D. B. TRACY

COBOURG, ONT.

WANTED

A man who understands the care of dairy cattle and hogs. A man who loves his stock and will take an interest in it is the one wanted.

State wage expected and give references.

THOS. NOBLE
High Water Stock Farm, Daysland, Alta.

Korydye Pieterse Paul

No. 9439 is offered for sale. Sir, Maggie Dick's Korydye, No. 3348; dam, Hilda Pontiac, No. 4751; record of 17.45 lbs. of milk, 667 lbs. butter in 11 months. She is sister to Butter Boy Hengerveld, 22 lbs. butter in 7 days at 2 years old.

His sire's dam is sister to May Echo, 31.34 lbs. butter in 7 days. He also combines the breeding of Pontiac Korydye. He was two years old last February. Will get \$100, worth twice that amount. Is a very large, low set bull, and quiet. Run with the cattle all year. Very sure.

GEO. MOORE & SONS, Preston Station, Ont.

Ourville

Holstein Herd

The first 31 lb. cow in Canada was developed here. The only herd in Canada that contains a 125 lb. 20-day cow. The only herd in Canada where 12 two-year-olds with first calves averaging 17.10 lbs. of milk have been developed. Also the only herd in Canada containing a junior two-year-old averaging in 8 days of 31.75 lbs. milk, 67 lbs. butter.

If you want to raise some of this kind of a bull ready for service, or bull calf, at first by our bull whose two year-old dams average 31.83 lbs. butter in 7 days.

Brockville, Ont.

MARKET REVIEW AND FORECAST

Toronto, Monday, Nov. 4.—Speculation is rife as to just what percentage of the potato crop of Ontario will be available for market. Many districts that report bumper crops earlier in the season, now find that 40 to 60 per cent of the crop is rotting and in many cases points from rotting and heavy losses are made. In a normal year will have none for sale at all. Such reports have had a decided strengthening chance in the market. In other lines of farm produce crops have advanced, wheat is down, oatmeal and dairy produce steady, and hogs somewhat weaker.

Canada's insignificant contribution to the world's total production of beef is shown by the following comparative statement: The total number is placed at 616,259,372. Canada is in the twentieth place with 2,512,000, as compared with 17,708,694 in Australia, with the 38,000,000 of England, the latter country coming in seventh place. It would seem that even more strenuous measures than are now being taken by the Dominion Government will be necessary to give this branch of animal husbandry the prominence that it deserves in Canadian agriculture.

WHEAT

The immense record of wheat on the Winnipeg market has still further weakened quotations there. The effect in Ontario has been to depress the market. Oats are well supplied, and quotations are down accordingly. No. 1 Northern is quoted at 95 1/2c; No. 2, 93 1/2c; No. 3, 91 1/4c and feed wheat 85c to 70c. There is a fair demand for Ontario wheat, but very little is moving. Millers quote 95c to 97c, and down as low as 70c for inferior grades.

CORN GRAINS

After steadily declining for three weeks, buckwheat quotations have finally steadied and further declines are not expected. Oats and peas have advanced and corn declines steadily. Quotations are as follows: Buckwheat, No. 2, 55c; No. 3, 53c; No. 4, 51c; No. 5, 49c; No. 6, 47c; No. 7, 45c; No. 8, 43c; No. 9, 41c; No. 10, 39c; No. 11, 37c; No. 12, 35c; No. 13, 33c; No. 14, 31c; No. 15, 29c; No. 16, 27c; No. 17, 25c; No. 18, 23c; No. 19, 21c; No. 20, 19c; No. 21, 17c; No. 22, 15c; No. 23, 13c; No. 24, 11c; No. 25, 9c; No. 26, 7c; No. 27, 5c; No. 28, 3c; No. 29, 1c; No. 30, 1c.

MILL STUFFS

There is no change in mill feeds. Local quotations are: Manitoba bar, \$22 to \$23 a ton; shorts, \$25 to \$26 a ton in bags. Ontario, bar, \$22 to \$23; shorts, \$25 to \$26 a ton in bags. In Montreal the market is active and bar is quoted at \$22, shorts, \$27 a ton in bags.

There is a first class demand for the better grades of hay. For the large percentage of inferior stuff coming on the market, however, there is a slow trade. Wholesale quotations are: No. 1, \$13 to \$14; No. 2, \$9 to \$11; No. 3, \$8; baled straw, \$10 to \$12.50. On the Farmers' Market quotations at \$17 to \$19; straw, baled, \$14 to \$17 and rye straw, \$18 to \$19.

HIDES AND WOOL

Quotations for hides are as follows on country markets. Cured, 12c to 14c; green, 12c to 15c; horse hides, 35c to 40c; horse hair, calf skins, 12c to 15c; lamb skins, 60c. Prices paid on ton in bags. In Montreal the market is active and bar is quoted at \$22, shorts, \$27 a ton in bags.

Crushed wool is quoted at 15c to 15 1/2c; washed, 20c to 24c; rejects, 15c.

POTATOES AND BEANS

Retailers are very poorly supplied with potatoes, and there is a strong demand for small lots. Shipments already received have rotted so badly that dealers do not care to purchase large supplies at one time. Recent shipments have been of somewhat better quality and trade more active. Prices have declined 10c from last week, but price levels are still an unusually high plane. Some potatoes have changed hands at 90c a bag in car lots. The ruling price to retail dealers is 81c.

Beans are steady at 35c for primes and 33.10 for half picked.

EGGS AND POULTRY

Receipts of eggs are very light, and dealers are drawing liberally on their cold storage supplies. Fresh eggs are quoted at 25c to 26c and 30c a dozen. Eggs retail in Toronto at 40c to 50c a dozen.

Quotations on dressed poultry are as follows: Live chickens, 10c to 11c; fowl, 8c to 9c.

10c; ducks, 11c to 12c; turkeys, 15c to 17c; geese, 9c to 10c; dressed poultry, 20c to 25c; higher; dressed turkeys, 25c to 30c. On the Farmers' Market, spring chickens retail at 15c to 20c; fowl, 10c to 15c; geese, 10c to 15c; ducks, 20c to 25c and turkeys, 25c to 30c.

DAIRY PRODUCE

The closing down of these factories and the consequent increase of the manufacture of butter, has led to a noticeable increase in receipts. Prices have not declined, however, and dealers do not see as pasture fails completely, they predict an immediate and substantial advance. Wholesale quotations are: Dairy prints, 25c to 27c; creamery prints, 25c to 30c; solids, 25c to 28c and inferior, 25c to 30c. Choice dairy butter retails at 30c to 35c. Cheese is somewhat easier, new twins being quoted at 15c to 15 1/4c and new large at 14 1/4c.

HORSES

Quotations are as follows: Choice heavy drafters, \$220 to \$350; fair, \$175 to \$225; choice, 1,500 lbs. and over, \$250 to \$320.

ELMDALE DAIRY HOLSTEINS

A few Females for Sale, Ontario. You lings or Cows 50 head to select from. Most of the cows are good of good quality. Ormsby (7515). Service sired by Palatin Ormsby and Highland Calamity Colantha (1245).

FRED CARR, BOX 113, ST THOMAS, ONT.

Holsteins Over 4% Fat

I have established on my farm at Oshawa, Ont., a herd of Holstein cattle which shall be unobtainable and all shall give milk 4 per cent or over in fat content.

Present offering for sale Bull, Galf, grandson of King Segis and Pontiac Pet, the World's Champion Butter Cow.

A. A. FAREWELL :::: OSHAWA, ONT.

FAIRVIEW FARMS HERD

Offers a splendid son of Rag Apple Korydye, the young bull we recently sold for \$5,000, and out of a pound daughter of Pontiac Korydye (record made at 4 years).

Calf is five months old, nicely marked and straight as a string, and I will sell him. Wall worth the money.

WRITE ME FOR PRICE, ETC.

E. H. DOLLAR, Heuvelton, New York (Prescott)

Notice: After 1st of October, 1912, kindly address all correspondence to VAUDREUIL, QUEBEC, instead of Manhard, Ont., where I will be in a better position to furnish my customers with No. 1 Holsteins.

Gordon H. Manhard - Vaudreuil, P. Q.

Which Can You Best Afford?

When selecting your feeding stuffs first study their composition. What is it that makes a feed valuable? You know it is Protein that makes milk and builds the body. It is the percentage of Protein which determines the value of a feed to the Dairyman.

The following analysis shows the percentages composition of some of our common feeds.

Protein Fat

Pure Owl Brand Cottonseed Meal 40.4 8.9

Linsseed Oilcake Meal 30.4 7.1

Gluten Feed 25.6 7.5

Best Barley 15.0 1.0

Oats 11.6 3.8

Corn Meal 9.4 4.5

You will see therefore that Owl Brand Cotton Seed Meal is worth nearly three times as much as wheat bran.

Pays Big to feed Owl Brand Cotton Seed Meal to Dairy Cows. Also good for Beef Cattle, Horses, Sheep and Swine. Write for samples and prices.

Feeding Instructions Sent Free on Request

Beware of adulterated foods! Some grades of cottonseed meal we can sell for 30 years, and take pride in keeping it up to our high standard. Owl Brand always runs above our minimum guarantee.
