Head of the I.O.F., and Practically Founder of the Order as It Exists Te-Day, Succumbs to Heart Trouble While Seeking to Restore His Health in South -Body Will Be Brought to Torente-Funeral Arrangements.

CAREER OF QUARTER CENTURY REFLECTED IN I.O.F. GROWTH

Savannah, Ga., March 3 .- (Special.) Hon. Dr. Oronhyatekha of Toronto died at the Desoto Hotel, in this city, at 5.20 o'clock this afternoon.

His death was due to heart failure, from which, it was stated, he had been a sufferer for about ten years. His body will be sent immediately to Toronto for burial, leaving here early

o-morrow morning.
At the bedside of Dr. Oronhyatekha at the time of his death were his private secretary, W. W. Dunlep of To-ponto, and A. E. Stevenson of Port Huron, Mich., assistant general manager of the Independent Order of Foresters, of which Dr. Oronhyatekha was

supreme chief ranger.
Dr. Oronhyatekha's son, Dr. Ackland Oronhyatekha of Toronto, who had been notified of his father's critical condition, started south from Toronto this morning. He will pro bly meet the remains en route. Dr. Oronhyatekha arrived in Savannah in the latter part of January, coming in the hope that his health would be benefited. Announcement of the death of Dr. Oronhyatekha was received in the city about 8 o'clock. Earlier in the day telegrams to his friends here gave intimation of the serious turn his illness had taken. His last public appearance in Toronto was at the banquet of Court Sherwood Forest Jan. 21, which, it is said, he attended against his doctor's order. He then showed signs of failing health. OROHYATEKHA.

Oronhyatekha was a remarkable man. Taking hold of the I.O. F. in Canada in 1881, at the time when the order in America was in a perilous way financially, beginning with a very limited experience, by his genius for executive management he developed the Independent Order to a marvelous degree of success. So much so that the progress and stability of the order have often been ascribed to him personally. He undoubtedly became the greatest man in fraternal insurance in the world.

He took a pride in the order, and no man was ever more jealous of a reputation than was he of the good name and fame of the society of which he was head. Altho subjected to criticism in the past half dozen years, he was ever ready to prove his critics wrong, and the principles and progress of the order sound and

His characteristics peculiarly fitted him for his position. In appearance, he was dignified, but with no false assumption. He always seemed in good humor. He looked the best type of the noble red man. His Indian ancestry was his joy. At a dinner given him in London he described himself as being "more than a British subject, for he had the honor to be an ally of Great Britain. It was owing to the assistance and influence of the Six Nations of Indians that the British crown now held Canada."

His smile was almost beautiful, and the light in his eyes when he presided at any of the Forestric functions was that of a proud father-perhaps an indulgent one-looking upon a sturdy family of boys and girls, for it was he who was instrumental in adding the "companion courts." His voice was soft and well modulated. He had the strongest possible belief in himself and his works, he received the honors, the tributes and the applause of his fellow Foresters with an evident sincerity. He had a gentleness of manner and a kindness that won him friends everywhere.

"The crowning glory of my work" was the remark he made with reference to the Orphans' Home, founded at Deseronto, and opened in August, 1905, and these words convey strikingly the keynote of his life, which was kindness to one and all. The children appealed to him irresistibly, and he was never happier than when devising means for their amusement or comfort. He celebrated his sixty-fifth and last birthday at the Home, surrounded by its happy inmates, and his gaiety and simple light-heartedness were as marked as their own. His nature, indeed, was that which his Indian name signified—"Sun of the Morning."

suffered for several years, but he gave no hint of the fatal malady in his manner, which was invariably bright and cheerful. At times he was selzed with weak spells, such as that by which he was attacked during the giving of his testimony in the witness-box before the insurance commission last fall, but only those closest to him knew of the extent to which his strength was being saped.

It had been his habit for some years to go abroad at the approach of winter.

George W. Baker, the nephew, told the newspaper men who went to Bangor, Maine, to interview him, that the matter of bringing the suit had been under consideration for about a year.
The petition affirms that Mrs. Eddy is incanacitated thru infirmity incident-The petition affirms that Mrs. Eddy is incapacitated thru infirmity incidental to old age, to "manage her affairs and protect her property with prudence and discretion, and against undue influence control or fraud of others, or to take charge of and manage the present legal proceedings"; and that Mrs. Eddy lives "under the charge and in the custody of defendants Frye and Strang and that very ants Frye and Strang, and that very few persons are allowed to see her except for a few minutes,"

Others Read His Letters.

The fourth paragraph sets forth that Mr. Glover has never been able to reach Mrs. Eddy by letters which were not first read by other persons, and that he has not been sure that his letters have reached her personally, that on Aug. 21, 1900, a letter came to him typewritten, with her name signed thereon, which read:

"My rule is that my secretary
