

Natural Resources Survey

Established for the Collection and Classification of Definite and Accurate Information regarding the Natural Resources of Canada in such form as to be readily available to any who desire to utilize it. The valuable data collected by the Government, organizations and individuals, will be fully utilized and additions made as rapidly as possible. Bulletins on particular resources or industrial opportunities will be issued from time to time.

The Survey, inaugurated by the Executive of the Canadian Pacific Railway, and supported by that company, is conducted in the interest of no individual or corporation but impartially for the benefit of all and with the sole purpose of advancing the industrial development and prosperity of the Dominion.

Your co-operation and correspondence is invited
