Opposition Claim Protection on Canadian Article is Not Enough -Motion Along This Line Defeated.

While nearing Victoria Beach the auto ran off a bridge carrying the occupants with it down some seven icet, breaking Mrs. Perkins' jawbone, and the others Ottawa, July 18-(Special)-In the house of commons this afternoon F. D. Monk ved a resolution on motion to go into upply that the government have not Drs. Peters, of Annapolis, and Smith given the protection and encourage to the Canadian tobacco to which it ntitled.

> Some time ago the Conservatives apaign literature against high taxatio non tobacco. Circular 4 was

"Put this in your pipe and smoke it." Mr. Brodeur, who followed Mr. Monl alled attention to this circular which said that the government had increase the protection on tobacco and inc taxes of every tobacco smoker in Canada \$4 a year. The remedy was

taxes of tobacco users. And now Mr. Monk, whose constituency was interested in the tobacco, wanted to move protect

Mr. Clancy admitted that the circula was sent by the party. He was not goin to repudiate it. The difference between the Conservatives and the Liberals wa that the latter imposed the increased tax ation to get the money from the people while the Conservatives desired to give proection to the industry and not to get

the taxes Seymour Gourley said the circular did not bind anyone. He admitted that Mr. Bell (Pietou) wanted a lower duty on bacco. For himself he also was for mor

The house divided on the motion which vas lost by nineteen for to 50 against.

AND ONE BUY WAS S' OT Railway Subsidies.

Morrisburg, Ont, July 18-(Special)--Winchester Springs today Hiram Webb, ag ten, was accidentally shot and killed by playmate, Fred Liberty, of Ottawa, also ag ten. The boys were playing in Webb father's carriage house, when Liberty four an old gun used for shooting crows, an while playing with it the gun went off. The charge struck Webb in the breast, killin him instantly.

urchase of the Canada Atlantic Railway Sir Wilfrid Laurier said there had been Sir Wilfrid Laurier said there had been no negotiations of any kind. "We have been approached but we would not con-sider the question now." Deputy Governor Justice Sedgewick, of the Supreme Court, attended in the senate at 4.30 this afternoon, and gave the royal

assent to the national tran acontinenta

Employed.

The Halifax Chronicle says: "A letter re-ceived from London Saturday stated that it has been decided to reduce the strength of the British army. The Royal Garrison regi-ments will likely be disbanded. Under the new arrangement the married establishment will be done away with and there will be no marrying on the strength. If a solder marries it will be his own lookout and no extra provision will be made by the service for him. The change will not affect the married men in the service when it comes into force, but as they drop out of the ser-vice the married establishment will be re-duced until none is left." being employed on the G. T. P. was given to the G. T. R. while it was refused to the labor men. The secretary of the Can-adian Society of Engineers had told him Sir William Mulock said there was no this time sto

MAIL ORDER NEWS

Have you ever tried this method of purchasing your every day needs? No matter where you are we can serve you satisfactorily. Here are a few prices which will no doubt make you exclaim "How can it be done !" If you order one or more of them you will be still more surprised. The reasons we are able to offer such superior goods at such low prices are :--We buy the materials in large quantities direct from the mills. We buy for cash and sell for cash, which means we are able to buy at the lowest possible prices, and selling for cash we have no losses through bad debts, consequently our customers get the benefit. We manufacture the garments on the premises, employing about 1800 people and over 1200 machines for this purpose. We get the garments in large quantities using electric cutting machines for the purpose, and think nothing of cutting thousands of yards of cloth daily. The sewing machines are the most modern money can procure, and some do as many as four or five ordinary operations at one time, which means labor saved. All our machines are operated by electric power from our own plant, some making as many as 4200 stitches to the minute. The operators of these machines are experts in their own particular work, which reduces the cost of production to a minimum. In reducing the cost of production we do not lose sight of quality, for with us, quality is one of the first considerations. We do not use the cheap, inferior material so often found in ready-to-wear garments; we use only the best goods of its class that can be procured and absolutely refuse to handle any material we cannot recommend. The perfection of fit, superiority of finish and painstaking workmanship which is embodied in these numbers are characteristic of all our garments. In buying from us YOU save all middlemen's profits. Remember, we guarantee satisfaction or refund money in full.
