilence in the fetid holes of the old wooden sailing vessels that carried them with fatal slowness of motion across the Atlantic, whilst the germs of disease begotten of famine were developing from day to day among the imprisoned crowd of human beings that lay helpless between the decks for many weeks.

Do You Admire Strong and Healthy Babies?

Lactated Food Gives Health, Strength and Heartiness.

There is no artificial food in the world that contains so many muscle and tissue forming qualities as Lactated Food. A well-known Canadian physician recently affirmed that the large majority of foods now sold were of no real value as flesh and bone producers.

Lactated Food is the best diet for the infant's development and strengthening. Lactated Food is easily digested and assimilated and does not cause inflammation and irritation of the stomach and digestive organs as other foods do.

Lactated Food saves baby from dysentery, diarrhea and cholera infantum. Lactated Food will make baby well, if it is sick, cross and peevish at present.

Lactated Food is the best on earth for infants when teething time comes on; it keeps them bright and happy.

Lactated Food "saves babies' lives."

SHORT TALKS ON ADVERTISING.

(By Charles Austin Bates.)

The down town terminus of the Third avenue elevated road in New York is exactly opposite the entrance to the Brooklyn bridge. As one comes down the stairway from the elevated, or comes out of the bridge entrance, he is met by a number of newboys, each one carrying his papers and at the same time holding out his hand in the hope of receiving the paper which you are through with. These papers are either sold again or returned to the newspaper offices as unsold copies.

There is as much difference in the methods of these newboys as there is in the ways of business men who advertise. Some of the boys push to the front and seem to catch the eyes of almost everybody. There is another kind of boy who stands a little bit in the background, but who still reaches out his hand. Out on the edge are some of the smaller, weaker and less energetic boys, and beyond them are some who take no interest in the proceedings at all, who receive few papers and sell few.

The boy who asks oftenest and keeps most persistently in the foreground, is the boy who gets the most papers.

The advertiser who keeps his business prominently before people and asks persistently and often for their trade is the one who will get the most business. The man who is nearly as energetic will get the business that is left, and the one who stands around on the edge with his hands in his pockets may very reasonably and justly expect to get "what the boy shut at."

Advertising reduced to the lowest terms is merely asking people for their trade. That's all there is of it. A business man wants trade in some particular line. If it is a good line, and if he understands it and runs his business properly, it is only a question of asking enough people and asking them often. In the dull season, when comparatively few people are buying anything, the advertising effort should be increased as the number of possible buyers decreases. It is easier to sell 10 worth of goods among 1,000 people than it is to sell that much among 100 people. If there are only 100 people to work on, work them hard.

Steamship on a Sand Bar.

(Special to the ADVERTISER.)

MONTREAL, Aug. 6.—The Canadian Pacific Railway Company's steamship Empress of China ran aground on the bar at Shanghai Saturday afternoon, due to a change in the position of the red buoy at the mouth of the Yellow River. As the bar at the mouth of the river is of soft mud. The vice-president of the company is of the opinion that no special harm has been done, beyond the inconvenience resulting from the delay while the cargo is being shifted. The same officer stated that newspaper reports to the effect that arms and other articles contraband of war are being carried by the Canadian Pacific is without foundation; everybody connected with the company's steamship service was cautioned to do nothing that might furnish ground for complaint on the part of either of the contending nations.

Good Authority.

Marie—Why, how tight you wear your corsets! I never could enjoy anything if I wore mine as tight as you do.

Myrtilla—Grace before meat, you know.
