Monopoly in Oil Production Held By Western Ontario (By Victor Lauriston.)

Very few people outside the experts are aware that Canada imports approximately 39 out of every 40 barrels of crude petroleum used to supply our buzz-buggies with gasoline and our lamps with oil.

One hears very little of the Canadian oil industry, particularly from the producer's side. It is a quiet, unostentations industry. Go to Petrolea, Oil Springz, Bothwell or Tilbury—not to mention Glencoe—and you'll smell the harsh scent of real Canadian crude and hear the mournful plonk-plonk of the pumps that are ceaselessly draining Mother Earth of her oleaginous riches; but if you keep away from these centres of industry you'll never realize that there's such a thing as an oil well in Canadian experts agree that it is a tribute well deserved.

Vet these two counties of Lambton I Kent produce practically all of ada's native production of crude The new field in Mosa Township, r Glencoe, produced last year far e oil than the much-vaunted Calfield has produced in its entire years' history. The

of 10,000 Only Married Men Included Petrolea Field a Marvel. production from 1916, is still actor in Ontario's native oil the long life of the Petrelea e of the marvels of oildom, probably a number of incells that have been producing that it continue.

HYDRO COMMISSION SPENDS \$1,800,000 ON FRAIL AQUEDUCT

Wooden Stave Pipe Line With Three Years' Life.

SOON TO BE "SCRAPPED"

Only a Makeshift, Pending

the provincial treasurer stated that if the hydro commission required the whole nine million this year the Government would borrow that amount. Hon, I. B. Lucas said that the commission is now spending \$1,800,000 on a wood stave pipe line, which is to be scrapped in three years. It is expected the Chippewa Creek development plant will be ready to deliver power by that time. So great is the need for power in the meantime, however, that the commission decided to go ahead full speed with a temporary pipe line
