Works stated that no amount was placed in the estimates for the building of a bridge at Nelson. By the change of Government has resulted in serious injury to the people of Nelson as well as to the Province. E. J. M. P. P., a resident of the Parish of Nelson, aided and assisted by Hon. Thos. F. Gillette, a member of the Government. —Advocate.

As far as we understand the matter it was neither expected nor deemed necessary that a sum should be voted this year for the Nelson bridge. The "change of Government," we believe, has placed this bridge matter, as it has many others affecting both Northumberland and the Province, generally, on an honest basis. The late Government refused to take any steps to enter into the idea of building the bridge. Mr. Adams, when Surveyor-General, having absolute control of such matters, did at least one of his fellow representatives of the County, that Nelson could never get any money as long as he could prevent it. He said this as late as the closing days of the session of 1882. When the general election of last summer was pending, however, he caused a motion to be made of the proposed site and intended some of his chief supporters to assist the people interested that the bridge was to be built at once. After the election nothing further was done, but, just before the legislature met at Fredericton, when Mr. Adams rightly feared that the people's curiosity would be excited to vote the Government out of office—believing that a dissolution of the House and a new election would be an advertisement for the bridge. The plan on which he had been acting, to make offers on his face the initiative of the Government in the matter. It was for a structure that would have survived the day of its completion, and after Mr. Adams left office it was understood that he would be successful in obtaining a loan at 10% while it was understood to have been so. The present Government recognises the necessity for the proposed bridge and the Engineer of the Public Works Department made some few weeks ago through the ice; before making a plan and drawing a specification which is now before the Legislature. It is not to be denied that the bridge is a great benefit to the Province, and it is not to be denied that the bridge is a great benefit to the Province, and it is not to be denied that the bridge is a great benefit to the Province.

ROBERTAUX CREK.—In reference to the proposed new Robertaux Creek Bridge we gave lengths of the proposed structure as well as the measurement between the banks on either side 100 feet short of what they actually are. The length of the creek, will be increased by a bridge 300 feet long, while the measurement, from high bank to high bank, is but 231 feet. The question asked is, what will the contractor do with his 69 feet of extra bridging and, as there will be no room for it between the banks of the creek, will he excavate in earth and sandstone to make a place in which to bury it, or will one fifth be deducted from the amount of his contract for the work which it will be almost impossible and entirely unnecessary for him to do.

CEAR GROVE.—At a meeting held by the N. B. Steamship Company at St. John, on Tuesday, the directors decided to proceed at once with the building of another ship to replace the "Cedar Grove."

A Lesson of the Day.

As Ottawa despatch to the Halifax Herald says, the late Hon. J. A. A. Macdonald, is here. He has become thoroughly disgusted with the Tory leadership, and he has become thoroughly disgusted with the Tory leadership, and he has become thoroughly disgusted with the Tory leadership. He has become thoroughly disgusted with the Tory leadership, and he has become thoroughly disgusted with the Tory leadership. He has become thoroughly disgusted with the Tory leadership, and he has become thoroughly disgusted with the Tory leadership.

An Unwanted Attack.

Mr. White of Cardwell is one of the Ontario gentlemen who represent the dominant element in the Government at Ottawa. Representing the feeling of the political inner circle at the head of Dominion affairs he has all the contempt for the Maritime Provinces which even Sir John A. Macdonald would not have hesitated to express. We observe that on the last day of April, instead of the first, in his place as a member of Parliament by unjust reflections on the religious, personal attacks in last Saturday's

World would not receive the attention we now give them but for their having been repeatedly referred to by fellow-citizens whom we esteem—many of them differing from us in political matters. We have agreed that they are so unworthy of any journal claiming to be considered respectable as to deserve general and unqualified condemnation. We therefore, purpose, as briefly as possible, to show the nature of these attacks. When we have done so, Mr. Call may continue if he chooses to do so, just as long as he can pay for having them written and published, with public money and means procured from others, in the name of a political party, the manipulation of which he makes a living for better than he could possibly earn by honest work.

When Mr. Call publishes Mr. Smith as having broken promises to the Government, he suggests broken promises of his own. He would have grown the "war of extermination" which Mr. Smith is now forced to contend against. When Mr. Call was emerging from the chrysalis condition, and before he made the great public confession that he had been guilty of assisting him to procure a subsidy for a steamer to run on the Miramichi. That ten years ago. At that time Mr. Call was the editor of the "World Publishing Company," and he was the owner of the "World Publishing Company," and he was the owner of the "World Publishing Company."

UFAIR.—Hon. Mr. Gillespie complains that he has not succeeded in defeating his bill to restore Chatham and Nelson Parishes to the Railway facility, among the terminal to be the Board of the Valley Railway, by showing members of the Assembly that the bill would prevent the Dominion Government from granting the proposed subsidy of \$2,000,000 to the Valley Railway, as a free gift, the Government agreeing to pay the owner—the late Hon. Benjamin Beveridge—for her in four years, and to give Mr. Call \$2,000,000 for the year. Mr. Call, who was the editor of the "World Publishing Company," and he was the owner of the "World Publishing Company," and he was the owner of the "World Publishing Company."

At one o'clock the House went into committee of supply and passed some railway estimates. May 5.—The supplementary estimates for 1882-83 were brought down yesterday. They amount to \$3,303,833, making the total estimated expenditure for the current year \$31,374,093. The principal items are: For civil government, \$1,800,000; for the militia, \$1,200,000; for the public works, \$1,000,000; for the education, \$500,000; for the agriculture, \$500,000; for the fisheries, \$500,000; for the public health, \$500,000; for the public instruction, \$500,000; for the public works, \$500,000; for the education, \$500,000; for the agriculture, \$500,000; for the fisheries, \$500,000; for the public health, \$500,000; for the public instruction, \$500,000.

A Foul Scare at Halifax.

A Halifax despatch of 8th inst. says:—There was a little scare in Halifax yesterday. The fact is that some of the boats were called to anchor in the Government Harbour at the foot of the Government Building at 10 o'clock in the late afternoon. A fire broke out in the late afternoon, and the boats were called to anchor. A fire broke out in the late afternoon, and the boats were called to anchor. On Ottawa despatch says it has been found that after the proposed division of the fishery bounty of \$150,000 total last year was made, a sufficient balance remained to fund the bounty for the fishermen in boats to \$5 per cent for 1882, and the bounty to beat tonnage in proportion. An order-in-Council is said to have been passed making this increase; should it however, instead of increasing the bounty, a half a half is expected, will get double that amount.
