Some 8,000 in a Fix Because of the Tie-up of Shipping.

Paris, Sept. 28.—(Canadian Press.) Nearly one-third of the total shipping at the port of Marseilles is laid up through the refusal of seamen to embark unless an eight-hour day is assured. Two naval light units are undertaking a mail service to Algeria, but 8,000 passengers from various vessels are stranded at Marseilles, without lodging. Their exasperation is causing them to make a street demonstration. The making of government ships to repatriate these is being urged.

IN WALL STREET

New York, Sept. 28.—(10.30)—Liquidation of weakened speculative accounts, apparently due to inability or unwillingness to meet margin calls, impacted an irregular trend of today's stock exchange. When this early selling had been absorbed, however, the market began swinging upward under the leadership of a demand for steel and high priced oils. Gains of three-quarter to two points were recorded by U. S. Steel common, Gulf States Steel, Bethlehem B., Standard Oils of New Jersey and California, Mexican Petroleum and Pierce Oil preferred.

Crucible continued to show the effects of selling pressure declining one point to 84 1/2 or nearly sixteen below the offering price of a large block of new stock a few weeks ago. Small shares were inclined to heaviness. Baldwin and Studebaker moved to higher ground, but substantial recessions were noted in American Radiator, American Car, American Tobacco and North American. Columbia Gas moved up a point but Consolidated Gas eased a bit.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

GREATEST LOCAL PLAY YET, TONIGHT

Opera House Scene of Premier Event of the Season.

The Opera House tonight and tomorrow night will be the scene of the premier theatrical event of the season, which will be presented by a cast of local players. For months the St. John Dramatic Players have been getting into shape for the event, and promise an evening of worthwhile entertainment, presenting Geo. M. Cohen's success "It Pays to Advertise." This aggregation of players has been selected from among the best in St. John, and theatre-goers should not miss this chance of seeing them in this side-splitting comedy.

Among the players of note whose names stand out in St. John theatrical circles are Florence Watson, J. U. Haggerty, William O'Connor, G. Doherty, Isabella Gormley, A. B. Walsh, E. F. Martin, William Hurley, Margaret Creany, G. G. McGovern, and Robert McDade, all of whom have been thoroughly drilled in and qualified to handle the different roles allotted to each, and the theatre patrons of St. John are assured of a treat when these players step out onto the stage on Thursday evening.

ROBINSON CRUSOE WEEK END

One of the most distinctive characters in the minds of every boy and girl in recent generations will occupy the unique screen during this week-end and should draw capacity houses. So great is the anticipated matinee patronage that a morning matinee will be given Saturday from 11 to 12.30. All mothers and fathers will want their children to see "Robinson Crusoe."

PERSONALS

Edwin F. Crowley of Durham street, and Albert MacDonald of St. Stephen, left yesterday for St. Joseph's College, Miramichi, to resume their studies.

CHANGES IN METHODIST ORGANIZATION

Toronto, Sept. 28.—Rev. S. D. Chown, superintendent, laid before the conference today proposals in regard to changes in organization of the church's work. They include appointment of a committee to discuss greater cooperation with the Anglican church, provision for a more thorough organization of the men's brotherhood in the congregations, the inauguration of a hospital fund with which to build a Methodist hospital in Toronto, steps to provide greater publicity of the activities of the Methodist church and several changes in the discipline to meet new conditions.

FORT BLOWN UP; MANY KILLED

Lightning Hits Works on Gulf of Genoa—Sailors Among Victims.

Genoa, Sept. 28.—An explosion caused by lightning today destroyed the Falconara Fort, near San Terenzo, on the Gulf of Genoa, and wrecked the town, killing and wounding many persons. Apparently many sailors are among the victims.

Spesia, Sept. 28.—The entire naval garrison at Falconara Fort, near here on the Gulf of Genoa, is believed to have been killed in an explosion caused by lightning which destroyed everything within a radius of ten miles. There are many hundreds of wounded. Seventy bodies have already been recovered. Fifteen hundred tons of explosives were stored in the deep tunnels of the fort. The entire top of the hill on which it is located was completely blown away. No estimate of the dead has yet been made.

BOARD OF TRADE COUNCIL MEETING

The first business taken up at a meeting of the Council of the Board of Trade this morning, which President G. E. Barbour presided, was the report of the Maritime Board of Trade convention. A statement from the president, Captain J. E. Masters, was read, in which he set out that "The annual convention of the Maritime Board of Trade for 1922, which recently convened at St. John, will be remembered by all who attended and more particularly by the older members of the body, as the most profitable convention ever held."

The necessity of employing a permanent secretary of the board was emphasized in a letter from President Masters. In this letter it was recommended that the St. John Board of Trade, as well as the other boards of the maritime provinces, give consideration to the ways and means by which the salary of a permanent secretary should be provided for. After discussion of the matter, which foreclosed addresses were delivered by Mr. Barbour, Mr. Agar, Mr. Wetmore, Mr. Schofield and others, a resolution was unanimously adopted, declaring the willingness of the St. John Board to bear its share of whatever funds might be necessary for this purpose, as it was felt not only to be of vital importance to the city and port but also to the maritime provinces in general that the maritime board should continue to function.

The secretary reported on the potato handlers' conference which was held in the Board of Trade rooms recently, and said that the recommendation of the meeting looking to the establishment of a frost-proof warehouse on the west side of St. John had been decided upon and the work was now being proceeded with by the public works department of Canada. Warehouse 14 is the building that is being used for this purpose.

The secretary was authorized, as representing certain importing interests to confer with the collector of customs on a customs matter.

The matter of embossing of checks, suggested by the Vancouver C. M. A. body was given consideration. It was felt that the situation was one on which no action could be taken at the present time.

The matter of a subsidy for a new Nova Scotia freight steamer was referred to the traffic committee.

EFFORT FOR REJECTION OF N. S. COAL WAGE SCHEDULE

Sydney, N. S., Sept. 28.—An attempt is being made by Phalen local at New Aberdeen to put through district 26 of the U. M. W. a resolution which demands the rejection of the new wage contract recently negotiated between the executive of the miners and the British Empire Steel Corporation.

CAR IN TROUBLE

Pedestrians in Dorchester street this morning noticed a Ford sedan, No. 4-344, canted at a rather dangerous angle between the sidewalk and a vacant lot at the corner of Hazen, with the front wheels and nose of the car resting on the vacant lot and the back wheels on the sidewalk. The lot at this point is about six feet below the sidewalk but was surrounded by a fence which was broken through by the car. A nearby resident said that she had heard a crash from the corner at just one o'clock this morning and later saw the car there.

METHODIST STATISTICS

Figures of Quadrennium Presented in Toronto.

Rev. Dr. Chown, General Superintendent, Addresses Conference—Predicts a Glorious Revival Which Would Give Birth to New Age in History.

(By Canadian Press) Toronto, Ont., Sept. 27.—I hesitate not to say that the general conference of the church's activities, educational, spiritual and socially redemptive, presented to it, that the last quadrennium has been in many respects the greatest period that the Methodist Church in Canada has ever known.

This was a statement of Rev. Dr. S. D. Chown, general superintendent of the Methodist Church in Canada, at the general conference of the Methodist Church in Canada in quadrennial session here.

"We shall dispose of the statistics for the quadrennium as briefly as possible," said the general superintendent. "We do not prize them except as witnesses to the intellectual and spiritual life of the church. They will at least beget confidence in any interested person who might be induced by misrepresentation to fear that the church is declining in strength, or, so far as statistics can reveal, is lacking in any essential element of success. The official returns are as follows:—

For the Quadrennium ending 1918	Total membership	888,210
	Membership Young Peoples Organizations	69,271
	Sunday School force, including officers and teachers	454,803
	Total giving to the church for all purposes	\$1,488,042
	Gifts for missions	\$24,637,329
	Superannuation Fund, Invested Endowment	2,796,753
	Amounts paid by circuits for ministerial support	908,778
	Total value church property	6,286,905
		\$4,178,371

For the Quadrennium ending 1922	Total membership	406,993
	Membership Young Peoples Organizations	124,632
	Sunday school force, including officers and teachers	474,359
	Total giving to the church for all purposes	\$3,685,658
	Gifts for missions	\$37,864,477
	Superannuation Fund, Invested Endowment	4,280,980
	Amounts paid by circuits for ministerial support	2,388,017
	Total value church property	8,460,015
		\$5,643,891

"These figures taken together are an illustration of the unwieldiness of reaching conclusions about the prosperity and progress of the Church which are not based upon actual knowledge of the facts. They inspire thanksgiving for the past and courage for the future."

That the whole question of Church Union, with important ramifications regarding existing ministerial superannuation funds, the Presbyterian General Assembly proposals for the guarding of the rights of the minorities opposed to the union, and other features, were steady, Howard Smith P.M. appeared unchanged at 100, Laurencie at 93 and Rioridan common at eight. Fractional declines were noted in British Empire Steel, second preferred, which was down a quarter point at 85%, in Consolidated Smelters, which was lower by a similar fraction at 26 1/2, and in the preferred stock of Canada Steamships, which was fractionally off

at 54. Canada Car preferred was up a half at 60 1/2, and Quebec Railway was unchanged at 26 1/2.
