THE WAR NEWS.

The most interesting item of today's news is the resignation of the Austrian foreign minister, Count Von Berchtold, who was one of the main factors in the situation which led up to the declaration of war on Servia. More significant than his resignation is the appointment of Baron Burian, the Hungarian minister at Vienna, as his successor. Count Von Berchtold had wished for some time to retire, but it was assumed he would at least remain in office until the end of the war. The appointment of the war. The appointment of the war. The appointment of a Hungarian as his successor means that the views of Hungary will have upon Austria-Hungary as a factor in the war remains to be seen, but Hungary was sist tae Germans while Hungary was sist being made in British-Canadian that the German aviator who dropped

The report which comes from Persia, where the Turks have seized the town of Tabris, appear to indicate that there have been massacres of Christians; and that the warfare in that region is likely to be of a very fanatical character. In Europe the Turks have not yet recovery.

WANTED—THAT \$1,500.

The small item of \$1,500 which was rovisionally granted to the Children's terrible war that is in progress, the Aid Society by the Municipal Council nearly nine months ago, has not yet been received by the society. The sum was granted subject to the understanding that the warden and county secretary be able to find some fund from which this amount might be taken. They were unable, however, to find such a fund. At the expiration of three months the council was reminded that the money. At the expiration of three months the council was reminded that the money was not yet available. It was again reminded at the end of six months. Yesterday the finance committee of the council met and it also was reminded that the money was not yet available, and was a money was not yet available. It was again reminded to private the war. A BRAVE BOY

The estimates for the municipality of the city and county of St. John, as approved by the finance committee of the Municipal Council yesterday, show an increase of about \$50,000 when compared with the expenditure of last year. There is an item of \$17,000 for county valuation, and another of \$7,000 for interest on debentures for the tuberculosis hospital. An increased expenditure is provided in connection with the jail, the

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water, and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent allithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.
