CROWDED OUT AND OTHER SKETCHES

"*Crowded Out* is the title of a singular collection of sketches of Canadian life. There is something fresh and vivid about these brief little romances, which speak for themselves as regards truthfulness to local peculiarities. Several of these sketches are really exquisite bits of work-painting, and the characters are skillfully chosen from Canadian types."—London, (England,) *Literary World*.

"A collection of picturesque and striking little sketches. The local Canadian color has evidently been studied and reproduced by the author *con amore*; and there is at the same time in these very short stories such a mingling of originality of plot with grace of treatment and style as marks an author at once cosmopolitan in knowledge of human nature and clever in catching the individual characteristics of special places and people. One hardly knows which element predominates—the picturesque, the humorous, the imaginative, or the realistic."—New York, *Critic*.
