Speak a good word for your own town and country whenever opportunity presents itself. More towns die for want of confidence on the part of business men, and public spirit, than from rivalry of neighboring towns or adverse surroundings. When a man is in search of a home or business location and goes to a town and finds everybody brimful of hope and enthusiasm over prospects of the place and earnestly at work to build up the town, he soon becomes imbued with the same spirit, and, as a result, he drives down his stakes and goes to work with the same interest. When, however, he goes to a town and everywhere expresses doubt and apprehension in the future prospects of the place, musing about and indulging in morbid, complaining about imaginary evils, which are likely to befall the town, he naturally feels that it is not the place for him and at once shakes the dust from his feet, while he pulls with all possible speed for some other town. Consequently try and make a live, enterprising and progressive town out of the one in which you live, and remember that when you are working for or saying a good word for your town you are accomplishing all the more for yourself. Then speak a good word for your town.

FREQUENT HEADACHES

A Sure Sign That The Blood is Watery and Impure.

People with thin blood are much more subject to headaches than full blooded persons and the form of anaemia that affects growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or vertigo. Muscles, subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Windsor Tribune: The Mormon Elders say their church believes in polygamy but does not practice it. Men of the Christian belief do the opposite, but not as a means of grace.

ACADIA UNIVERSITY WOLFVILLE

Departments: Arts and Sciences, Applied Sciences, Theology.
Degrees: A.B., B.Sc., B.Th., M.A., and certificates admitting to the best technical schools.
First two years in Agriculture given as electives in B.Sc. course. First year in Medicine, Law, and Theology given as electives in B.A. course.
Equipment: Largest undergraduate faculty in the Maritime Provinces. Three new and splendidly equipped Science Buildings. Modern gymnasium and physical training.
Expenses: Light, and over \$2,000.00 given in prizes and scholarships yearly. Send for calendar to:
Rev. GEORGE B. CUTLER, Ph.D., D.D., LL.D., President.
Next term begins September 27th, 1920.

CANADA TO BE IMPORTANT FUR MARKET

Canada is now exporting to other countries according to Dominion Government figures, \$14,000,000 worth of furs and skins in the course of a year, and a number are brought back into the country, purchased by Canadian dealers at foreign sales and resold to Canadians. The value of furs and skins exported during the fiscal year 1918-1919 was \$13,737,721. Of these \$9,743,464 worth went to the United States, \$3,753,555 to Great Britain, and \$299,202 to other countries. Some extent of the values to which these exports have risen can be obtained from the fact that the value of the export of furs and skins in 1917 was but \$5,827,332. During the month of March 1919, the value of these exports was \$2,680,794 as compared with \$1,420,168 in the corresponding month in 1918. It has been estimated that eighty per cent of the silver foxes of the world come from Canada.

For nearly four centuries Canada has been one of the largest and most productive fields of the fur trade, and it is impossible to estimate the number or the value of the costly pelts taken from the traps of the Dominion in this period. Yet, until quite recently, the fur trade was hardly organized on a business basis, save beyond the trapping and making of the furs the various phases of the industry passed out of Canadian hands. Traders bought from the trappers and then the raw materials went to the large foreign markets.

There has gradually dawned a realization of the money lost in this way, however, and in future Canada will market her own furs and Montreal become one of the most important fur markets of the globe. For years London, St. Louis and New York have been the selling centres to which Canadian furs have travelled and St. Louis had the world's premier fur mart. The auction at Montreal will be conducted by a large company capitalized at \$5,000,000 and will be largely co-operative in nature. It is the intention to hold three auctions a year, the first about next March.

The opening of a Canadian fur market is a natural development of artificial breeding and fur ranching. This industry is fairly general throughout Canada, and in Prince Edward Island the industry which has been in operation for more than thirty years, has assumed very important proportions. In 1914 there were in the island no less than 250 fox ranches with nearly 4,600 foxes.

EXPORTS OF PURE-BRED STOCK

The breeding of purebred stock in the West may be considered a comparatively new industry, for it is not long since the days when quality was the idea uppermost in a rancher's mind, and quality in his animals received very little consideration. This was in the epoch of the huge ranches, but with settlement and the introduction of other and more intensive methods of agricultural stock raising, much attention has been paid to the quality of the animal raised with the result that the stock of the western provinces is becoming known wherever interest is taken in the maintenance of herds of prime quality. In the western provinces breeders have always had the active co-operation of the various governments who by an aggressive campaign of propaganda, the institution and work of experimental farms and intelligent distribution of high-grade animals in the stock raising districts have striven to elevate the quality of the animal bred and eliminate those of low grade.

The results of this intelligent co-operation are becoming more evident every day. Purebred stock farms are now as common throughout the West as were the ranches of the old days, and the demand for the product is increasing and covering a large area. Each year many animals are purchased by American farmers at the annual sales throughout the west and huge prices realized. Australians are enthusiastic over Canadian purebred cattle. Recently a herd of Holsteins were shipped to the Antipodes as an experiment, and so great was the demand that they could have been sold several times over. The outlook for export in this direction is so bright that a further herd of twenty-four head has been shipped from Vancouver, and it is confidently expected a regular export business in Canadian purebred stock will be maintained with Australia.

- (1) Some fine cattle graze on Alberta Prairies.
- (2) The children help to rear the stock on the Prairies.

British Columbia has also supplied the Hawaiian Islands with its first purebred stock when, a short while ago, a consignment of Holsteins and Jerseys went to the stockmen of Kahuai, Island of Maui. A clear realization of the importance of high quality, have in fact, with intelligent breeding and the active co-operation of the Dominion and Provincial Governments, raised the Canadian purebred standard, until it has through its own excellence created the general demand which exists at present.

Ginger Cordial
