Some Glimpses of Muskoka Scenery.

ideal Summer Resort-Its General Fea-

In making my Canadian tour I know it would be incomploto without a visit to the much talked of land of Muskoka, I, therefore, resolved that I would see it with my own cyos so as to be able to speak of it from personal knowledge I regard it as a laud essonitially sitted by nature to be the home and resort of sportsmen, pleasure seekers, consumptives and people generally of weak constitutions. It stands at an elevation of a thousand feet above the level of the sea, its clear, crisp northern atmosphere imparts now life and vigor to wasted bodies and werried minds, and under its invigorating influence oven despendent splitts begin to take new hopes of life and to view read or imaginary ills in less fearful aspect. This beneficial change is purely the result of calmed norves and a strengthened cody, for onfeabled minds cannot grapple with difficulties without looking at them in an almost despairing mood. Then take the quiet mouded portion of humanity who seek repose in nature's charms, and for them there is no better place than Muskoka, for in its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its marvellous viriety of lakee, rivers, leaping cascades, rocky heights, for its bout of the matter of the matter with the head of the matter of the matter of the matter with the head of the matter of the matter

sides of the line Meakoka will always be regarded as their "happy hunting grounds," whenever the vacation season begins. Nature, itself vacation season begins. Nature, itself vacation season and its physicial conditions are in some be altered. Musicoka is very easy of approach. The Grand Trunk Railway runs right through the district and into North Bay, giving acthended outlets for all travel and commorcial interests at Parry Sound and the vast region bordering the Georgian Bay. At the three obiet business conteres: Bracebridge, Gravenurst and Hunssville, the Immber, milling and tanning concerns carry on business on a large scale, and in the fostering of these branches of trade the railway named offers great facilities, as it does in its passenger traffic arrangements from all converging points that lead to Muskoka. To thus fine transportation system coupled with the discipline and order on the stemers of Muskoka. Navigation Coupany, this picturesque northern land owes much of its advance and prosperity. The travelling public expect good treatment from the carrying corporations, and are entitled to it, as far as I can judge no effort is spaced by ofther of the bodies named to consure the safety and comfort of the people who travel this way in search of amusement and recreation and a needed released of the safety and comfort of the people who travel this way in search of amusement and recreation and a needed released of the place, make of hom a Zulous common to the districts would like larger congregations. The Rev Thomas F. Floming has been especially active in this way. His missionary charge extends now from Huntaville to Carnoy, Parry Sound and over an immense and lands of their own, for he knows that is the ossential condition of permanent settlers. In his efforts he has been helped by Rev. Father McGitrie, late paster of Bracebridge. In future he will be strengthened in the work by the Rev. T. F.
