Some people will be interested to know what will be worn in coats for the spring. That depends largely upon the taste of the wearer. There will be a large variety of lengths and styles. We show a lot of each.

### Pony Coats,

25 inch length will no doubt be popular, yet a large number of the long 3-4 and 5-6 length auto coats will be in favor. These are shown at popular prices, ranging from \$5.00 to \$12.00. Now is the time to make your selections, when you get the pick of the stock.

### Ladies' Skirts.

## WHY LOGAN FAILED IN PITTSBURG RACES

He Says He Was Not Accused to the Rink

Took Second Place in the First Heat of the Five Mile and Led in One Heat of the Quarter Mile.

The Star's correspondent in Pittsburg today sent the following particulars concerning Logan's failure to appear among the winners of last night's races:

"Fred Logan, the little wonder, who recently defeated Champion Morris Wood in the eastern skating tour, failed to make the showing expected of him last night in the opening events of the Amateur Skating Championship held at Duquesne Garden."

"After the events had been run off Logan stated that he was not at all familiar with the turns at the local rink and that Wood and the others had a big advantage over him in this respect owing to the fact that they have all been here before."

"In the second heat of the quarter mile Logan finished first but the best he could do in the final was third, Wood and Robson beating him out."

"In the first heat of the five mile race, Logan finished second. He was beaten in this race by Anderson, a westerner, however, and says he is confident of his ability to conquer the champion under more favorable conditions."

## MAY BRING TWO DREDGES INSTEAD OF ONE

It Now Appears That the Beaver Will Remain on the Present Contract.

Government Engineer Shewen called upon Mayor Sears this morning and had a lengthy interview about the harbor improvements and the dredging situation. Mayor Sears said afterwards that their conversation was entirely of a private nature. It is intimated, however, that the Beaver, instead of being released and put on the new work, will be retained on the present contract, while two new dredges will be put to work on the preparation of the new berth, one of these probably being the W. W. Fielding, to be put to work at the harbor entrance. One reason why Mr. May's is likely to be kept longer on the present contract is that until further work is done on the old contract steamers would not be able to come up with safety to the new berth.

## SALMON BOAT RACES ALREADY TALKED ABOUT

Westfield Suburbanites Preparing for the Coming Summer Sport

Interest in next summer's salmon boat contests at Westfield on the river is already red hot. Owners of craft in this class who are eligible to enter their boats are making all kinds of predictions, and several models are now being developed in local shops, for enthusiasts.

It is altogether probable that many new salmon boats will answer the starting gun next season, not only new in make-up, but brand new entries. The Frodsham, Clawson, W. W. Allen and Clawson craft will endeavor to wrest the Peters cup from the winner of last summer, but they will not be alone. It is understood that F. G. Spencer's flyer may be purchased by a Westfield suburbanite, with the intention of competing. This is the fastest salmon boat in local waters, being equipped perfectly for the local sailing conditions. Though barred from the races last year on a technicality, she outtuned the best of her class in informal contests. This craft is a source of much worry to the other salmon boat skippers.

Not only are the summer residents of Westfield planning upon the approaching race season, but the natives of that section are going to enter the strike. Indeed, some of the country boys may show their city cousins how a salmon boat ought really to be sailed before next winter arrives.

Andrew Barr with wife and child, arrived from Alexander, Scotland, on the steamer Cassandra Thursday and paid a pleasant and surprising visit to Mr. Barr's uncle, Wm. M. McLean. Mr. Barr and family left yesterday for Toronto, where they will reside.

### How's Your Money Spent, Mr. Local Advertiser?

THE STAR is the Most Valuable St. John Medium for several very sound business reasons. In the first place it is a lively one-cent paper in high favor in all classes. In the second place it has only 230 outside subscribers, all the rest are city buyers—nearly 6,400 in all. Therefore when you want to reach St. John people patronize the paper that circulates most freely among them. Other evening papers send from one-third to one half their issue out of town each day.
