There is a lighter side to everything. In patriotic campaigning the lighter side is well developed. While there are discouraging meannesses encountered, an incident like the following, which happened vesterday throws which happened yesterday, throws a gently humorous light over much

BE ONE-HALF HIGHER

Amount and City Is Busy.

Special to The Toronto World.

Brantford, Jan. 24.—Brant County
Council's share of the Canadian Patriotic Fund campaign has been placed at three thousand, half as much again as last year. At this afternoon's session of council, the patriotic fund committee waited on the councillors and asked them to advance from two to three thousand, and, if possible, even higher. The city campaign, to run three days early in February, is being advanced, with an objective of one hundred and fifty thousand dollars, half as much again as last year.

tirely inadequate, Take Bulldog in Charge Suspect Case of Rabies

Yesterday morning another case of suspected rabies was discovered when 400 the occupants of 538 Pape avenue telephoned the humane society that there was a dog in their vestibule and that he would neither let them in nor out. Inspector Balligall was sent out to get the animal. He found it to be large bulldeg, and it snapped at him when he approached. He fought with it for twenty minutes before it was subdued. The dog is being watched by a veterinary surgeon to note if there are any signs of rables. As far as can be learned the dog bit no one.

CHILDREN'S COLLECTIONS.

The final arrangements regarding he collections from the schools is that the children will bring their offerings to the parliament buildings on Friday afternoon at 3.30, when they will be received by Lady Hendrie and the committee in charge of this part of the patriotic work.

The Leading Team.

The Leading team for Wednesday was not coming in that was the fact of the matter.

Prospects All Seen.

Then in the evening the team captains reported that they had canvassed all their prospects and there were no more for them to go to. Yet the subscriptions are far short of what the 50,000 Club was expected to raise. If the \$2,500,000 was to be raised this year, leave alone the \$3,000.000 that hovers in the popular imagination as so easily attainable, some of those who have dipped into their pockets must dip again. And if there are any who have not gone down after their wads they will have to do so today or tomorrow, for the campalgn absorbed the standard results of the standard results in factories. SOCIAL CONDITIONS ARE IMPROVED BY WORKERS

The Patriotic Fund Committee at Montreal Is Helping Many Families.

The highest development of social service among the families of soldiers is probably to be found in Montreal where many unique experiments have been tried, mainly as the result of the imaginative and energetic work of Miss Helen Reid. In Montreal the labors of the patriotic fund committee have practically revolutionized the methods of living of many families, and when the breadwinner comes home he will in many a case find it is a happier, brighter home than the one he left.
