H. O. McINERNEY, PROBATE JUDGE; S. B. BUSTIN, PROBATE REGISTRAR

Appointments Made Yesterday to Fill Vacancies Arising Through Death of Judge Knowles and Selection of His Successor.

JUDGE H. O. McINERNEY. REGISTRAR S. B. BUSTIN.

A meeting of the city and county members of the Legislature was held at noon yesterday when H. O. McInerney was appointed as Judge of Probates for the county of St. John, in succession to the late Judge E. T. C. Knowles, whose death left the office vacant. It is understood that among others considered for the appointment were Dr. J. Roy Campbell, J. King Kelley, K. C. Dr. R. F. Quigley, S. B. Bustin, B. L. Gerow, J. A. Barry and S. W. Palmer.

At a meeting held during the afternoon S. B. Bustin was appointed Registrar of Probates succeeding Mr. McInerney. The new Judge of Probates is one of St. John's most brilliant young lawyers; the appointment is a popular one and he was busy yesterday receiving the congratulations of his many friends.

NEW DAYLIGHT SAVING SCHEME HIT STANDARD

This Newspaper Experiencing Difficulty in Connection With Carriers—New System Affected.

This daylight saving game is playing the mischief with the newspapers. Take yesterday morning for instance. The Standard stuck to the old time for the first night, in so far as its mechanical department was concerned. The mailing room staff on the other hand—those who prepare the mails and deliver the papers to city subscribers and agents, came to work on the new time. As a result these boys went to sleep for an hour until the papers were printed, and after that they were so late getting out on their rounds in the city that many subscribers who as a rule read The Standard before breakfast, did not get it until an hour later than usual—by their clocks.

Again, these boys, having to deliver their papers at such an hour, were kept late for school, and naturally they object to this. So there was confusion all round.

Now, last night it was decided to start work in The Standard office of the new time schedule. But as the wire from Montreal remains on the old basis, news does not begin to come in until nine o'clock. Thus the men coming to work at eight have to put into type matter of lesser importance in order that the paper may get to press at a reasonable hour. It is a fact that as a rule the best news of the night comes last of all, so that the real live war news which nine times out of ten should be in the paper as the latest news of all will be received here in the early hours of the morning after The Standard and other St. John and Halifax papers have gone to press. So we loaf for an hour in the early evening and miss an hour's news in the morning.

Another point which will eventually cause a great deal of annoyance will be the impossibility of getting papers out of town in the morning to accommodate those who come to the city on the eight o'clock trains. It will be a little difficult to deliver papers at Robbsey or Hampton for these suburbanites when the people who ordinarily purchase them are in St. John a few minutes before the earliest outgoing train leaves this city. But this is an affliction which will have to be borne in good nature by the dwellers on the outskirts, and no doubt they will in time accustom themselves to this slight disadvantage in the change.

Celebrated Her 80th Birthday.

On April 15th Mrs. Elizabeth Sargent, of 67 High street, North End, celebrated her 80th birthday with her daughter, Mrs. H. B. Rogers, Medford, Mass., where she has spent the past winter. Although she has reached the four score mark she still retains the alertness and the activity of younger days and is enjoying good health. Her many friends will be interested in the following clipping from the Medford Messenger: "Mrs. Elizabeth Sargent, of St. John, N. B., who has spent the winter with her daughter, Mrs. H. B. Rogers, 636 Main street, reached the octogenarian age on Saturday, April 15, when many friends called to extend congratulations and wish her returns of the anniversary. Letters from her homeland, flowers and a shower of cards marked the birthday. Refreshments were served by Mrs. Rogers, assisted by her daughter, Mrs. H. K. Weathers. Mrs. Sargent is well preserved and very fond of fancy needlework, and is quite an expert in embroidery and knitting."

NEW TENDER FOR SERVICE TO ISLAND

Military Authorities Have Purchased New Boat—Inspection and Dinner for 140th.

The military authorities have purchased a new boat for the service between Partridge Island and the city, and as a consequence a much better service was inaugurated yesterday morning. The boat which is named the "Sisiboo" was purchased from the St. Mary's Bay S.S. Company at a cost of \$7,500, and was brought to the city from Weymouth, N. S., by Capt. Wheaton, commandant of the "Pluvia," who will have command of the new boat and arrived here on Sunday.

The "Sisiboo" has twin screws, and can carry about one hundred persons. She is 66 feet in length, 16 feet beam and draws about 7 feet of water, which will allow her to dock at the wharf on Partridge Island at any time of tide. Her tonnage is 60 tons register. It will be possible to make the trip to and from the island at any time regardless of tide or weather, which will be much appreciated by the men quartered there.

I.C.R. TO CONFORM WITH NEW TIME PLAN

Mr. Gutelius Readily Promised Committee of Business Men to Rearrange Train Schedules.

There has been considerable comment in St. John on the failure of the Intercolonial management to re-adjust their time tables in accordance with the daylight saving scheme in this city. That difficulty has been very readily overcome, and with the utmost good will on the part of the I. C. R.

Yesterday afternoon a committee of St. John men called Mr. Gutelius by phone and explained the situation. Without the slightest hesitation Mr. Gutelius promised to rearrange the schedule of leaving time for the three outgoing trains from St. John in accordance with the wishes of the committee and so as to fit in with the new time scale here. A full announcement of this change will be made by the I.C.R. at once and it will be found that the officers in Moncton are more than willing to meet the ideas of St. John people in the matter of the evening train service.
