the best Fall they have experienced for at least four years. Every local trader is said to be on a sound footing, and able to meet his liabilities as they become due. Foreign buyers have left a good deal of money in the surrounding Townships during the past few months, in return for horned cattle, lambs, butter, and rye; and at present there is a brisk trade being done in hay, which is worth \$7 to \$8 per ton in the barn,—the buyer pressing it at his own expense, and forwarding it to the nearest railway depot for shipment.

AVERAGE QUOTATIONS OF STOCKS.—In response to various requests we publish in the present number a table giving the highest and lowest quotations of the principal bank and miscellaneous stocks for the last twelve years, namely, from December 31st, 1867, to December 31st, 1880. Owing to the great amount of labor and research expended in compiling this table, which we believe to be the first of the kind published in Canada, we are compelled to charge twenty-five cents for single copies of the JOURNAL of this week to all other than our

regular subscribers. We are obliged to postpone a review of this table, as well as that giving the average weekly quotations for the present year.

R. S. C. DAVIES, the too clever young bank-clerk, whose arrest on a *capias* on a steamer at Quebec and subsequent imprisonment for debt was noticed in these columns a short time since, would have been released last Friday, the *capias* having been quashed on the ground of his minority, but for other charges which awaited him. Mr. L. Robinson, tailor, had him re-arrested for obtaining goods under false pretences, and "Master" Davies was committed for trial. There are other claims against this indiscreet minor, but one of the most serious offences of which he is alleged to have been guilty was the theft of several hundred dollars from the bank in which he was engaged; the money was refunded for him, however, and nothing more said about it. The young Englishman is doubtless convinced ere this that in Canada, as in all other countries, "the way of the transgressor is hard."

F. W. LARGE & Co., boot and shoe manufacturers, Toronto, are in difficulty. The business was formerly conducted by Messrs. Duncan, Fuller & Co., who dissolved, Mr. Fuller removing to Detroit; Mr. Duncan carried it on alone for some time, but eight or ten months ago sold out to Large, a new arrival from England. The new firm, "F. W. Large & Co." was supposed to be well worthy of credit, hence they found little or no difficulty in obtaining it, and, as far as appearances went, little or no apprehension could be expressed. They manufactured chiefly fine goods, for which they obtained good prices, hence the intimation that, owing to the failure of remittances expected from the "Old Country," they are unable to meet their payments, is not easily understood by the creditors. The liabilities are \$10,000 to \$12,000, of which some \$4,000 are due in Montreal; assets not yet known. Duncan claims to have a chattel mortgage on the stock and machinery for \$4,000, and there is also a claim for \$2,000, borrowed money, said to be due Mrs. Large. A document is in
