How to Remove a B-d Complexion. (From London Fashion) Cosmetics can never really help a poor complexion; often they are positively harmful. How to Make a Real Wrinkle Remover (From Fashion Reporter) In these days of cleverly advertised "counterfeits" of 77 varieties and more, it is hard for any woman to believe that she can make a simple home remedy which will do her much more good, and cost her much less than the average made preparation. Take the subject of wrinkles, for instance. There is nothing in the world so effective for removing or preventing wrinkles, baggy cheeks and double chin, as a solution of axollite and witch hazel. The quick and satisfactory results will surprise you. Ever after the very first application there is a marked improvement. The wrinkles are less in evidence and the face has a firm "solid" feeling that is very comforting.
