How to Obtain It...

Send us the names of **three** new yearly subscribers, with \$3. Give the names and postoffice addresses plainly, your own name and postoffice address as well. Register the letter or enclose a postoffice or express money order for the money. On receipt of this, we will forward the watch to your address, securely packed and carriage paid, as an **absolutely free gift** in return for this slight service. Any three of your neighbors or friends who are not already subscribers to **FARMING** will be glad to give you their subscription, as no one who is interested in farm, live-stock or dairy can afford to let this opportunity pass.

It is Easily Done...

FARMING is the only illustrated weekly agricultural newspaper in Canada. With it is incorporated *The Ontario Agricultural Gazette*, the official organ of the Dominion Cattle, Sheep and Swine Breeders' Associations, and of the Farmers' Institute System of Ontario.

The Weekly Market Review is alone worth many times its subscription price to every farmer. It indicates the best markets, tells when to buy, when to sell, and the current market prices of all farm and live-stock products.

Topics of the Week and Agricultural News and Comments furnish fresh and crisp from week to week the latest and most reliable information regarding the condition and prospects of the farm and live-stock industries of the country.

Its Editorial articles and contributions are bright, practical, interesting and fresh. As a leading farmer has said: "One year's subscription to **FARMING** will furnish a farmer with a complete agricultural library."

There should be no difficulty in obtaining the subscriptions of all practical farmers to a paper which so fully meets their wants. Subscription price is only \$1.00 a year, for which every subscriber is entitled to receive fifty-two complete numbers.
