IN A BURNING PULLMAN. AN EXCITING SCENE IN WHICH MONTREALERS PARTICIPATED.

HALIFAN, N. S., Sept. 26 .- Shortly after the train from Montreal to Halifax left Barique Station, about 100 miles west of Moncton, the Pullman car Merimac took fire and was totally destroyed, two passengers losing all their effects. The facts about the affair are as follows :- Shortly after 10 o'cleck R. B. Saltzer, who was a passenger in the burned Pullman, said he smelt wood burning, and called his fellow-passengers' attention to it. Mr. Lee Ross, of the Royal Electric Light Company, Montreal, called the porter, who, with Mr. S. A. Chesley, of Lunenburg, went to the rear end, where the stove was, and found that the wood about the stove had become much heated. The draughts were opened and Mr. Chesiey returned to bed, and the passengers, being assured that there was no danger, settled down again for sleep.
About ten minutes after the car was noticed to be ou fire by the buffet man, who called on the passengers to get up and save themselves and effects. The fire was in the rear end of the car, and the great draught caused by the rapid motion of the train made it burn rapidly. There being no rear exit the smoke was forced. along the top of the car, filling it completely. The passengers turned out as quickly as possible, going into the next car. They had not time to dress, but picked up what they could and ran for their lives. One or two of them attempted to return but found it impossible. Ross managed to secure some jewellery which was in a satchel under wife's pillow, besides some wear-apparel, but only got out of the car with the greatest difficulty. He became entangled in the bell rope and had to crawl along the floor. He then got an axe and smashed in the side of the car and secured a dress and satchel which were lying in his berth. In doing this he cut his hand in several places. He lost all his own jewellery, which was in his pants pocket, besides \$249 in money and clothing. After the train had been stopped it was found that there was nothing on hand to extinguish the flames, and under the circumstances the conductor decided to run to the next station, Beaver Brook, about three miles further on. Here water was thrown on the flames, but the fire was burning so fiercely that it was found impossible to put it out. The burning car was then side tracked and in a short time was consumed. At Moncton another Pullman was attached and the passengers again retired. The passengers on the sleeper were: R. B. Saltzer, Dominion Organ and Piano Company, Bowmanville, Ont.; A. B. Morine, Newtoundland; George A. Loasby, Northern Pacific Railway; M. Lee Ross, Royal Electric Company, Montreal, and Mrs. Ross; George Hill, secretary Montreal Woollen Mills company; S. A. Chesley, barrister, Lunenburg; J. R. Fink, agent, R. Hender-

As it was the passengers showed great coolness, and did all in their power to help them-

selves and others. All speak in highest terms

of the coolness displayed by Mrs. Ross, who was the only lady in the train. She managed

to get out with a pair of slippers, and her

husband's coat was thrown over her shoulders.

The passengers appear to blame the porter,

whose duty it was to watch the fire. They also say he did nothing to assist them, nor

did he make any attempt to extinguish the

flames. The conductor of the train is spoken of highly. The express arrived at Halifax in

has also shown signs of activity. son & Co., Montreal; Mr. Stevers, a railroad man; Roderick McDonald, Inter-colonial railway station master, Halifax. The majority of the passengers lost everything, many having to go through other cars soliciting clothing, such as boots, hats, pants, etc. Mr. Hill lost \$94 which were in his refinery. pants pockets. He had to leave the car in an undershirt, being unable to secure any part of his clothing. Mr. McDonald lost a valuable presentation gold watch, which he valued very highly. Had the car been full of passengers, or had the fire occurred later in the night when all were asleep, there would probably have been a serious loss of life to record this morning.

BREVITIES.

The midnight sun is not a wearing attraction. Mrs. Soldmore, of Washington, who has been at Boven, Norway, witten that she has seen, it, and would give \$1 for a dark night and anthonest sleep.

They tell in Brattleboro, VA, of a clergy-man who refused to take meat of his hutcher because it had been killed on Sunday. A few days later the preacher told the butcher that he wanted some meat. " "I haven't any to sell you, said that conscientious man. "" I have stopped receiving money that is earned on Sunday.

An African princess is living in Hanover County, Va. She is fourteen years old, and lives in the family of an Episcopal clergyman, who was a missionary to Western Africa some years ago. She is soon to return to her native land to marry the king, and, with her American education, she is expected to prove i weful q<del>ueen</del>, 🐗

Quintilian Skrine, a classmate of Alexan der H. Stephens and General Robert Toombs, died at Bath, Ga., the other day. He was the best scholar in Georgia, a bot mist of note, s European traveller and otherwise remarkable, but he never had the heart to make tamous the singular name left to him by an eccentric father.

One of those singular freaks of nature, s veritable white crow, was, according to the Conneantville (Pa.) Courier, recently shot by Frank Everett, of Steamburg, Crawford Eureka a County. The bird had been seen for the past \$2; rook two seasons in a flock of crows in the vicinity of Steamburg, and several sportsmen had Wool made ineffectual efforts to secure it.

An eye-witness to the hanging of thirtyeight Sloux Indians at Mankato says the copper colored murderers came from their prison, danced across the atreet and capered up the stairway of the platform like a herd fisece, 21c to 23c nominal; black, 21c to 22c, of wild animals. Each man bore between his Australian none. bronze lips a cigar, at which he puffed as the rope was placed around his neck and the knot adjusted under his ear.

adjusted under his ear.

The Lewiston (Me.) Journal tells of a pretty girl at Bar Harbor whose dress at a recent hop attracted much attention, and well garian per brl, \$5.25 to \$5.50; do American do, with long, closely fitting sleeve and rigo military collar. The other half, beginning at exactly the middle of the bosom and back, was remarkably low, and the only sign of sleeve was a narrow shoulder strap.

A citizen of Clayton, Ga., lost a valuable dog, and suspected that he had fallen into a deserted mining shaft. He could neither see nor hear anything of him at the bottom of the sixty-foot hole, but when he let down a piece of meat on a string something "bit" as greedily as a Saranac trout. Then a miner went down, and sure enough the dog was there, and after being drawn up was found to be unburt.

A Reading, l'a., drug clerk, annoyed by some little boys, caught one of them and painted his lip with oxide of silver. When the boy tried to wash it off it turned black, of course. His mother nearly skinned the lip rubbing it, and then took her son to the clerk. He put on carbonate of soda, and that made the lip smart and the boy howl. Then she got a warrant charging him with

assault and battery. There was an American farmer who owned a little scraggy, cantankerous bull that could not be kept inside of any lot that was ever fenced in Connecticut. One day, just after the railroad between Hartford and Springfield was made, he broke out of his pasture and made for the railroad. His owner saw the tip end of his tail disappear over the fence. and "put" for him the best he could. Just as he reached the railroad, along came a train at full speed, and there stood his bull on the track, with head down, and ready for a fight with the locomotive. The old man swung his hat, and shouted at the top of his voice. "Go it, you little cuss ! I admire your pluck, but despise your judgment.

## WARM AND COLD BATHS.

The physiological effects of warm and cold baths are thus noted by a writer in an English medical journal:--Warm baths produce an effect upon the skin directly contrary to that which is brought about by cold water. The cutaneous vessels dilate immediately under the influence of the heat, and, although the dilation is followed by a contraction, this contraction is seldom excessive, and the ultimate result of a warm bath is to increase the cutaneous circulation. The pulse and respiration are both quickened in the cold bath. A warm bath increases the temperature of the body, and, by lessening the necessity for the internal production of heat, it decreases the call which is made upon certain of the vital processes, and enables lite to be sustained with a less expenditure of force. While a cold bath causes a certain stiffness of the muscles if continued too long, a warm bath relieves stiffness and fatigue. The final bath relieves stiffness and fatigue. The final effect of both hot and cold baths, if their temperature be moderate, is the same, the difference being, to use the words of Braun, that " cold refreshes by stimulating the functions, heat by physically facilitating them, and in this lies the important differences between the cold water system and the thermal mode of treatment.

## COMMERCE.

Weekly Review of Montreal Wholesale Markets.

We note further signs of activity in wholesale business since last writing. Groceries particularly are in good demand, and dry goods and shoe and leather travellers are preparing for their sorting trips, which are expected to be successful. Iron and metal trade

FRUITS, &c. APPLES.-Fall stock has commenced to arrive quite freely during the peat few days, and oar loads of Culverts, Genetings, &c.,

have been sold at \$1.50 to \$1.60 per bbl. PEARS.—A moderate business has been done during the week, Bastletts selling at \$8.00 to \$9.00. Flemish Beauty at \$6.00 and L. Bonne at:\$6.00.

GRAPES.-Almeria are arriving in very fine condition this year, and sales are reported at \$4.75 to \$5.00 per keg. Concords are selling at 5c, Chempion's at 5c, Brighton's at 8c, Roger, at 70 to 80, Nungara white at 80 and Delaware at 91 to 10c. California grapes have been placed at \$5.50 per full case.

PEACHES -There has been a fair enquiry during the week, with business reported at \$4.50 to \$5 per carrier.

BANANAS.—The demand grows less brisk as the warm weather takes its exit, and sales have been made during the week at \$1 00 to \$1.50 for reds and yellow, most of the truit being very ripe. For reds and yellows we quote \$1 00 to \$2 00 per bunch.

URANGES.—Receipts of Brazilian are in good condition, and have sold at \$5.00 pr Jamaioas sell rather slowly at \$8.50 Ga**ze.** per bbL LEMONS. -The market, although not active,

is firm, Malagas being quoted at \$11.00 in chests and at \$5.00 in boxes. Palermo in boxes, \$8.00. MUSE MELONS. -Several good sized lots bave been placed for shipment at \$2 to \$2.25

per dozen, extra choice having brought as high as \$4 to \$4.50 per dozen.
Changerries.—The first lots of Cape Codberries have arrived and are very fine. They are quoted at \$8 to \$10 per bbl. as to quality.

#### GENERAL MARKETS.

FISH. - There is a good demand for Labrador herring to arrive, and prices are firm and quoted at \$8 to \$650 per bbl. It is now thought that most of the cargo reported wrecked off the coast of Anticosti, last week, will be recovered. Latest sales reported here were at \$6 to arrive. Capt Breton herring are firm at \$5 75 to \$6 per bbl. In green cod there is a fair demand, and business has transpired at \$3.75, some holders asking \$4 per bbl. We quote \$3.50 to \$4 Dry Cod is steady at \$2.75 to \$3 per quintal. Salmon is scarce and quoted at \$15 per bbl. Boneless fish is in fair request, and sales are being made at 4c to 53 per lb, and bonsless cod at 410 to 7c. Scaled her.ings are quoted at 160 to 17c per box.

FISH OHS.—The market continues in the same dull and demoralized condition, with good Newfoundland cod oil offered freely at 40s, and we quote 38le to 40s per gallon. lot of Gaspe has been offered at 30c, and the sale of a lot of Newfoundland oil was made as low as 32c, but the quality was poor. Steam refined oil may be quoted at 43c to 44c, and straw seal at 32½c. Cod liver oil, 60c to 65c for oid, and 70c to 75c for new.

CANNED FISH. -- We have a fair trade to note in salmon, five or six car loads having changed hands during the week at \$1.40, and we now quote \$1.45 to \$1.50 per dozen cans. Canned mackerel have ruled rather quiet, with sales at \$3.70 per case, and prices are quoted at \$3.70 to \$4 as to quality. Stocks are light, and higher prices are looked for. Lobsters have sold from first hands as \$5,20 to \$5.30 per case, but \$5.50 is now asked.

STEAM COAL.—The last sales of round lots quote: - Canada red and white winter SOc to of Cape Breton coal were mentioned at \$2.90

83c, and spring 81c to 83:: No. 1 hard Duluth ex ship and \$3.25 to \$3.50 delivered. Picton ateam \$3.15 to \$3 25 ex ship and \$3.50 to \$3.75 delivered. Scotch steam \$4 per 2,240 lbs.

> COUNTRY PRODUCE. Eccs. -The market appears to be shaping into a firmer groove, and prices range from 14c to 155, as to quality.

BEANS -New samples are being offered in the Beauharnois district. Several lots of old have been placed at \$1 10 to \$1 25 per HONEY .-- Taere is still moderately good

enquiry for choice western honey, both strained and in comb, with sales during the last few days at 9c to 10c strained, and 12c to 15c per lb in comb, as to quality.

Hops.-There is still a stand-off between buyers and sellers, as the former refuse to accede to the exhorbitant demands of the latter. During the week a few small lots of 1885 crop have been sold at 20c to 25c, and one lot of fine was taken by a brewer at 30c. New hops are held at 40c to 50c.

POTATOES .- We hear very general com plaints of the potato disease from districts lying on both sides of the river. Prices during the week have advanced to 750 to 80 per bag in round lote.

SWEET POTATOES .- A fair demand is mentioned at \$3.50 per bbl. Onions.—Buyers are beginning to look around for their supplies, and gardeners at present are asking \$2 for round lots, \$1.90 having been refused for a lot of \$500 bbls.

SPANISH ONIONS -The market rules quiet

at \$4 to \$4 50 per case. ASHES.—Sales of good sized lots have been made of first pots during the past few days at \$3.90 to \$4 per 100 lbs.

CHEESE MARKETS.

STRONG MARKETS AND AN ADVANCE AT UTICA AND LITTLE FALLS.

LITTLE FALLS, N.Y., Sept. 27.—The cheese sales to day were 70 boxes at 11c, 2,700 at 111c, 2,830 at 111c, 130 at 11g, 416 at 114c, 300 at 13c, 900 on commission and 860 farm dairy at 10 to to 10 to. BROOKS' SEWING COTTON. Since introducing the celebrated Sewing Cotton of Jonas Brooks & Bros., the oldest sewing cotton manufacturers in England, Manufacturers are asking for it,

Tailors are asking for it, Shirtmakers are asking for it, And nearly all private families are now using it, thus proving to the public that this is the best cotton for machine and hand use, not

breaking in the using.

TORONTO WHOLESALE MARKETS. There has been no change to speak of in this market. Business is on the increase and remittances are fair.

FLOUR AND MEAL.—What little flour has offered during the week found ready buyers at our figures. Superior extra is quoted at \$3.60 to \$3.65; extra, \$3.50 to \$3.55; spring wheat extra, \$3.20 to \$3.25. There is little or nothing to report in outmeal, two small local mills being able to supply the demand. The price is \$3,75 to \$3.90. Bran has been

in fair require though a little lower than a meek ago, say \$10.50 to \$11. GROOZRIES. Sugars can be bought for about the rame money as last week, although the refiners are very firm and have asked 33 more than ten days ago. Extra granulated is quoted at 633 and 640 for granulated. Purchases of sugar have been large. Teas are moving tairly well and a better feeling is per-

ceptible. LEATHER.—There was fully the usual number of dealers at the exhibition this year, and while purchases were not large, quite a respects ble quantity of goods went into the country, and on the whole the fall trade may be said to have opened fairly well. Payments are fair for this time of year, make no change in prices, which are fully maintained for fine stock.

GRAIN-Receipts of both wheat and barley have been rather small. We quote No. 1 fall 76c to 77c; No. 2, 74c to 75c; No. 3, 71c to 72c. The same figures represent ruling prices for spring wheat. No. 1 barley quotes at 59c to 60c; No. 2, 54c to 55c; No. extra, 49c to 50c, and No. 3, 39c to 40c. HARDWARE. - Cable reports show that an

advance of £4 per ton in Ingot tin, and £2 per ton in copper has taken place. There are said to be indications of still higher prices. There is no change in tin plates, the market for which is in an unsatisfactory condition, the impression being that many makers are lesing money. The general demand is good. Petroleum.-Quotations in Petrolea show no change and oil merchants here are still

barrel lots of Canadian, with a jo more for single barrels. Carbon safety quotes at 200. and American prime white can be had for 24c., while 3c more will buy water white. For Eccene the figure is 30c. Provisions.—Choice butter meets with a good enquiry at 14 to 160, according to quality, but inferior kinds are quite negle

asking old prices which are 180 for 5 to 10

The feeling in cheese is firm, being a shade higher than last week, say 10½ to 11c. There is a quiet trade reported in hog products, long clear finding buyers at 33 to 9c. Some new cured hams are on the market and have somewhat relieved the scarcity hereto existing in this article. The price is 1410. For lard 91 to 10c is still being paid. Eggs are dearer than a week ago, say 13 to 14c, and firm, with fair receipts.

Wool.—For the highest selected fleece wool
20 to 21c is obtained, but there is not much

offering. Palled wools are without change, and there is only a moderate enquiry.

# DIED.

How often do we see under this heading the name of some one near and dear to us. Many whose names are thus printed would to day be alive, and well if they had, put prejudice and poisonous drugs aside and accepted the honest offer we have been making them for years past. During the last nine years we have cured tens of thousands of patients suffering from abronic allments after all other treatments had failed by means of our wonderful Electric Medicated Appillances. We have so much faith in our goods that we send them on trial, and do not require payment unless they make a cure. Can you ask anything fairer than this?
