They will also do your lumber and mill bill or will take bulk contracts. Confine your operations and do all your business with one firm. You will secure better satisfaction and despatch, with less work and worry for yourself.

The Grand Trunk picture exhibit, illustrating the many tourist districts throughout Ontario, and which has been doing exceptionally good work in advertising this province in several of the large cities in the Southern States, recently completed, last Friday, an eleven days' display at the First Annual Sportsmen's Show of Ohio, at Cleveland, and left for Knoxville, Tenn. During the time of the Sportsmen's Show, over 50,000 people attended, and the Grand Trunk exhibit was a source of much interest.

Illustrated descriptive literature and all information as to the different regions in "The Highlands of Ontario" was given out by a representative of the Grand Trunk. After exhibiting at Knoxville, the collection of pictures will move to Richmond, Va., and thence proceed to several cities in Pennsylvania and New York States, going out of commission about May 15th. This is probably the greatest advertisement that Ontario has ever had south of the International Boundary.

**NEW PAVEMENT**

The William street pavement south of King street will be finished up this week, weather permitting, and the north end of the street which is to be paved with chemically prepared blocks, will be started the beginning of next week.

The Dominion Paving Co. will do the north end of the street, too. The foreman of the work says that the contract calls for a sand filler, but he intends using a part sand and part tar filler. The tar will be put on top. He thinks this will improve the pavement a good deal.

**A GOOD COMPANY**

J. Gardiner Thompson, manager of the Liverpool, London and Globe Insurance Company, was in the city yesterday, calling on the local agent, W. H. Harper. Mr. Thompson represents an excellent company and they have a large and profitable business in the Maple City.

According to the published returns of the various companies as at the first of January, 1902, the fire assets of the Liverpool and London and Globe exceeded all the liabilities, including fifty per cent. for unearned premium reserve, by more than ten per cent. in excess of that of any other fire insurance company in the world. Its investments in the Dominion exceed three million dollars, thus rendering it essentially a Canadian institution backed up by gigantic resources in England and elsewhere. It's predominant financial strength, coupled with the liberal treatment which it has uniformly extended to its patrons has made the name of the company a household word throughout the civilized world and the synonym for all that is highest and best in fire insurance.

Their business in the Maple City last year was excellent, and satisfactory to all concerned—their patrons, the agent and also the company.

**Geo. Stephens & Co.****MR. LEONARD'S APPOINTMENT**

Assistant General Manager of the C.P.R. at Winnipeg.

Montreal, April 16.—The appointment of Mr. J. W. Leonard, General Superintendent of the western division of the C.P.R., to the position of Assistant General Manager, with headquarters at Winnipeg has been announced. Mr. Leonard will have executive control of the western division, but the position is in reality that of assistant to the General Manager, Mr. McNicoll. The growing importance of the west has for some time given reason for the erection of an office invested with power to act quickly in case of emergency, without reference to the head office in Montreal. It is probable that a similar appointment with respect to the Ontario division will be made within a few days, but it is stated by the management that the matter has not yet been decided. Mr. W. R. Baker, who has been relieving Mr. Leonard at Winnipeg during the last two weeks, is returning to Montreal, but his name is mentioned as successor to Mr. Leonard.

**TWO MEN BADLY HURT.**

Fall of a Scaffold in an Oshawa Church.

Oshawa, April 16.—A serious accident occurred at the Simcoe Street Methodist Church here. While a number of workmen were putting up a metallic ceiling, the scaffolding which had been erected for the purpose suddenly gave way, precipitating the men to the floor of the church below, a distance of thirty-five feet, together with about a thousand feet of lumber, mostly heavy planks and poles. Nearly all the men received injuries, and it is probable that two fatalities will result. Mr. Fred Horn, a carpenter, received the most severe injuries, and at present his chances for recovery are very slim. He had three ribs and his left shoulder bone broken, and it is thought that his lungs have been pierced by some of the broken bones. Mr. John Brewer, who has the contract for the painting, was badly bruised and injured internally. He is very weak to-night, and it is feared his injuries are worse than at first anticipated. The other men who were on the scaffold were: Robt. Bishop, Shields, White, Robt. Clark, Geo. Jacob, John Webb and Geo. W. Scott, all of whom were more or less bruised and cut with the exception of Mr. Scott, who was overseeing the work of putting up the metallic ceiling, and who miraculously escaped.

**Death of Judge Wilkinson.**

Napanee, April 16.—Mr. W. H. Wilkinson, County Judge for Lennox and Addington, was found dead in the bath tub in his residence about 8 a.m. yesterday. It was customary for the judge to take a cold bath every morning. Deceased was born in Kingston in 1838, and studied law in the office of the late Sir John A. Macdonald, and had charge of Sir John's office at Napanee, afterwards opening an office in Napanee, where he continued his law practice until his appointment as County Court Judge in 1868. Deceased was very popular with everyone, and was preparing to go to Kingston, where he was to hold court to-day. He was a member of the Council of Ontario and a member of the Council of Trinity College. Death was caused by the shock in taking the customary cold bath. He leaves a wife, but no family.

**Important to Lovers of Fine Stock.**

There arrived in the city last week via G. T. R. the pacer stallion Hae Patchen, record 2:15 1-4. He is a splendid horse, 16 hands, 1,100 pounds, much faster than his record, having been close up to the great race mare Lady of the Manor, in 2:07 1-4. He possesses all the requirements of a fine horse—beauty, good temper and not afraid of anything; also the thoroughbred stallion St. Martin. Color brown, stands 16 1-2 hands, weighs 1,275 pounds, perfectly quiet and gentle. Col. Bruce, the great American authority on fine horses, Mr. F. McDonald, the great Judge of Conformation, W. D. Grand, formerly of Toronto now of New York City, and Dr. McEachren, the Dominion inspector, all unite in saying that St. Martin is of the very best. These horses will be kept at the West Kent Fair Grounds, city of Chatham, until August 1st, 1903, in charge of Mr. Geo. Lane, who will give all information, or to Caleb Wheeler, owner, Chatham market.
