HOUSE OF REPRESENTATIVES WILL BE DEMOCRATIC BY FROM 10 TO 12 VOTES, SAYS CHAIRMAN GRIGGS

Republican Majority of 41 Wiped Out by a Landslide-Governor Odell's Popularity Suffers a Rude Knock-Coal Mine State Stays Republican-Strike Responsible for Change.

HOUSE CLAIMED FOR DEMOCRATS.

WASHINGTON, Nov. 4.—At midnight Chairman Griggs made a statement claiming the House would be Democratic by from 10 to 12 votes. He added to his specifications of gains three in California, one in Wisconsin, two in Michigan, and two in Minnesota. Last House contained 199 Republicans, 150 Democrats, 7 Populists, with one vacant seat, giving the Republicans a majority of 41 over all.

STILL GOVERNOR ODELL.

New York, Nov. 4.-In spite of a phenomenally large vote in New York and King's County for Bird S. Coler, hour to-night indicated the re-election the governorship of New York State, by from 6000 to 9000. Coler's lity in Greater New York exceeded 15,000, a surplus of 3000 above the claim made by Charles F. Murphy, the country districts was lighter than lower than Stanchfield's in the same year. In New York City Coler's plurality was approximately 117.500, made up as follows : New York County, 83,-000; King's, 26,500; Queen's 5500, and Richmond, 2800. Oyster Bay, where President Roosevelt's country home is situated, and where he voted to-day, was carried by Coler, his plurality being 131. Two years ago Odell's plur-

Figures from the congressional districts in the State gave the delegation as 20 Republicans to 17 Democrats. The present state is 22 Republicans to 12 Democrats. The Democrats made gains in the quarters that Tammany Hall conceded State legislature, but the gains the re-election of Governor Odell. were not sufficient to endanger the Republican hold on the seat in the United States Senate now held by Democrat, won the first Senate District (Richmond and Suffolk Counties) from E. F. Post. The district was represented in the last Senate by a Re

the school there. Many of the rooms in hospital ten days ago.

This was about 1500 more than had WHY SO ANXIOUS?

The World Office was visited last night by Canadians anxious to know how the Congressional elections across the line were going. It might puzzle the uninitiated to know why these citizeus took so much interest in a foreign election. For the most part, the enquirers, no doubt, knew ittle of the issues at stake, and of the principles being fought for.

The solution of the mystery, of course, is that these anxious ones are "in the margin on Wail-street, and they have read or been told that, if the returns showed Republican gains values would "go up," and that if there was any marked turn over towards Democracy, prices would decline.

On general principles, this preelection information with which these fearful ones had charged their minds is, of course, correct. A marked Democratic victory would augur ill for the trusts, and, perhaps, point towards-a lowering of the United States tariff; and such an outcome would have an unsteadying effect on the stock exchange.

But, even supposing the results of yesterday's elections meant the assembling of a Democratic, in place of the present Republican, House of Representatives next winter, such a House would find itself up against a Republican Senate. Not until after the Presidential Congress of 1904 can any reliable estimate be made of the fate of the McKinley tariff. Yesterday's elections are important, chiefly The World Office was visited last

nearly sufficient for the pupils attending Gross, who died of smallpox at a liquid diet.

authorized by the government should be used by the pupils. School districts ought to be marked out to prevent pupils changing from one district to another. Of the high classes in the Separate schools, Mr. White thinks they should be put on the footing of a first-class high school or discontinued altogether. At present Separate school supporters do not get a proper return for money spent on these particular classes. In conclusion it was polinted out that there was a lack of organization among the schools, and the attendance of per c. in 1900 and 66 per cent. in 1901, was remarkably low, and even this statement, Mr. White says, does not represent the actual state of affairs. Another defect in the system pointed out by the inspector was that there were too many days when pupils attended schools and were dismissed after the roll call.

British Parliament Expected to Solva Vexed Problem by Paying Out \$500,000,000.

HOMES ARE PLANNED FOR 410,000

l'enantry to Be Given Chance to Buy Their Holdings on Instalments,

Chicago, Nov. 4.-The Tribune has the following special from London: Leaders of the Irish Nationalists see a settlement of the Irish land problem within a year. They expect a compulsory act under which the landlords, whose rule has been the bane of the island for centures, will be bought out by the tenants. By this plan the British government will act as a realty agent and advance by a system of credits and yearly installments the tremendous sum of \$500,000,000 as the purchase price for the tenants.

Plan Already Tried That the government believes that the purchase of the Irish estates is the right solution is asserted by George Wyndham, M.P., Chief Secretary for Ireland. By former acts the government has already advanced \$100,000, 000, and thus enabled 70,000 tenants to purchase their holdings. This was in the richest districts. There has been no relief in the poor sections of western Ireland, where the most suffering is reported. The plan worked yell. Only three tenants were behind in this year's repayment of their installments to the government. As a result of the to the government. As a result of the same legislation \$150,000,000 is avail-

able now for future purchase, steady Progress Toward Settlement The Irish leaders see in every step of the government progress to settlement, Chief Secretary Wynd is ambitious to effect a solution, recent appointment of Anthony Donald as permanent Under Secre Donald as permanent Under Secretary for Ireland has an important bearing on the situation. McDonald was form, erly on the India Board of Control and wrought great land reforms there, settling liberally the differences be-tween the native tenants and the for-
