

THE SHAPE

The attraction about Fit-Reform garments is, that they are patterned in a variety of

shapes, so that the Stout man, the Slim, the Short man, the Tall man, can be fitted as perfectly and quickly as the man of regular build.

The cloths are custom tailor's fabrics and are selected for the different shapes of men, with the thought of the wear in view.

The cloths are shrunken and tested for strength and color. The maker stands behind everything, the wear, the fit, the color. Whatever fall short of the mark he makes it right to the wearer.

Suits and Overcoats, \$10, \$12, \$15 \$18, \$20.

Trousers, \$3, \$4, \$5.
