## LETTER BOX

## SURGICAL ADVERTISING.

Editor Planet:

Dear Sir,—Some time ago I addressed a request to you to refrain from publishing my name or the names of my patients in connection with surgical operations and since that time you have kindly acceded to my wishes in this respect. In last Saturday's issue of The Planet a paragraph was inserted stating that Dr. Stevenson, of Ridgeway, was in the city assisting Dr. Rutherford and Rutherford in a serious operation on Mrs. Barton, of Ridgeway, when the operation was very successful and that she would soon be restored to health. I have waited for another issue expecting that Dr. R. & H. would correct this false statement but they have not done so. So long as Dr. R. & H. think it proper to advertise the ill and misfortunes of their patients, and so long as their patients are willing to submit to such gross violation of confidence, I shall not complain, but when such liberty is taken with the names of my patients I feel it my duty to Mr. Barton and to others who employ me to ask these doctors to confine their advertisements to their own patients.

## RIOT AT NIAGARA FALLS.

## MEN DRIVEN FROM WORK WITH SHOWERS OF STONES.

Eight Hundred Idle—Militia Called Out Last Night—The Local Police Force Unable to do More Than Look on—One Man Stabbed.

Niagara Falls, Ont., Nov. 3.—One of the most serious events in the history of this place is the strike which began on the Electric Power Development Works. About eight hundred men are out, and are likely to stay out some time. Several collisions between strikers and working men, amounting almost to riots, have occurred. The police are helpless in the face of such numbers.

The strike is the result of a reduction in wages by the contractors of from twenty-five to fifty cents a day. The decrease affects the laborers only. The firms interested include the Ontario Power Company, M. P. Davis, Braas & Bros., Gordon Construction, Dawson & Riley, Niagara Construction Company, Barry & McMorde, Jenks Machine Company, and other concerns. Notice of reduction of pay was posted by several of the companies on Saturday.

The men refused to work, but remained near the works, and were joined by others from the Niagara Construction and the Ontario Power Company, and the whole mob marched down upon the works, forcing all the laborers to join them. Dawson & Riley's men had worked in the morning without trouble, and the object of the strikers was now to drive them out. Foremen and others who tried to stop the mob were brushed aside, and the strikers began to shower stones down into the wheel pit. The men below sought shelter in the buildings, and many had to climb out in the face of a pitiless hail of missiles. Drifters, laborers, masons and all had to quit. Many were bruised by the stones, but none were seriously injured.

The mob then returned to the works of the Ontario and Toronto companies at Dufferin Islands. William Young, son of the late Chief of Ontario Police, foreman of the Ontario Power Company, tried to turn them back, but was beaten and forced to run for his life. By this time the strikers were joined by laborers from Braas Bros, contractors at the Canadian Niagara Transformer House, who had been summoned by messenger. The mob remained at Dufferin Islands till noon. At that time it marched down again, stoned the steam shovel and forced the men to abandon it, and drove more men from Dawson & Riley's and the Douglas works.

From early morning the park and frontier police followed the mob everywhere, ready to take anyone in danger of life but utterly powerless to check the movements of the strikers. Many of the strikers carried revolvers, and nearly all had knives and clubs. The main body were Italians, Poles and Hungarians. Very few know any English. Any attempt to arrest the strikers was met by a shower of stones. Young would have resulted in the annihilation of the little police force. The men were very good-natured, but stern in forcing all men to quit work. No resistance was made at any point, and to this is due the lack of more serious trouble.

At 9 o'clock a requisition, signed by Detective Depew of Stamford township, and John Robinson and Alex. Gray, Justices of the Peace, was presented to Colonel Cruikshank, commanding the 4th Regiment, to furnish troops to prevent disorder. Captain Coulson of No. 1 Company is collecting men, and will march a force to the works in a few hours. Some companies will pay off their men to-morrow, and trouble is expected then if not before. Manager Symmes of the Niagara Construction Company and Colonel Cruikshank drove through the park after dark. Three men sprang from the bushes and shook their fists, but on being spoken to hid in the bushes again. The whole district is picketed by strikers to prevent men getting to the works. Foreigners are displaying shotguns and other arms, and downtown stores are sold out of revolver ammunition.

Last evening at the village of Niagara Falls South, a drunken Italian striker stabbed a young man named Jas. Hamilton in the face, inflicting an ugly cut. A grave feature of the strike is the fact that every revolver and all small ammunition and knives have been purchased in every store in town today by apparent strangers.

No. 1 Company, 44th Regiment, 40 officers and men, under the command of Captain Coulson, White and Lieut. Harriman, are leaving at 1 a.m. to go on duty at the works.

Frank E. Leblond, timekeeper for the Ontario Power Company, was roughly knocked down with a club. Louis Schmidt, the assistant superintendent on the Ontario Power Construction, was mixed up in a lively melee. Several other men were stoned and clubbed from their posts. During the rioting at Dawson & Riley's wheel pit, where the men in the pit were pelted with sticks and stones, and many were the miraculous escapes from death by the shower of rocks that went down on the men in the pit. At Barry & McMorde's and Battle's cribwork contracts and M. F. Davis' works on the Toronto & Niagara Power Company, similar attacks were made.

Up at the head of the Ontario Power Works the carpenters were driven from their jobs by the foreigners and then the mob gathering strength at every stop, advanced down through the park, calling the men from work as they passed each group of laborers still holding onto their jobs.

## A TEST EXPERIMENT.

## Peculiar Power Possessed by a New Medicine

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will take the place of all other remedies for the cure of those common and obstinate diseases, dyspepsia and stomach troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and bismuth.

These remedies are combined in a unique form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever good qualities they may have had as soon as uncorked and exposed to the air. This preparation is called Stuart's Dyspepsia Tablets, and it is claimed that one of these Tablets dissolved in water will digest from 300 to 800 times its own weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner:

A hard boiled egg cut into small pieces was placed in a bottle containing warm water heated to ninety-eight degrees (or blood heat); one of these Tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digested as it would have been in a healthy stomach. This experiment was undertaken to demonstrate that what it would do in the bottle it would also do in the stomach, hence its unquestionable value in the cure of dyspepsia and weak digestion.

Very few people are free from some form of indigestion but scarcely two will have the same symptoms. Some will suffer most from distress after eating bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, sleeplessness, pains in chest and under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have the same cause, failure to properly digest what is eaten. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor. At the same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already made many astonishing cures, as for instance, the following:

After using only one package of Stuart's Dyspepsia Tablets I have received such great and unexpected benefit that I wish to express my sincere gratitude. In fact, it has been six months since I took the package and I have not had one particle of distress or difficulty since. And all this on the face of the fact that the best doctors I consulted told me my case was Chronic Dyspepsia and absolutely incurable as I had suffered twenty-five years. I distributed half a dozen packages among my friends here who are very anxious to try this remedy.

Mrs. Sarah A. Skeel, Lynville, Jasper Co., Mo. Stuart's Dyspepsia Tablets are sold by druggists everywhere at 50 cents for full sized packages. A little book on Stomach Diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

## OVERCOAT STYLE...

We are so proud of our New Overcoats that we fear, lest in trying to describe them, we be considered somewhat extravagant in our statements.

In the first place as we make and design our own overcoats, the styles and most of the materials are exclusive. They are all cut carefully by hand, made in our own workrooms and personally inspected before being placed on sale.

"Almost like getting an overcoat to order," you say. We know of no nearer way except getting it to order.

We follow the fashions as closely as the high class merchant tailor, sometimes get ahead of him. Why shouldn't we? We have every facility he has and many that he hasn't.

One point that we certainly lead him in is the price.

Judge of the style for yourself.
