

By Telegraph.

Canadian, British and Foreign.

[To the Associated Press.] New York, Dec. 16, p. m. Gold 112; sterling exchange 109 1/2 a 110. Col. Dent, father of Mrs. President Grant, died yesterday.

LONDON, Dec. 16, p. m. Consols 91 1/2; breadstuffs steady; wheat 13s. 3d. a 14s. 3d. for Club California; white corn 8s. 3d.; market for yarns and fabrics at Manchester quiet and unchanged.

The weather is very temperate today throughout England, and on the coast much damage to shipping is reported. An Ex-Empress Eagle is visiting Quebec Victoria at Windsor Castle to-day.

Sheffield was visited to-day by a terrific storm of wind. A large number of buildings and chimneys were blown down and many persons killed. One immense chimney crashed a building and a boiler located therein. The boiler exploded killing and wounding several persons.

LONDON, Dec. 16. DEVASTATING STORM—LOSS OF LIFE AND PROPERTY. The storm has abated. The telegraph wires were prostrated in all directions but the lines now working state that the storm extended all over the north of England and far into Scotland.

Sheffield looks as if it had been bombarded. The loss of property is immense. Churches were unroofed, and many factories were compelled to suspend work. The lowest estimates place the casualties to persons in that city at seven killed and thirty wounded, many fatally.

Plano Organs are made by George Woods only, and can be seen at E. Peller & Bros'. The following is the telegraphic report from Point Lepreau to the Board of Trade room, yesterday afternoon: 3 p. m.—Wind W., strong breeze, cloudy, mild, nothing in sight.

The following is this morning's report: 9 a. m.—Wind E. N. E., very light, with dark clouds to the north; nothing in sight. By Christmas Presents—at No. Man's—Graphophones all sizes.

Dropped Dead. James George, a blacksmith, dropped dead this morning in the street above Market Square, Carleton. Policeman Walker came over and notified Coroner Earle, and an inquest will be held this afternoon.

Perilous Police Court. John Maloney pleaded guilty to a charge of drunkenness in Main street, and was fined \$4. The Civil Court was in session all the forenoon and a great array of legal talent was present. Several cases were disposed of.

OTTAWA, Dec. 16. HUNTINGTON is in town. McMillan seemed to-night, after which the two legislators and the Premier will try and settle George's "little bill". Dan Donahue, President of the Printer's Union, is not nominally as workingman's candidate for the Local House, in Scott's place. Working men here are nearly all Liberal Conservatives, and the Grigs have induced Donahue to come out in the hope of splitting the working men's vote.

THE Reform Association meets on Thursday night to nominate and register a candidate for the Local House. The reception at the Government House this afternoon was largely attended, and was a brilliant affair.

Rumors of foxed felt boots and Moccasins are specialties by E. Frost & Co. Merchants' Exchange. The following despatches were received at the Exchange to-day: Liverpool, Dec. 16.—Breadstuffs market quiet.

Flour 28s. a 29s. Red wheat 12s. 1d. a 12s. 7d. Corn 36s. 3d. Cotton 8 1/2. Consols, London, 91 1/2 a 91 3/4. Receipts of wheat during the last three days 17,000 qrs., of which 9,000 were American.

New York—Flour market 5 1/2 cents a better. Common to good Extra State 67.75 a 67.85. No. 2 Spring wheat 61.50 a 61.61. Western mixed corn 50c. Moss pork 81c. Market firm. Grain freights 12d.

Receipts of Flour 18,000 bush.; sales 14,000. Receipts of wheat 180,000 bush.; sales 125,000. Receipts of corn 61,000 bush.; sales 70,000. Montreal—Flour market dull.

Spring Extra Flour 65.70 a 65.75. Extra Superior 66.10 a 66.20. Good Extra 66.25 a 66.40. Oats 56c. a 58c.; barley 81.05 a 81.15. Receipts of flour 3,000 bush. Chicago—No. 2 Spring wheat 81.17. Market moderately active.

Receipts of wheat 200,000 bush. Shipments of wheat 87,000 bush. New York Dec. 17.—Gold opened at 111 1/2. Balsamic Glycerine Lotion cures chapped hands, sore lips, &c., at Hannington Bros'.

The Free Baptist Bazaar. This bazaar was opened in the school room of the church, Waterloo street, last evening, with great success. The room was brilliantly and tastefully decorated with evergreens, bunting and pictures. The tables were well filled with fancy and useful goods, the handwork of the ladies, one quarter of the names of which we would not venture to give, owing to their variety and nondescript character. The refreshment tables were tastefully spread and amply provided with cold fruits, vegetables, pastry, fruits and oysters. This department appeared to receive most satisfactory patronage from visitors, who, doubtless, were equally anxious to test the ability of the fair amateur waitresses and their own capacity for carrying away edibles. The result of the experiment must have been mutually satisfactory, as the waitresses were prompt and smiling, and the rapidly disappearing viands were as quickly replaced by more, equally tempting. An oyster counter in one corner of the room,

where fasciots bivouacs for the half shell were dispensed, received the patronage of the young ladies and their gallants. The "Old woman in her shoe" was also there, and sold her children as so much per head without the slightest twinge of conscience. Too much credit cannot be given to the ladies for their successful management last evening, and we hope their success last evening will be repeated this afternoon and evening.

For stitching, hemming, braiding, ruffing, quilting, filling, gathering, cording, felling, tacking, light or heavy sewing, the Osborn is unequalled anywhere. Try the Osborn Sewing Machine and be convinced of its merits. See adv.

The Bazaar. The Calvin Church Bazaar opened last evening, and was visited by a large number of people. A great deal of taste is displayed in the decoration, and the articles offered for sale are reasonable in price. Fancy articles and toys of all kinds are shown in abundance, and comforts for the hungry have not been forgotten, as oysters and other substantial food can be procured. It will be open two or three nights longer.

To-morrow afternoon the ladies of St. Stephen Church open their doors to the public, and will make an excellent display of tempting articles. Carleton is also to have a Bazaar, in connection with St. Jude's Church. No doubt a number will go over from the city, for the sake of the sale.

It is said that very great and serious importance is attached to the United States by the British Government, and that the British Government is very anxious to see that the United States is well governed, and that the British Government is very anxious to see that the United States is well governed, and that the British Government is very anxious to see that the United States is well governed.

ARRIVED. A Bury Placed on the Wreck of the Fire Island. The wreck of a schooner sunk about two weeks since off the Fire Island, has for some time been a source of danger to passing vessels. Yesterday morning the Light House Inspector sent a party to the wreck, and the bodies of the crew were found. The bodies were found in a very fresh state, and it is believed that the wreck is still in a very fresh state.

ARRIVED. The Loss of the Brigantine Zinga. A telegram from Eastport, from Capt. Gallagher, received by W. S. Calhoun of this city, reports the brigantine Zinga wrecked at Campobello. The Zinga was bound for Eastport, and was wrecked during the night of the 10th inst. The vessel, which registers 300 tons, and is owned by Messrs. Ketchum & Calhoun, of Sackville, and others, she was on her passage from Sackville for Bermuda, with a cargo of hay, and other goods. The crew of the vessel arrived by steamer last evening, and their story is as follows: "We left St. John on Saturday morning last. About 9 o'clock, p. m. a violent snow storm commenced, which prevented our seeing at all. Towards 3 o'clock we heard the Quoddy Island whistle, but owing to the blinding storm, could not see the Island. The first mate, Mr. Young, whose watch it was at the time, directed the men at the wheel to steer in that direction. When near the Island the Captain took charge, and steered for what he supposed to be the Island Light-house, but was misled by a large fire covered vessel, which prevented us from seeing the rocks. The vessel, which had been lowered, was put up, and the bow of the vessel turned, but she was dashed by the waves upon a sandy beach, about three lengths of her length, and she was safely landed there. She bumped three times, when the anchors were let go, and about twenty-five fathoms of cable paid out. The wind was blowing freely at the time, and there was every prospect of the vessel going out of her. We then determined to leave the vessel. Mr. Young, the mate's wife, had been sick from the time of leaving St. John, and suffered very much in getting ashore. The vessel was blown out of her, and she was safely landed there. She bumped three times, when the anchors were let go, and about twenty-five fathoms of cable paid out. The wind was blowing freely at the time, and there was every prospect of the vessel going out of her. We then determined to leave the vessel. Mr. Young, the mate's wife, had been sick from the time of leaving St. John, and suffered very much in getting ashore. The vessel was blown out of her, and she was safely landed there. She bumped three times, when the anchors were let go, and about twenty-five fathoms of cable paid out. The wind was blowing freely at the time, and there was every prospect of the vessel going out of her. We then determined to leave the vessel. Mr. Young, the mate's wife, had been sick from the time of leaving St. John, and suffered very much in getting ashore. The vessel was blown out of her, and she was safely landed there. She bumped three times, when the anchors were let go, and about twenty-five fathoms of cable paid out.
