Twice a Day for Half the Year

SOMEONE has to attend to the furnace; most people look on it as an irritating, dusty job. It need not be. It is not, if you have a Sunshine Furnace.

Shaking down the Sunshine Furnace does not raise a dust. The fine ashes are drawn up the chimney; there is never that fine sprinkling of dust that lights on everything in the basement, and even floats up through the house. No. That is one thing the owner of a Sunshine Furnace never has to contend with. The Sunshine is as clean as a piece of furniture.

There are extra sturdy grates that turn with a long handle to crush with ease the hardest clinkers. A slight rocking that hardly requires stooping, cleans down the ashes. The ashes fall as the grates are shaken, for the sides of the fire-pot are straight. This saves bother—and heat; because if ashes bank up around the fire-pot they stop the radiation of heat. The ashes come out in a big ash-pan. There is no shovelling or spilling ashes about.

And the door is large, as it should be for convenience in firing up. Or if need be, a large chunk of wood will go through this door. The dampers can be operated from the rooms above. This saves you the nuisance of running up and down stairs to shut off the drafts and open up the check damper.

McClary's Sunshine Furnace

Would you like to have definite information about the cost of installing a Sunshine Furnace in your home? Send the coupon for our booklet "Sunshine." At the same time, if you wish to know what it will cost to heat your own home, our Heating Engineer will tell you. He will show you how to plan the distribution of heat so as to get the utmost warmth from the coal you burn. No, there is no charge. Simply address him at

Kindly send me without expense on my part:

1. Your booklet on the Sunshine Furnace.
2. Also forms for filling out, so that your heating engineers can tell me how to order and install a system that will properly heat my home.
