WORKERS NEEDED
FOR SPAGNUM MOSS
PICKING AND SORTING

Five Hundred May Be Required To Sort 3,000 Bags—Hoped This Amount Will Be Gathered This Summer—Committee Meeting Held Yesterday.

Anywhere from one hundred to five hundred workers will be needed in the work of gathering and sorting the sphagnum moss. This was a state committee made by William McIntosh, who is head of the Provincial Red Cross Sphagnum Moss Committee at a meeting held in the Natural History Society rooms yesterday afternoon.

At present five circles meet every day for sorting with eight members of the Junior N. H. S. as members. These girls are now thoroughly trained by Mr. McIntosh, and it is proposed to ask all the Red Cross societies throughout the province to volunteer their assistance. A circular letter will be sent, and as the offer comes in, it is possible a worker will be sent to instruct the members how to gather the moss.

Digby has sent in an offer of help which will be gladly accepted by the committee.

In St. John the Y. W. P. A. have a list of helpers ready to form a working circle and a number of Jewish ladies waited upon to St. John. With the I. O. O. E. are being asked to form circles.

At present there is only room for forty working at one time, but during the winter months other places will be available and many volunteers will be required in the sorting as well as in the surgical dressing department. It is expected that 3,000 bags of moss will be gathered during this summer. Bags in which to carry the moss are a problem, and an appeal will be made to the public for clean sacks for this purpose. It is planned to ask the Boy Scouts to assist in the collection of these bags.

A merchant on King street has offered the use of his window for an exhibition of the valuable moss, and this is being arranged for.

Four ballers were made for the Red Cross headquarters at Toronto, one of which is being sent to St. John. With this baller twice as many dressings can be packed as when they were done up by hand.

Members of the committee are Lady Tilley, Mrs. J. A. McAvity, Wm. McIntosh, Miss Dorothy Jones, Miss Hazel Dunlop, Mrs. Lawrence, Miss E. Clements.

The largest submarine cable in the world has just been completed across Raritan Bay between Elizabeth, Staten Island and Kearnsburg, N. J., by the New York Telephone Company. It is nearly five miles and a half long and contains seventy-four pairs of wires.

Simple Herbs
Cure Serious
Troubles

PRESIDENT WILSON'S
ATTITUDE TOWARDS
WOMAN SUFFRAGE

Expresses Hope That Senate Will Pass Suffrage Amendment Before End of Session.

Washington, D. C., June 13.—President Wilson today expressed the hope that the Senate would pass the Woman Suffrage amendment at the present session of Congress. His attitude was made known in a reply to a memorial from the French Union for Woman Suffrage presented to him today by a delegation from the American Woman Suffrage Association, which asked him to proclaim the principle of Woman Suffrage as one of the fundamental rights of the future.

"It is my earnest hope," the President said, "that the Senate of the United States will give an unmistakable answer to this question by passing the Suffrage amendment to the Federations Union before the end of the session. Senator leaders have promised a vote at this session, although efforts to bring the resolution up have failed thus far."

The Question.

Father—Tell me, child, has that young man who wants to marry you got any money?

Daughter—Money, father? Why he has just given me a cluster diamond ring studded with pearls.

Father—Yes, I know. Has he any money left?

Daughter—Yes, I know. Has he any money left?

Daughter—Yes, I know. Has he any money left?

Daughter—Yes, I know. Has he any money left?

Daughter—Yes, I know. Has he any money left?

Daughter—Yes, I know. Has he any money left?

WAR WORK FEATURES
AMONG THE WOMEN
MOST COMMENDABLE

Two Ladies of the Volunteer Aid Department in Quarantine For Weeks in Hospital—A Noble Body Performing Noble Work.

One of the features of war work among women has been the variety of persons to whom it has appealed and the various ways in which it has been done. There are those who seem to have found in some of the forms of patriotic activities just the niche which they were intended to fill. Others whom one would have supposed strong and eminently suited for certain duties have failed in that particular respect but have made wonderful success in other lines.

The failures have been few and the successes many and wonderful. Few people realize the number of voluntary workers who are daily and hourly doing their duty in many ways, helping most materially in the scheme of relief, hospital or home and learning lessons of self-sacrifice as well as practical experience which will be of infinite value to them in the future.

While those holding office in societies have responsibilities and cares as well as taking their share in the actual labor of the association, there are many silent workers who are hardly known and who are content with a word of thanks from the soldier or a glance of approval from those in charge.

How many in this city know that the work previously done by four workers in one of the military hospitals in St. John has been done by two V. A. D.'s for the last five weeks. The hospital was quarantined and the members of the Voluntary Aid Department were obliged to stay there for this lengthy period of time. They were exposed to the perils of contagion, they wash dishes and cook meals for those patients who are on special duty, and they have done this cheerfully and without complaining for all these weeks, feeling that it was only the fortunes of war.

When this department was first organized in manner of the war made of the girls' desire to help, and they were supposed to be playing at nursing, but the way the members have steadily kept to the work have given up whole months of their time and never missed a day at the hospital or Convalescent Home, has silenced criticism and made the V. A. D. initial on the shoulder-strap a badge to be proud of.

There are many other avenues of patriotic endeavor and honor should be given where it is due, especially to the girl who busy all day in office or store still knits or sews, ushers at a theatre, writes or makes use of any talent she has stinging or reciting to assist, amuse or earn funds for the soldier men overseas.

The hard work that has been performed by the two quarantined V. A. D.'s in the St. James Hospital is something that is indeed most commendable.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitised coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two tea-spoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, fluffy, and easy to manage.

You can get mulitised coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

A Modern Superfluity.

He—Well, dearest, your dad has given his consent.

Dearest—He approves of love in a cottage, then?

He—No; but he says a girl that spends as much time golfing and the after-going as you do has not much need of a home.

WHY BEAUTY FADES

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes thin, pale haggard and angular. She not only tires out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, until perhaps fatal consumption sets in, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no medicine yet discovered can equal Dr. Williams' Pink Pills. It gives a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong.

On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.
