NEW TORONTO PUBLIC SCHOOL BOARD MEETS

Inspector Campbell's Report Received — Cadet Corps to Be Formed.

At the last meeting of the New Toronto Public School Board the report of Inspector Campbell was received. There had been an average attendance of 88.65. One hundred pupils had presented themselves for examination, and the results had been satisfactory. The instruction and discipline generally were also pronounced as satisfactory, the work being on a good basis.

In response to a recommendation of the inspector, it was resolved to instruct Mr. Mole, the head master, and the other teachers to purchase books for the school library to the value of from \$10 to \$15, they to use their own discretion regarding the value and the number of the books on the statutory list to be purchased.

Dissatisfaction was expressed in the fact that Mr. Mole had absented himself for two weeks to attend the Toronto University examinations without having notified the board.

A communication from Mr. Mole was brought up by Trustee P. C. Barrett. Mr. Mole explained that the boys were anxious to form a Cadet Corps. Uniforms would be provided by the government, together with a yearly contribution of \$1 per cadet towards the upkeep of same. Two courses were open: They could form a corps connected to the school, or they could include the boys of the village, who, while Mr. Mole, seemed lost for some kind of amusement in which all could take part. It was resolved that the secretary, James Gott, should write to the secretary of the Boy Scout organization for information before taking action, the trustees expressed the opinion that the training would be a good thing for the boys.

Two anonymous letters were read by Trustee Barrett. The letters pointed out that J. Stone, employed by the Toronto Lumber Co., was yet of school age. It was agreed that the trustee officer, Constable Cameron, be instructed to enquire into the matter and report to the board.

Trustee Officer Lax. "The question is," said Chairman McCann, "is the schoolmaster to ask the officer to report to the board at his next meeting. The chairman pointed out that for nearly a week during last winter the class occupying the lower room on the north side of the school has been compelled to move to another room owing to the extreme cold. It was agreed that the chairman should ask an expert of the Peace Hunting Co. to examine the heating capacity of the room and recommend what should be done to heat the room adequately.

FILLING BIG HOLLOW IN WEST BLOOR ST.

Work Being Rushed So That Highway Will Be Ready This Fall.

The huge hollow in Bloor street, near Clendenen avenue, now presents an exceedingly busy appearance, and the work of filling in is being rushed so that the street will be in condition for traffic before the snow flies. The trestle work on which the trunk sewer is to rest extends from side to side of the ravine like a huge bridge, and is used as such by hundreds of pedestrians daily. Joining it about half-way across is the second structure, which will support the Clendenen avenue sewer, and which is now being used by the contractor for conveying the earth for the filling in. A line of tracks is laid along the leading to the height of land on Clendenen avenue recently acquired by the city for the purpose of supplying earth for the undertaking, and all day long a ceaseless succession of dumping cars busy with the puffing little engines formerly in use on the civic car line construction on St. Clair avenue, is seen passing backwards and forwards. Even during the short time work has been going on, considerable headway has been made. The filling in and the citizens of the southwest part of ward seven are beginning to feel confident that the fall of the present year will see construction work on Bloor street completed as far as the western city limits are concerned.

A permit was yesterday taken out by R. L. Smith for the erection of a pair of stores and dwellings on Bloor street at the corner of Keele, to cost \$14,000. These will be the first stores in the neighborhood and point to the conversion of Bloor street into a business thoroughfare.

He was also survived by three sisters, Mrs. J. Blevins, Grand Rapids, Mich.; Mrs. S. Carlyle, Whitchurch, and Mrs. W. Carlyle, King.

SUGGESTS ANOTHER SITE FOR EARLSCOURT PARK

Fifty Acres North of Prospect Cemetery — Is Natural Park.

Discussing the park situation in Earls Court yesterday, a member of the York Township Council expressed the opinion that the fifty acres of land to the north of Prospect Cemetery would make an ideal site and would be central for all sections of the district, including the northern portion, which the city will eventually annex. The property could be purchased, he said, for about one-half the price of the sites under consideration by the parks committee, and it is a natural park, with hills and dales and well wooded and admirably suited in every way for park purposes.

TAKE STEPS TO PREVENT RACE TRACK GAMBLING

Weston Council Decides to Insert Protective Clause in Agreement.

A special meeting of the Weston council was held for the purpose of considering the tenders for concrete sidewalks. These tenders were made out on the revised specifications prepared by Town Engineer Hicks, but the prices proving prohibitive, the original tender of Johnston Bros. made on the original specification, was accepted, the price being: Walk, 10c per sup. foot; filling, 1c per sup. foot; cast-iron gutter, \$1 per lineal foot. This provides for sidewalks laid in two layers, a one-inch finishing coat at one to two on top of a coarser bottoming.

The forming of curves at driveways is included in the new specifications. Some indignation was expressed that teamsters were in the habit of driving over sidewalks and lawns, damaging them irretrievably. Councillor Sainsbury said that the village usually put down planks where buildings operations were expected. Reeve Irwin was of the opinion that such expense should not fall on the village.

PORT CREDIT — HIGH ST. WILL BE IMPROVED

Marshy Section to Be Filled In — Many Appeals Against Assessment.

At an adjourned meeting of the Port Credit Council, held in the Ontario Hall, it was decided to open up High street from Ann street thru to Elizabeth street, filling in the old marshy part and grading the whole. It was also decided to lay surface water drainage on High street, and to lower the grade of that street, so that recurrence of the flooding of adjoining property during heavy rains and the washing away of the soil may be avoided.

An estimate has been received for forming a concrete roadway under the G.T.R. subway. The residents on the road have agreed to pay one-third the cost of the township and the village will pay one-third each. Consideration of the matter was deferred.

MIMICO — T. OF T. FINAL ELOCUTION CONTEST

Five Silver Medalists Compete — Miss Helen Murray Victor.

At the closing elocution contest of the season, held at the Mimico Presbyterian Church under the auspices of the Mimico Council, Royal Templars of Temperance, five young ladies, all of whom were silver medalists of former years, competed for a gold medal presented by the council.

The chairman for the evening was Ex-Ald. J. A. Austin, and after W. J. Armstrong, past district councillor, had explained the work of the order, the following contestants came forward to recite: Miss Helen Murray, Miss Pearl Jones, Hazel Bulwer and Helen Murray. The judges were: John Buchanan, T. E. Reid of Parkdale Collegiate and C. Ferrier, superintendent of the Mimico Industrial School. After considerable discussion, Miss Helen Murray, who recited "The Old Man's Story," was awarded the medal, and Douglas Davidson, J.P., made the presentation. Miss Murray is an excellent student of the Mimico Industrial School, and in 1911 was chosen from a large class to recite at the Empire Day festival in Massey Hall. The work of her night's class was in charge of Miss S. M. Pearce and was excellent throughout.

A feature of unusual interest was the demonstration of the latest installed electrocardiograph by Dr. Julian Loudon. The instrument will throw altogether new light upon the causes and treatment of all affections and diseases of the heart.
