THE WISDOM OF THE KING

EVIDENCES of deep and serious thought throughout the volume."-Belfast News Letter, Jan. 24, 1871. "Succeeds well in seizing on the salient points of the words of the Royal Preacher, and in bringing them home to present duty."—Glasgone Daily Review, Feb 6, 1871. "Characterized by directness of aim, sound sense, and right appreciation of the sacred writer's meaning."—The Preachers' Lantern, (London), Feb. 1871.

"His Book may be recommended as worthy take a place in the Homiletical Literature of celesiastes," - British Quarterly Review, Apri "The production of a highly cultivated mind.

"The production of a highly cultivated mind.

"We have read several works on Ecclesiastes, and well remember the pleasure with which years ago we perused the Royal Preacher, but for fine criticism, comprehensiveness of thought, striking illustration and unostentatious yet elequent and forcible style, The Wisbon of The King, we think, surpasses them all."

—St. Croix Courier, March 6, 1871.

"The volume is not an unworthy companion of Dr. Buchanan on the same book."—The Homilist (London), April 1871.

milist (London), April 1871.

"A series of charming Essays. . . . Each chapter branches out into innumerable topics of a secondary and collateral nature, giving to the work a boundless diversity enriched with stores of ethical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the noblest lessons for practical guidance. Our author's style is remarkable for its free, unconstrained flow, almost colliquial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with torseness and beauty of expression. . There is about it a freshness, as well as a fullness of practical teaching, rarely to be met with in ordinary Biblical commentaries."—Londonderry Standard, Feb. 15, 1871.

"This is a bright breezy hook, both interest-

"This is a bright, breezy book, both interest ag and instructive. We can most conscien tiously commend this book generally, as one of the most sprightly, aftractive and instructive works of its kind that he fallen under our observation."—Boston Evening Traveller, May

"Every portin of the work indicates extensive scholarship and mature thought."—
Belfast Northern Whig. April 8th, 1871. "The force, raciness and robust manliness of Mr. Bennett's style and mode of treatment will arrest attention and excite interest in quarters where preaching or writing of the average quality would fall flat and dead."—Home and forcign Record. March, 1871. Foreign Record. March, 1871.

So plain yet so suggestive, so practical yet so profound are these Lectures that while you read them you feel their deep truth and reality: that you are in contact with realities both visible and invisible: that you are in close contact with the beating heart of nature and humanity, and that all their life and hope five from God alone."—Fredericton Head Quarters, March 1st, 1871.

Head Quarters, March 1st, 1871.

"The writer is evidently well acquainted with the literature of his subject, and that acquaint nee reveals itself almost unconsciously in every page. There is no ostentation of reading or learning, but there is everywhere the gleaming forth of light which cannot be hid.

The style is simple, intelligible, graceful. It shows at once that Mr. Bennet is a man of literary culture, who can express his thoughts with scholarly chasteness and good taste. We could not open a page without meeting some thought vigorously expressed. The work is eminently fresh and readable."—Pres Witness, Hatifax.

"He regarded in the treatment of his themes

Halifax.

"He reveals in the treatment of his themes strong common sense, a firm grasp of thought, a logical acumen and a clear insight into human character. Even when dealing with trite ideas he imparts to them a novelry and interest by which they are lifted into an importance they scarcely deserve. The style throughout is lucid, pure, compact, forcible,—and it is his own—the garb of his own thinking. We have met in our perusal of the book with numerous paragraph of finished and brilliant rhetoric—fine specimens of pulpit oratory. He is never tame notiresome We have not found one slip shod sentence in the volume."—Christian Visitor, (Baptist) March 6th, 1871.

"We were not prepared to find him writing

"We were not prepared to find him writing in such a fini hei style and issuing such a volume as the result of certain preparations made for an evening lecture to his congregation." If all his pulpit performances are equal to these, his people have reason to rejoice in the Providence which guided his steps to them."—Evangelical Witness, May 1st. 1871.

"This is a remarkably thoughtful, solid book Mr. Beonet is evidently at home in Metaphysics and Ethics, and he is a shrewd observer of human nature in its ordinary manifestations; consequently he ranges over the lessons of the Preacher with a power of illustration which shews his mastery of the subject. The style is close and direct, and yet so lucid, that any reader may understand every sentence in the volume.

I will, we doubt not, take its place, as it ought to do, among our household expositions of this treatise of observation and Jewish wisdom "—The Presbyterian (Philadel phia), May 20, 1871.

phia), May 20, 1871.

"The lessons to be learned are drawn with a master's hand, and are expressed with a combined force and beauty that we have raiely seen surpassed in the production of any author. The ordinary reader will find nothing that is above his comprehension, and yet it would be difficulted in a common place thought or form of expression. A combination of these requisites we deem the highest movit a writer can posses.

"We will be much disappointed if the book do not command a wide circulation. Wherever a sound literature is felt to be a deside atum, The Wisdom of the King has but to be known to be prized as a work that the world will not willingly let die."—Saint John Telegraph and Journal.

"The Wisdom of the King is well worth

"THE WISDOM OF THE KING is well worth careful reading. Indeed you cannot read much of it at once. There is a constant play of fancy about the thoughts, and often the very words, that is admirably suited to the Script; re book, of which this is an exposition, by twhich demands such constant attention on the reader's of which this is an exposition, by twhich demands such constant attention on the reader's part that he gets tired, for he does not know where it is to end. The style is compact, lucid, often sparkling and epigrammatic, the sentence cut sharply, but with a poetic fullness of original illustration that redeems them from all hird pess."—Habifax Monthly Record, (Church of Scotland).

"Each chapter is so well done, so lucid yet concise in its exposition, that it is sometimes i ficult to determine which is the best and most interesting.—Stewart's Quarterly, St. John A few copies of the above work may be

Early in the next year the farm house of the man who had suspected him was broken into, an attempt was made to set it on fire, and it may be presumed that in all these cases fire had been employed in order to cover the robbery.
