POOL MANIPULATION IN C. P. R.

World Office, Tuesday, Aug. 28. C.P.R. came into prominence again to-day both at the Toronto stock market and at New York. Locally the transactions partook purely of arbitrage dealings, and were confined to trading brokers. Nothing was forthcoming to account for the apparent fresh demand for these shares, except the rumor of this road's supposed alliance with the Harriman forces for the possession of the St. Paul Railway. This, however, was characterized as utterly absurd in local brokerage circles. The one opinion of C.P.R. in Toronto is that it is fully the equal of the Hill roads, with the exception that millions have yet to be expended in bringing the track up to the standard of the American roads. Few local speculators, or even investors, are now carrying any of the security. Those who saw the shares thru the troublous times of 1903-4 liquidated when the prices first reached about 150, and have not since felt like following the venture. There are those who see no reason why C.P.R. should not be as valuable as Northern Pacific or Great Northern, but as they cannot appreciate the high prices of these American roads they are not prepared to buy C.P.R. The only acceptable explanation of to-day's advance is that it was pool manipulation, and not the result of any specially new demand for the shares. brokers. Nothing was forthcoming to account for the apparent
