AGRICULTURE

CHAIRMAN'S TEXT

1. The Negotiating Group on Agriculture has made substantial progress in elaborating the elements of the negotiating proposals and submissions under the subsequent negotiating process. The stage has now been reached in this process where the general direction and procedures to be followed in the final phases of the negotiations need to be defined in operational terms so as to provide a framework for liberalizing trade in agriculture and bringing all measures affecting import access and export competition under strengthened and more operationally effective GATT rules and disciplines.

2. There is a broad measure of consensus that agricultural policies should be more responsive to international market signals in order to meet the objective of liberalization of international trade and that support and protection should be progressively reduced and provided in a less trade-distorting manner.

3. The particular needs and conditions of developing countries should be fully taken into account at all stages of the negotiation in conformity with the principle of special and differential treatment to developing countries as laid down in the Punta del Este Declaration.

4. Ministers accordingly endorse a framework approach comprising the following interrelated long- and short-term elements and arrangements on sanitary and phytosanitary regulations.

A. LONG-TERM ELEMENTS AND GUIDELINES FOR REFORM

5. Ministers agree that the long-term objective of the agricultural negotiations is to establish a fair and market-oriented agricultural trading system and that a reform process should be initiated through the negotiation of commitments on support and protection and through the establishment of strengthened and more operationally effective GATT rules and disciplines.
