

WYETH'S BEEF, IRON AND WINE.

Extract of Beef, Citrate of Iron and Sherry Wine.

In this preparation are combined the stimulant properties of WINE and the nutriment of BEEF, with the tonic powers of IRON, the effect of which on the blood is so justly valued. For many cases in which there is

Pallor, Weakness, Palpitation of the Heart,

with much nervous disturbance, as, for example, where there has been much loss of blood, or during the recovery from wasting fevers, this article will be found especially adapted. The peculiar feature of this combination is that it

COMBINES NUTRIMENT WITH STIMULUS

In the majority of cases, along with the failure of strength, and indeed as one cause of that failure, there is an inability to digest nourishing food. Hence it is very desirable to furnish nourishment in a form acceptable to the stomach, at the same time we excite this organ to do its duty. On the other hand, again, wine stimulus although needed, is ill borne if given by itself, producing headache, excitement, and other symptoms which may be avoided by the addition of nutritious substance, such as the ESSENCE OF BEEF.

Iron also can be taken in this way by the most delicate or sensitive woman or child, to whom it may be inadmissible as usually given. Prompt results will follow its use in cases of sudden exhaustion, arising either from acute or chronic diseases, and will prove a

Valuable Restorative for all Convalescents.

As a Nutritive Tonic it would be indicated in the treatment of impaired nutrition, impoverishment of the blood, and in all of the various forms of general debility. Each tablespoonful contains the Essence of one ounce of Beef, with two grains of Citrate of Iron, dissolved in Sherry Wine. With a view to making the article more palatable, a portion of the beef is in the first place partially roasted, as experience has shown that it is better borne by the stomach, and can be administered for a longer period when this is done.

Adult Dose:—One tablespoonful between meals, and when suffering from fatigue or exhaustion.

Dose for Children should be reduced according to the age.

We trust physicians will be careful to direct our manufacture of BEEF, IRON and WINE, as numbers of persons make mixtures called by the same name, and claiming equal merit. We can only say the reputation of this medicine was created by OUR PREPARATION, and it is almost exclusively prescribed by our leading physicians.

Sold in pint and five-pint bottles by all Druggists (retail price. \$1.00 and \$4.00).
