HAMILTON NEWS

LIBERALS WANT BUCHANAN.

Think They Can Use Him to Advantage IN THE COMING ELECTIONS.

The Idea Is to Catch the Temperance Votes, Which They Need.

Hamilton, July 20.—(From The World's Staff Correspondent.)—A movement is said to be on foot to get Mr. W. W. Buchanan, who is shortly to resign his position as head of the Royal Templars, to stand in the Liberal interests in the forthcoming Provincial elections. The ground taken is that Mr. Buchanan would catch all the temperance votes, and thus neutralize the antagonism of the liquor party, which, since the Harcourt bill made its appearance, has been a strong Conservative feature.

The Inspecting Committee of the Board of Education is in favor of abandoning the Market-street and old Main-street Schools and taking over the old Collegiate Building for the purposes. The committee holds that it would be cheaper and more centralized.

Jubilee Willing Contracts Awarded.

The Finance Committee this afternoon awarded tenders in connection with the building of the Jubilee Hospital wing as follows: Masonry and excavating, etc., G. G. Mills, \$200; carpenter work, Lester Son, \$248; painting, J. McKenny, \$207; plastering, G. Chapman, \$400.

From One Husband to Another.

William Bradwood, who was arrested yesterday on a charge of seduction, under promise of marriage, Sarah Burgess, a 16-year-old girl, is now a free man. He recalled his liberty tonight by marrying the complainant. He was married while in the custody of Inspector McKeown by Rev. Mr. McWilliams. The inspector was the bridegroom. Bradwood's sister was the bridemaid. Bradwood's father declined to give his consent to the marriage, being afraid Bradwood would go to the States as soon as the ceremony was performed.

\$2,000,000, which can be taken out without any great work.

"I want to say that I believe there is gold in every creek in Alaska. Certainly on the Klondike the claims are not spotted. One seems to be as good as another. It's gold, gold, gold all over. It's yards wide and yards deep. I say so, because I have been there and have the gold to show for it. All you have to do is to run a hole down, and there you find plenty of gold dust. I would say that our pans on the Eldorado dunes will average \$3, some go as high as \$150, and believe me when I say that in five pans I have taken out as high as \$750 and sometimes more. I did not pick the pans, but simply put them against my breast and scooped the dirt off the bed rock.

Millions Upon Millions.

"Of course, the majority of those on the Klondike have done much figuring as to the amount of gold the Klondike will yield. Many times we fellows figured on the prospects of the Eldorado. I would not hesitate much about guaranteeing \$21,000,000, and should not be surprised a bit if \$25,000,000, or even \$30,000,000, was taken out.

"Some people will tell you that the Klondike is a marvel, and there will never be a discovery in Alaska which will compare with it. I don't believe it. I think that there will be a number of new creeks discovered that will make wonderful yields. Why, Bear Gulch is just like Eldorado. Bear Gulch has a double bed rock. Many do not know it, but it's a fact, and miners who are acquainted with it will tell you the same thing.

Excitement at Seattle.

The business equilibrium of Seattle was never so disturbed as it has been since the Klondike strikes. For 48 hours the telegraph office has been thronged by people sending messages to eastern friends making a request for sufficient funds to get them into the new camp. Subsequent reports not only verify but tend to enlarge upon the first accounts.

HOW THE MINERS WORK.

The Captain of the Excelsior Tells of the Methods Used in the Klondike and the Causes of Success.

San Diego, Cal., July 20.—An interesting letter, telling of the recent trip of the steamer Excelsior to Alaska, has been written by Captain J. F. Higgins to the steamer to a friend in this city. He says:

"The word Klondike means Deer River, and the stream is called the Reindeer River on the charts. It empties into the Yukon fifty miles above the Big River. The geographical position of the junction is 70 degrees 10 minutes north latitude, 138 degrees 50 minutes west longitude. Bonanza Creek dumps into the Klondike about two miles above the Yukon. Eldorado is a tributary of the Bonanza. There are numerous other creeks and tributaries, the main river being three hundred miles long.

Became a Money Lender.

"What are we doing with all the money we take out?

"Well, we paid \$45,000 spot cash for a half interest in Claim 32, Eldorado. We also loaned \$5000 each to four parties on Eldorado Creek, taking mortgages on their claims, so you see we are now secured.

"No, I do not want any better security for my money than Eldorado claims, thank you. I only wish I had a mortgage on the whole creek.

"We had a great deal of trouble in securing labor in prospecting our properties. Old miners would not work for any price. We could occasionally get in a greenhorn and get him to work for a few days at \$15 a day. Six or eight miners worked on shares for us about six weeks, and we settled. It developed that they had earned in that length of time \$5300 each. That was pretty good pay, wasn't it? We paid one old miner \$12 for three hours' work and offered to continue him at that rate, but he would not have it, and he went out to hunt a claim of his own. My son, Samuel, and Charles Worden are in charge of our interests in Alaska.

LIBERTY-GOV. MACKINTOSH TALKS.

Tells of the Vastness of the Gold Districts in the Canadian Yukon—Seattle Excited.

Seattle, Wash., July 20.—Gov. C. H. Mackintosh of the Northwest Territories, comprising the Canadian Yukon, is here. He says that the Klondike district will yield \$10,000,000 during 1897. It is announced that the Canadians are preparing to build a railroad into the Yukon region. Gov. Mackintosh, speaking of the new camp, said:

"We are only on the threshold of the greatest discovery ever made. Gold has been piling up in all these lustrous streams for hundreds of years. Much of the territory the foot of man has never trod. It would hardly be possible for one to exaggerate the richness, not only of the Klondike, but other districts in the Canadian Yukon. At the same time the Yukon of thousands rushing in there without proper means of subsistence and utter ignorance of

Vastness of the Gold Fields.

"There are fully 9000 miles of these golden waterways in the region of the Yukon. Rivers, creeks and streams of every size and description are all rich in gold. I derived this knowledge from many old Hudson Bay explorers, who assured me that they considered the gold next to inexhaustible.

"In 1864 I made a report to Sir John Thompson, then Premier of Canada, who died the same year, at Windsor Castle, strongly urging that a body of Canadian police be established on the river to maintain order. This was done in 1865, and the British outpost of Fort Cudahy was founded.

HERE IS YANKEE GALL!

The E. S. General Land Office Does Not Know That Dawson City Is in Canada.

Washington, July 20.—Commissioner Hermann of the General Land Office stated to-day that he would recommend the establishment of two land districts in Western Alaska, the two offices to be placed on the Yukon River or its tributaries, in anticipation of a great number of contentions over mineral land locations in various sections where the gold discoveries have been made. He says that as that region is practically without law, especially as to the settling of contentions, the local land offices will be of infinite value to the land interests and indirectly to the preservation of law and order. The offices, it is probable, will be located at Circle City and Dawson City. The general land office is in hourly expectation of petitions and requests for such action.

RAIN SPOILED THE SHOW.

Winnipeggers Got a Heavy Downpour When They Didn't Want It—Northwest News Notes.

Winnipeg, July 20.—(Special.)—A steady downpour of rain to-day completely spoiled the exhibition attractions and caused a large falling-off in the attendance. Winnipeg is crowded with visitors, and there is the greatest difficulty in finding accommodations for them. Hotels have to refuse guests, and people are sleeping anywhere they can find a place to rest. The weather is causing much dissatisfaction, and the drought has made the fair grounds look forlorn and desolate. The fair is a success in spite of the rain.

Gold Awaiting Shipment.

"There is now far in excess of \$1,000,000 remaining already mined on the Klondike. It is in values, tin cans and tin boxes, but just as carefully guarded there and apparently as safe as if it were in a vault. Already this spring we have official knowledge of over \$2,000,000 in gold having been taken from the Klondike camps. It was shipped out on the steamships Excelsior and Portland.

"Richard Montgomery, Registrar of Land Titles at Regina and a popular official, has several times, with a bunch of friends, been to the Klondike. He is a local mining man. The World has done a great deal of work in the Klondike, and he has returned with a number of interesting stories. He says that the Klondike is a great gold field, and that the Klondike is a great gold field, and that the Klondike is a great gold field.

BENHAM MURDER CASE.

Dr. Skinner Gave Evidence and Dr. Richmond Questioned Him—Mrs. Benham Used Morphine.

Estaville, N.Y., July 20.—Dr. Skinner of Estaville, N.Y., gave evidence in the Benham case this morning, and was questioned by Dr. Richmond. The long and tedious question of the defence was read to the witness, and he said that he believed that Mrs. Benham came to her death through heart failure.
