POSTAL UNION TO RENEW STRUGGLE

Bell Telephon-Western Union Fusion Greatly Worries Clarence Mackay.

(Special to The Toronto World). NEW YORK, Jan. 5.—Clarence H. Mackay, president of the Postal Telegraph Cable Co., was shown today a published telegram which Belvedere ern Union Telegraph Co., sent to all Western Union offices a few days ago in reference to future relations between that company and the American Telephone and Telegraph Co. The tele gram read: "There is no reason that we can see why such plant and traffic relations as have proved beneficial should not continue." Mr. Mackay was asked whether his attention had been called to it. He said: "If that means joint Bell Telephone-Western Union offices we shall open up the fight again. Joint offices are worse than

joint stock, and yet they now admit that joint stock is illegal. "For four years we have had reports of thousands of instances where the Bell Telephone employes have been stealing the telegraph business of the Postal Company, when transmitted over the telephone. We thought that the action of the attorney-general would put a stop to this, but if joint Bell-Western Union offices are to be continued and extended, it is certain that the Bell employes are going to realize the community of interest just as strongly as they did before, and continue to switch Postal business to the Western Union.
