Pandora Range

SAVES FUEL AND HELPS TO PAY FOR ITSELF.

It is not the price you pay for a range which makes it cheap or expensive, but the fuel it consumes after you get it.

If you buy a range which costs \$5 to \$7 less than a "Pandora" and it burns a ton, or only half a ton of coal more in a year, what do you gain? Nothing, but you actually lose money, besides putting up with all the inconveniences, troubles and extra work which are a certainty with a poor range.

The "Pandora" is equipped with many fuel-saving features which are not found on any other range. Hot-air flues are constructed so that all the heat from the fire-box travels directly under every pot-hole and around the oven twice—every atom of heat is used, and only the smoke goes up the chimney.

Sold by all enterprising dealers. Booklet free.
