Don't Vote CCF •

Statements attributed to Woodsworth

At UNIVERSITY OF TORONTO to C.C.F. Club
January 12, 1937:

"I don't propose that any Canadian boys shall be sacrificed to maintain imperialism. The only course for us is to maintain neutrality whoever the belligerents may be"

In PARLIAMENT September 8, 1939, Hansard Pg. 47:

"I have boys of my own, and I hope they are not cowards, but if any one of those boys, not from cowardice but really through belief, is willing to take his stand on this matter and, if necessary, to face a concentration camp or a firing squad, I shall be more proud of that boy than if he enlisted for the war."

Coldwell and Woodsworth Would Not Help Finland

They would not send one soldier to aid Britain in her death struggle with Germany. They would withdraw all our soldiers from England and bring them back home. They would rather see their sons in jail or facing a firing squad than enlisting in the army.
