

Greed For Gold

CHAPTER XLV. "Good-evening, Mr. Grayne. Come in, sit down."

"You asked me to call?" "Yes, said I had some information to give you about the Fremont man, didn't I? Help yourself to a glass of whisky, if you please."

"I have been thinking about you a good deal since you left me on the morning of the 10th. I have been thinking about you a good deal since you left me on the morning of the 10th."

THE GRIP AGAIN.

THIS DANGEROUS EPIDEMIC HAS MADE ANOTHER APPEARANCE.

A Suggestion as to How to Guard Against the Trouble and its Pernicious After Effects.

Every winter influenza, or as it is more generally known, grip makes its appearance in Canada. Every year it spreads and assumes alarming proportions. From all appearances this is one of the years in which it will seize upon a great number of victims, for every day new cases are reported, as in scarlet fever and typhoid fever, the after-effects are often worse than the disease itself. The sufferer is left with a debilitated system, short of breath upon the slightest exertion, subject to headache and heart palpitation, affected by every change of weather, and in a physical condition to invite the attack of more serious diseases, such as pneumonia and consumption.

"I must take the step now. I have been prompted to take it a hundred times, but I must take it to-night. For the first time, again that pathetic smile hovered upon his lips. He was glad to see since the murder I shall sleep."

At Leeds Assizes in 1895, Benjamin Gibbons was tried for bigamy. He admitted that he had married a woman while his first wife was alive, but he pleaded that as he had sold her in America, the Indians of the tribe was a young woman and unmarried, though he constantly gave her goods and money, and she had no other husband, he sold her to a soldier for \$25. She went quite willing to be sold, and had married her purchaser.

HOW NATIONS SLEEP. Considering that we all spend on an average one-third of our whole lives in bed, it is not wonderful that a good deal of care, expense, and trouble is expended on our sleeping places. In Great Britain the ordinary man's bedroom is a room of some size, and the bed is being dressed by the healthiest man in the land.

Men Sell Their Wives

VALUE OF BETTER HALVES IN ENGLAND. Cases in Police Courts Show the Practice to be Quite General.

Readers of Mr. Hardy's novels have been reminded of the opening chapter of "The Mayor of Casterbridge" by the case at Marlborough, where a man sold his wife for a couple of shillings. For precedents for this commercial form of divorce some jurists have searched the records of a century ago, and produced numerous instances of wives being sold to the public market and then knocked down to the highest bidder, says the London Globe.
