Marshal Foch and his Theory of Modern War **CAPTAIN A. HILLIARD ATTERIDGE**

5s.

Author of "Muret," "Marshal Ney," "Famous Modern Battles," "Towards Khartoum," etc.

A book of paramount importance, not only for all military men but the general public, who here, for the first time, see the great French Field-Marshal as a man and a soldier.

A book giving an intimate biographical sketch of the man whose genius may be said to have saved France and Europe at a critical moment; containing a full and clear *exposé* of the theory and practice of strategy, based on Marshal Foch's own books, and on his operations in the present war. It is impossible to overrate the importance of this book, written in a graphic and delightful style, by this well-known expert on military matters and history, the man who was present throughout Kitchener's Soudan Campaign.
