permission to mine under the streets of Cobalt. This mission is taken on behalf of the Silver City Mining Co., which is practically a syndicate of those Cobalt citizens who bought lots from the railway commission and af-terwards secured the mining rights. They have already found a good rich veln of argentite silver. The Nancy-Helen Silver Mining Co. have four acres in the town site and some other property in Coleman Township. From the veln in the township they have bagged two car-oads of ore, which they are ready to ship.

This is the illustration we intended yesterday in advertising Raincoats. Printers sometimes make mistakes, and things got twisted.

A strong point with us is to be ready with the goods you want when you want them. An ordinary overcoat was useless in such rain as last night, and a good Raincoat is never out of place, even on fine days. Rainy-day hats as well.

loads of ore, which they are ready to ship. The Silver Lion Mining and Devel-oping Co. is a Montreal proposition, promoted by John Black, formerly of British Columbia. They bought Lucky Godfrey's property, near Gil-lies Station, where ore has been sacked for some months. The rumor that the parties dis-puting re the ownership of the cele-brated Lawson vein had come to terms and that they were forming a company and putting their stock on the market, has been most emphati-cally denied by those interested. Eleven hundred shares of Gilpin Cobalt were sold here this week. The broker making sales is said to be T. W. Murray of Toronto. Activity prevails in sale of mining stocks which bring higher prices in many cases here than they do in To-ronto. F. B. Mosure. ## **Fur-Lined Coats**

We have a large number of Men's Fur-lined Coats. While we can sell some as low as \$37.50, we do not recommend them to buyers who want wear, style and comfort. We de have, hewever, a very fine coat, with an imported English beaver shell, lined with selected muskrat skins, with a shawl collar of Persian lamb. This is really extra value at our price-

 gave a graphic account of the richness of the sliver mines of Northern Unitario, Mr. Scarles was one of the scoffers and said it was a "pipe dream" and asked his friend "where he got his tobacco." In the end, however, he, too, paid a visit to the camp, and has been there three times in the last two months. He, too, hits the pipe now, and has done much to arouse the Cobait curiosity in his home city. Hav-ing been a practical miner and a success-fu mine-operator, his testimony has had weight.
