

THE TORONTO WORLD

INSURER'S OF LANDS FOR OF TAXES

FRIDAY MORNING

YOUR CHIEF AIM In "banking" your savings Is to have them safe.

Then, deposit them with the CANADA PERMANENT MORTGAGE CORPORATION, which has the third largest paid up capital of all the Financial Institutions of the Country.

It allows interest at Three and one-half per cent. per annum compounded half-yearly on deposits of one dollar and upwards.

HEAD OFFICE TORONTO STREET, TORONTO.

WALL STREET SECURITIES CALL IN GRADE TO MONEY TO LOAN

At 5% Commission paid to agents.

NATIONAL TRUST COMPANY, LIMITED 22 King Street East, Toronto.

compared with 47.30 per cent. last week. Bank rate unchanged.

Railway Earnings, Norfolk & Western, first week November, increase \$74,318.

Central of Georgia, first week November, increase \$16,160.

C. & W., first week November, increase \$48,728.

Louisville & Nashville, first week November, increase \$48,728.

Toledo Railway, same time, increase \$2,322.

Mexican Central, same time, increase \$1,244.

Hocking Valley, same time, increase \$2,767.

Erie, surplus, quarter ending September 30, increase \$804,323.

On Wall Street, McIntyre & Marshall wired J. G. Beatty, King Edward Hotel, at the close of the market.

The tone of the market was irregular and nervous to-day. The fluctuations were within a narrow range for the most part.

The early transactions reflected some improvement in tone as a result of more favorable London cables and the falling of the Bank of England.

Advances in the rate of discount as expected, and a more favorable showing in the weekly statement of that institution.

The market also was influenced during the forenoon by some strength in the stock shares and an influence in the American sugar returns which reflected a moderate covering movement in sympathy throughout the list.

The strength of U.S. Steel, preferred, was attributed to the reported consummation of the re-organizing plan and the advance in sugar to the agreement in Congress to pass the Cuban treaty.

There was some scattered buying on this, but no actual response in the market. The list showed signs of weakness during the latter trading with declines in Canadian, Cuban and Reading to new low records.

The news of the day was not especially significant and indeed, was, if anything, rather favorable.

Money rates, it is true, are hardening, and labor troubles at the case of Chicago, are somewhat acute, but on the other hand, there is a feeling that reductions in wages will be met by unions in a spirit of fairness and that the necessity for such a course is quite apparent.

The market, however, is showing a downward trend under the influence of what appears to be the further forced liquidation, in any event displacement in the security list of industrials by the latter class of shares.

The monetary situation is showing no material change for the better and anticipations of an unfavorable bank statement on Saturday are being well founded.

There is nothing in the situation to encourage a belief in a profitable position in market conditions at this time, and it is the least that can be expected in the future, which may continue to be no worse, but may not develop a serious crisis.

There are returns from the crops will be a measure of relief, and the market will produce a broader trade for both export and home consumption, and consequent activity in business. This time may be at hand, and it is reflected in the following fluctuations in the market:
