The boys of Upper Canada College held their annual athletic meeting at the college grounds yesterday. The weather was beautiful for the large and fashionable crowd present, but the high wind made it somewhat unpleasant for the competitors. Notwithstanding this all the events went off with the vim and energy which is characteristic of college boys sports.

The meeting was under the patronage of His Honor the Lieutenant-Governor, the Minister of Education, the Board of Trustees and the principal and masters of the college. A large number of ladies was present and at the conclusion of the program of events Mrs. Kirkpatrick distributed the prizes, which were the finest that have ever been presented for the college games. The meeting was governed by the rules of the A.A.A. and several school records were broken. There were large fields of competitors, and the finals of the several events resulted as follows:

The Besulta.

Throwing cricket ball, open—J. A. Westmore, 77 yards; C. V. Hall, 76 2-3 yards.

which Spain subscribed at the Geneva Congress, in a greater quandary as regards what to do in the east and west. The outlook is so gloomy in these ridings that the Reform Association does not approve of bringing any one out in either constituency, but there are certain elements in the party that want to lave a try at the thing anyway. Messrs Frank Denton and W. T. R. Preston have been talked of for some weeks as personally anxious to stand in the west, but the probability is that no Liberal will be brought out against Clarke and Osler. As regards the east, the Liberals are waiting to see what sort of an independent Conservative is nominated at the meeting in the Pavilion before they decide upon a line of action in that riding.

Another meeting of the Reform Association is booked for Tuesday or Wednesday of the coming week, and some decision will likely be then arrived at.

A Liberal stated to The World last night that it was useless to run a candidate in the west, but that there were certain men in the party who wanted the advertisement of an election, and the machine pull that would result therefrom.
