Shows Political Fallacy of Virtues of "Meighen Protection."

ASSAILS FORD PROFITS

Wants To Know True Source of Premier's Campaign Cash.

[Special to The Advertiser.] WINCHESTER, Ont., Nov. 18 .- In an arraignment, bristling with figures and concrete examples, Hon. W. E. Raney, at a political meeting here tonight, exposed the political fallacy of the Meig-

At the outset the attorney-general made it clear that there were many important issues before the electors, allough for very good reasons, the Meighen party was trying to keep the tariff n the foreground.

Many Issues Now. Going direct to the issues of the

campaign Mr. Raney said: "It is quite idle to say, as Mr

Meighen does, that the tariff is the only issue in this election. There are other issues of vast importance about which Mr. Meighen says scarcely a

KEEP HEALTHY **DURING WINTER**

Colds and Diseases May Be Avoided If the Blood Is Kept Pure.

Do not let your blood get thin this winter. For people who have a ten-dency towards anaemia, or bloodless-ness, winter is a trying season. Lack of exercise and fresh air, and the more restricted diet; are among the many things that combine to lower the tone

of the body and deplete the blood.

As soon as you notice the tired feeling, lack of appetite and shortness of treath that are warning symptoms of thin blood, take a short course of treatment with Dr. Williams' Pink Pills Do not wait until the color has entirely left your cheeks, until your lips are white and your eyes dull. It is so much easier to correct thinning of the blood in the earlier stages than later. This is well illustrated in the case of Mrs. E. Williams, Elk Lake, Ont., who says: "I take great pleasure in letting you know the benefit I have found in use of Dr. Williams' Pink Pills. I was in an anaemic condition, and was very weak and rundown. The least exertion would leave me breathless and it was with difficulty that I did household work. I was advised to try

Dr. Williams' Pink Pills, and after the use of four boxes I felt like a new person. In fact my system seemed filled with new energy and new life. I strongly recommend this medicine to all who feel weak or rundown."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They this one thing, and they do it well They are for this reason an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, bad or dencient blood, as neuralgia, after-effects of the grip or The pills are guaranteed to The pills are guaranteed he free from opiates or any harmful drug and cannot injure the most deli-

"Well, he who pays the piper calls the tune and the gentlemen who are paying the piper for this election are beneficiaries of the present tariff and they have called the tune and Mr. Meighen is playing it and the tune is of course the virtues of protection. Tariff Issue Important.

"Though the tariff is not the only issue it is an important one and it is a good enough issue on which to Canadian Ford fac cord and the policy of the government, and the people are accept-ing the challenge of Mr. Meighen's wild pibroch call to battle on this issue. So let us look into it.

"The country has to raise a revenue and whether a customs tariff is a scientific method of taxation we cannot analyzed its workings as applied to the now stop to argue. Our revenue needs are so enormous that however desirable free trade may be, theoretically, it is not now and will not for a long time be on toms tariff is common ground of all the three parties now contending for domination of the Parliament of

"Mr. Crerar's theory on the other and, is that the present customs tariff of Canada is undoubtedly a great book to certain manufacturing interests, but that it is correspondingly oppressive in of its features of the consumers of Canada and that the tariff ought to be revised on the basis of the country's revenue needs, with due regard to the nterests of both the manufacturer and

From these things we may infer the spirit in which the tariff will be revised if the revision is by Mr. Meighen. Refrained From Revision.

"Did the government deliberately re-frain from bringing down its full re-vision? Was it influenced by the consideration that a revision such as its friends, upon whom it would have to rely for a campaign fund, would consent to, would have meant certain en-nihilation at the election?
