BACKGROUND PAPERS

This series is a medium for timely analysis, in a non-academic style, of major events and emerging issues of peace, conflict and international relations. In some of these, authors are encouraged to incorporate their own personal viewpoints in the presentations.

WORKING PAPERS

Working Papers, the result of research work in progress or the summary of a conference, are often intended for later publication by the Institute or another publisher, and are regarded by CIIPS to be of immediate value for distribution in limited numbers – mostly to specialists in the field. Unlike all other Institute publications, these papers are published in the original language only, with a translation of the abstract.

FACTSHEETS

Factsheets provide short synopses of current issues in arms control, disarmament, defence and conflict resolution, and outline the historical context for contemporary events. The series is intended primarily for senior secondary students and teachers.
