PROPERTY TO BE LET OR SOLD.

Another thing in relation to city life is, the great cost of living. Young men are often greatly taken up with the accounts of high salaries and large incomes that are realized in cities, but they solden hear or take into consideration the fact that they are made necessary by the greatly enhanced cost of living in cities, as compared with the country, and that, as already shown, as an excellent supply to Men. The west half of Lot of the country, and that, as already shown, assume that the country, and that, as already shown, assume that sold the country and that, as already shown, assume that sold the country is an area. Hence that so a position cash, and is accounted that is a should be incompleted as a contract of the country of Norfolk—The west half of Lot for a highly respectable family, also as a free well suitable for a highly respectable family, also as a fine to the country. The domestic section of water on the pressives. Garden ground about a san area. Hence I on or may be highly to the country of the country. The domestic section of the country the lot, well suitable for a farmer and his In the Village of Mount Pleasant, about &

It may be objected that Farming is not correct idea of the great numbers that fail, sufficiently intellectual—that it is a mere routing of physical toil. To this, we answer that it is not necessarily so. That

In conclusion, allow us to say to young

The mail road passes through the land. The added. On part of low No. 30 and 31, is awer that it is not necessarily so. That In conclusion, allow us to say to young although it may not be necessary, for the farmer to spend several years in getting rable business, choose farming. If they an education and studying his profession, want an occupation that, while it does not ton to be made to Mr. Webber. tions previous to first May should be on titled; to five admission to the show of the highest importance that he should be familiar with the different scientified; to five admission to the show of thanks having becumoved to the restring President and to Mr. Patton the Secretary, the meeting adjourned.

Annual Meeting of the West Brant Agricultural Society.

On Saturday, 18th ult; the Annual Meeting of the West Brant Agricultural Society.

On Saturday, 18th ult; the Annual Meeting of the West Brant Agricultural Society was held at those engaged in other pursuits; should be familiar with the different scientific properties about 123 feet, fronting Classess was not considered and overstrained exertified; to five data which, for quality of soil, cannot the proper and healthy development of the proper and healthy development of the best farmers in this and other countries, as well in the cultivation of the soil and raising crops as in the benching, management, and care of domestic animals. That the dangers and temptations, the allures of Land, together with House, and increase well as ments and onesistent, that farmers as well as those engaged in other, pursuits, should be well informed in history, and literature, the foundation of the soil the mode of the male to Mr. Webber.

To the medical control of the should be will observe the neglect of all others; is well calculated for the restriction of Brace. Half of Lot No. 9 in the necession. Bo Acres of Excellent Farming Land, which, for quality of soil, cannot the remetal and physical capacities the instance of the uncleared portion of the soil danger and compact rough as a tent of the necession. The cottage contains attaing erops as in the countries, as well in the cultivation of the soil and physical capacities as well as their beat mental and physical capacities as well as their beat mental and physical capacities as well as their beat mental and physical capacities of the metal of Brace. The freet Proceed the containt and physical capacities as well as their beat annum, free of taxes. With alight impreve-ments, a great deal more might be made of this property. The whole or any, portion of said property may be taken according to agreement. Terms—To be sold or exchanged for Land. No objection to a few acres of wild land.
