THE RING.

FEATHER-WEIGHT'S FIGHT A DRAW. Both took and gave some hard punches, and both were strong at the finish. THE COLORED MAN WON.

Chicago, Oct. 31 .- Geo. Byers, the colored middle-weight of Boston, in his fight with Tim Murphy, of Australia, last night at Tattersall's, proved a disappointment to the 5,000 spectators present. Byers got the decision after six rounds of tame fighting, but made such a poor showing that a number of persons left the hall in disgust during the tatter part of the contest. Murphy proved to be nothing but a wild swinger, but Byers worked too easy to do much damage, and only gained the decision by a narrow margin. Murphy was down for the count in the first round, but Byers failed to follow up his advantage, and allowed Murphy to recuperate. Both were dazed from wild swings in the next three rounds. Byers won up in the last round, and had Murphy in bad shape as the contest ended. middle-weight of Boston, in his fight with

He felt that the people were tration had been economical and honest. It had been charged that the Government were not honest, that they had been extravagant, and that they had broken their pledges. Such charges could easily be made, but they were not so easily proven. The administration had not been guilty have been renovated years ago. Mr. Gillson said that in 1896 all the papers of England deprecated the condition of affairs in this country from a political standpoint. Even the London Times spoke in the most humble terms on the matter, and the intelligent element of the Conservative party helped put an end to it. Now. the papers of England spoke of the satisfactory state of affairs under the Laurier administration, and people generally were well pleased. Mr. Gillson said that if elected he would not support every measure brought in by the Government, unless he was satisfied they were for the welfare of the whole country. Mr. Gilmour was very warmly received. He criticized some of the re-

He referred to the street railway strike, and said that the mayor, elected by the labor vote, who had stood at the corner of Dun,das and Richmond streets while the militia were breaking the back of the strike, was now on Major Beattle's rlatform. Mr. Roadhouse argued that the Socialist Labor party were rapidly

gaining strength. In 1898 they had 126 votes. Last year they were but 240 votes from electing a mayor. Penny postage was a benefit to the capitalist. The working class did not write ten letters in the year.

The working class were the wealth producers, and when the Socialist Labor party gained power the wealth would be "lawed" back to the men to whom it belonged.

I have without doubt the "world's best" appliances. The following extracts from the letters of some grateful patients will substantiate my claims:—

"Was badly ruptured on both sides for years. Your truss gave me immediate relief and comfort. Anyone requiring further information can write or call on me at 203 Sackville street. Walter Nicholson."

From Mr. John Doty, formerly of the Doty Engine Works and Ferry Company:—"Ruptured many years. Used many trusses, but none could equal yours. I have had thorough satisfaction and comfort with it. I will recommend it to everyone I hear of needing a truss."
