The exwas in charge of Rev. Geo. C. pastor of the church. The ves ommanded by Captain Wm. Schaake, one of the best known sion boat captains in New York
He has commanded the General for almost the entire time since s

built in 1891. The number of excursionists on variously estimated at from to 2,000, but according to an statement issued by the Knicke Steamship Company, owners Slocum, the number of passenge 873, that being one-third of the

licensed capacity. The Slocum had reached a pointhe Sunken Meadows, off 13th Manhattan, which is at the eastern end of Randall's island, fire broke out in a lunch room forward deck. The blaze was by the overturning of a pot of The headway of the vessel and wind almost instantly fanned forts were at once directed to s the fire, but they were futile; th spread aft with almost

Capt. Van Schaake, who was pilot house, had been informed contbreak of the fire, and, realizing danger to the hundreds of excurs decided to send his vessel to sh 134th street. At this point ther number of lumber yards and huge oil tanks, and the captain warned that to attempt to land point would endanger the proper perhaps further imperil the scor people who had already been frig into a state of almost uncontribution of the course slightly, he headed her for Brother island, half a mile awa

leaps and bounds from the forwar The great open decks, built for mists, with little obstruction from to stern, offered a clear sweep fire. As the Slocum dashed forwardames caught the stanchion and woodwork, eating and tearing the across the vessel. The excurs but a few moments before in t enjoyment of an ideal summer's Long Island Sound, were driven after part of the steamer to esca heat of the flames and smoke, were constantly increasing. Po

and deckhands aboard the boat

gled hard to stop the panic, bu

efforts were in vain.

The wild disorder increased as mothers sought to find their ch who had been playing about the The steamer's whistle was blow assistance, and tugs and other craft answered to the call. Bef of the boats could reach the steamer, however, the frantic wor children began to jump overboa current was strong and there are whirlpools in the channel. The that were following the Slocum up many from the water, but thes only a small number of those that seen struggling in the swift current. seen struggling in the swift curr The life-preservers were too fastened to their holdings to b able, and stories are told of fra forts made by strong men to c loose, but even if they could ha torn down they were too high the children to reach. It is also that no attempt was made the fire apparatus at the first fire!" though Capt. Van Schaa that he immediately rang the h getting out the apparatus. A several statements, no atten made to lower boats or life rafts.

The race to North Brother isla horribly dramatic. It was mad the flames, which had been fant a fury by the wind, were co The scene was one of frightfu with women and children jumpi board and being lashed by the whirpools against the sides of sel. Women and children were together on the hurricane deck soon burned away and fell, an believed that most of those on t

were burned. The after rail gave way and t sengers who had crowded again were pushed into the river. Moth hildren became separated, and it is sought each other, while in cases, fathers and mothers, g their children together, jumpe them into the water. Little nolding each other by the hand, together, and afterwards we

sped in each others arms. leged that men fought with wom-
