# LOBSTER SEASON MAY BE EXTENDED

Only Small Catches Along the South-western Shore.

Yarmouth.—Gratifying information has been received in Yarmouth from H. L. Hatfield, M.P., Yarmouth-Claire, now in Ottawa, to the effect that the lobster fishermen of the South Western and Western shores will probably this year be allowed an extension of the lobster fishing season in June. The extension, however, will depend largely on the development during the present month and May. The news will, however, come as a great relief to much anxiety created among the fishermen by the prolongation of Winter weather. Up to date the largest shipment of those crustaceans yet made to Boston since the opening of the season in March, has not exceeded 120 packages, and later the Prince George sailed for Boston and did not take over eighty packages, as compared with seven, eight or ten hundred packages for the corresponding sailings of many previous seasons.

With the anticipated extension, fishermen now see a possible chance of overcoming the great losses caused by the backward weather.

## THE SUGAR PROFITEERS IN THE STATES

Washington.—Demands for an investigation of fluctuations in the sugar market, made during the closing days of Congress by western Senators, were revived today by a publication of a letter written to President Harding by Basil Manly, Director of the People's Legislative Service, charging that the people of the United States were in a fair way of being robbed of \$500,000,000 for the benefit of "sugar gamblers and profiteers". In a statement issued following the publication of the letter Secretary of Commerce Hoover said the demand for an investigation of sugar price fluctuations "is about a month behind". He added that such an inquiry had been instituted by the Government on March 4th.

## STRIKERS STONED GERMAN FISHERMEN

London.—The fishermen's strike resulted in wild scenes in Aberdeen recently when a crowd of strikers and sympathizers damaged German and other foreign trawlers in the harbor. The trawlers were unloading fish but intense stoning from the crowd compelled them to put out to sea. The boats had to run the gauntlet of crowds assembled on both sides of the harbor mouth. The bombardment of the vessels was so intense that cries of pain and alarm were heard from the decks.

## THANKFUL MOTHER

Once a mother has used Baby's Own Tablets for her little one she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets are Mrs. David A. Anderson, New Glasgow, N.S., who writes:—"I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every mother to keep a box of the Tablets in the house." The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers, or by mail at 25c. a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

## PREVENT THE FIRES

"Instead of attacking imaginary enemies, we ought to organize a crusade against a real ku-klux-klan which exists here as almost everywhere else. This ku-klux-klan is made up of the acts of negligence of which we are all more or less guilty—negligences which are more serious in this country where, owing to the climate, the fire risk is greater during part of the year than in other places, for the heating of houses and buildings must necessarily be more intense, and for a longer period than in countries where the Winter is less severe. The real ku-klux-klan hand, then, is that conglomeration of 'criminals' whose names are: 'Over-heated furnaces, stove-pipes rotten by usage, chimneys deposited in wooden boxes, burning cigarette stubs carelessly thrown aside, coal oil thrown on 'live' stoves, paper carelessly scattered near stove or furnace, matches left within access of small children, and—especially in large buildings—chauffeurs who are often weak, negligent and imprudent."—Le Clarion.

The sheep that bleats most does not give the most wool. When about to put your words in ink, 'Twill do no harm to stop and think. He who does no good while he lives dies like a beast. An ill life, an ill end. Who hath God hath all. No jesting with edge tools. Enough is as good as a feast. A penny saved is a penny got.

## THE LISTENING POST

The editor is in receipt of a copy of "The Listening Post". The Listening Post is a magazine of solid worth and merit, and judging by its first number will prove to be one of the really strong, broad, virile institutions in the literary life of Canada. The initial number is a magazine of 40 pages, with a very creditable cover of heavy calendared paper in colors. It is printed in Montreal, and among the contributors in this number who have very interesting articles are Sir Arthur Currie, Stephen Leacock, Lord Conington, Theodore Roberts, Wilfrid Bovvy, Fred James and E. LeMessurier. The articles are all excellent and alive with real stuff. It is besides one of the cheapest priced high class magazines, only \$1.00 for a year, and is certainly a big bargain at this price. Send your dollar to "The Listening Post Pub. Co.", Montreal, and you will get the magazine for a year.

## SOME "ROOSTER"

A laconic old hen was out in the road. Industrious scratching for dinner. When along came a fiver of the latest mode. All painted up fresh from the tin. When nary a hawk it biffed the staid fowl. And almost to wreckage reduced her; When Biddy came to, she exclaimed with a scowl, "Gee, but that was a rough old rooster!"

## THE COUNTRY DOCTOR

"The old country doctor, driving as he had to over slow roads, faced terrible handicaps," says the New York Sun. "He would reach his patient too late. He had no office time in which to read up on modern treatment. He often exhausted his physical endurance in endeavors to cover too large an area. He spent on the road hours he should have spent in bed. No wonder his son shunned his practice.

A doctor in his automobile, driving over a hard road, nowadays thinks nothing of going 10 or 15 miles to a patient. He can handle more patients in the time saved from the slow trips of horse and buggy days. He can give them far better service. If the occasion demands, he can send an ambulance to bring them to the city hospital. Better highways will bring better doctoring and better rural health wherever they go."

## GONE ON

The great Sarah Bernhardt, who in her long life on the stage, has thrilled millions all over the world with her wonderful emotional power, died at her home in Paris on the 26th, in the 79th year of her age. A world has almost hung over that death bed, and a world now mourns that one of Earth's great ones has passed into the Great Beyond.
