## WHERE ARE THE BEST HOLSTEINS?

Have you read of Lilith Pauline DeKol's wonderful record? Her sire was bred here. Have you read of Susie DeKol's record? She was sired by a son of our great cow, DeKol 2nd. We can give our customers more of the blood of the greatest producers than can be found in any other herd. Look over official reports and see where the sires of the great producers were bred. We have over 30 young bulls for sale, and a large number of females. Animals shipped to Canada are accompanied by certificate of health, and are subject to no duties or quarantine. If you want the best, write or visit—

**BROOKSIDE HERD,** om.

**H. Stevens & Sons, Lacona, Oswego Co., N. Y.**

## GLEN ROUGE JERSEYS.

**WILLIAM ROLPH, Markham, Ont.,** offers twelve Jersey Bulls and Heifers (pure St. Lamberts), out of tested cows. Grand individuals. Prices right.

## A Few Facts About "Cream Equivalent."

Bibby's "Cream Equivalent" has become a household word with stock-rearers in almost every part of the world.

It is used to substitute cow's milk where milk is scarce, and to enrich skimmed or separated milk where these products are available. A farmer can, by its means, rear good calves and sell his milk or the butter and cheese fats. "Cream Equivalent" supplies what is lacking in separated or skimmed milk, and yields more economic results than are otherwise obtainable.

It contains no chemicals, and is, therefore, a thoroughly wholesome food.

Calves take to it readily and thrive well on it. No other production does the work with the same effectiveness.

If you are short of milk, or have only separated milk for your calves, make a trial of "Cream Equivalent," and you will never again be without it.

It represents the net results of hundreds of practical tests carried out at our own experimental farm at Hall O'Coole, Cheshire, England.

It has the largest sale in the world: every country where the farmer needs an efficient milk-saver or milk-enricher uses it.

You had better send for a trial bag and make your own test.

We supply full directions for use.

The price is: 50-lb. bag, \$2.00; 100-lb. bag, \$3.50; freight paid to nearest railroad station.

10 Bay St., Toronto. **J. BIBBY & SONS.**

## A LOST COW.

That can never happen where the cows wear our patented

**Swiss Cow Bells**

Made from finest quality of Swiss Bell Metal, they are light but strong and lasting. Musical in the extreme. AND Yorkshire

For immediate sale.

A few fine Ayrshire bull calves, from 4 to 12 mos.

**Isaleigh Grange Farm,**

Danville, Que.

**J. N. GREENSHIELDS, Proprietor.**

## GOSSIP.

Arthur Johnston, Vandevel, Ont., writes: "Through advertising in the ADVOCATE, I have sold all my surplus stock, having sold \$915 worth to one man, and could have sold more if I had them."

The herd of Ayrshire cattle founded 50 years ago by Mr. Hyslop, Tower Sanquhar, Scotland, was sold last month, when 118 head were disposed of at good though not sensational prices, the cows averaging about \$85, and the bulls \$115. The bull, The Czar, brought the highest price, \$157, and the highest price for a female was \$117.

At the auction sale, on April 23rd, of the Shorthorn herd of Mr. William Taylor, Kirkly Stephen, England, 10 bulls sold for an average of £53 13s., and 42 females at an average of £35 5s. The highest price, 150 guineas, was realized for Scotch Flower 2nd, a roan 2-year-old show heifer which has won many prizes at local shows. She was sired by the white bull, Pride of Freedom, son of Pride of Morning, and grandson of Star of Morning, who has proven an extra good breeder. Mr. P. L. Mills, Riddington Hall, was the purchaser. Her dam, Scotch Flower, 8 years old, by the Duthie bull, Jacobite, brought 60 guineas.

Mr. Jas. A. Cochrane, Hillhurst Station, Que., in ordering a change in advertisement, writes: "I have sold the Hackney stallion, Rattling Shot, to Capt. A. L. McIver, of Robinson, P. Q., who has had the old Denmark stallion, Fordham, for the last four years, and reports him as fresh as a colt, though 24 years old this spring. Capt. McIver has also bought the imported brood mare, Vina, by Wildfire. I have sold the three young Shorthorn bulls advertised. All three Crowned to Wm. G. Johnston, Compton; Hillhurst Monarch to Allan Steven, Chesterville, Ont.; and Joyful Scot to Chas. R. Rodger, Genoa, P. Q. Joy of Morning and Scottish Hero have both developed well during the past winter, and have a very promising crop of calves to their credit."

Alex. Love, Eagle, Ont., writes: "My herd of Shorthorns are doing nicely and are in good condition to go on grass. The young bull at the head of the herd is growing and developing finely. He is a good one, and comes by his quality honestly, as the four top sires in his pedigree were all first-prize winners at Toronto Exhibition, something which cannot be said of many bulls. I think I should get something good from such a sire, mated with such cows as Miss Joan and Cleopatra, two of the highest-priced cows at the dispersion sale of Mr. J. I. Hobson's herd. Joan's Star is from the noted bull, War Eagle, who took first prize and the sweepstakes silver medal at Toronto. Lady Rose is a Miss Ramsden, of the same blood as Mr. Kelly's \$6,000 bull, Brave Archer. Leda 2nd is by Scotland Yet, from the Warden's Fair prize herd; and Loxley Hill 9th was pictured in the Christmas number of the FARMER'S ADVOCATE for 1894. I have also the highest-priced cow at Messrs. Nicholson & Taylor's sale, at Sylvan, this spring, and others of like quality."

The bull show of the Royal Jersey Agricultural Society was held early in April. The prizewinning bulls became the stud bulls of the year, and an early date is chosen in order to enable breeders to select the bulls they will use during the coming season. This year's show aroused more than the usual interest, owing to the large sum of money offered by the States' Assembly in addition to the usual schedule of prizes offered by the Society in the endeavor to retain for service on the island the best-bred bulls. The States prizes were divided into three classes, three prizes in each, and were awarded by a committee who had to consider, in classes 1 and 2, besides the individual merit of the bull and that of his dam, the value of the pedigree of both from the sire's standpoint, and make the awards accordingly. The task was by no means an easy one, yet, on the whole, the committee accomplished the work satisfactorily. With these extra considerations of pedigree and merit of dam, it was to be expected that the prizes would not be the same as in the inspection classes, where the bulls stood on their own merits. In the yearling class, however, Mr. P. J. Abner's Leda's Golden Lad was likewise selected for first prize, and Mr. Wm. Joann's Nurrid's Golden Lad for second honors, though only third by inspection. Mr. T. R. De Gruchy's Garrick was third, but not placed for the Society's prizes. In class 2, for 2-year-old bulls, Mr. W. J. Labey's Fontaine's Lord was moved one place higher, and took first, and was followed by Messrs. T. R. De Gruchy's Manxman and Ph. Ozouff's Ferret. Class 3, for aged bulls shown with five of the female progeny, was allotted four prizes, and brought six entries. It was the most interesting class of the show. Mr. P. J. Abner, the breeder of the celebrated sire, Golden Fern's Lad, took the red ribbon with Eminent 2nd; Mr. J. A. Alley second with Napoleon Bonaparte, Mr. W. P. A. My third with Golden Marquis, and Mr. P. F. Labey fourth with Cairo. The amount of prize money awarded at this show was \$354, and it is believed that the assistance rendered by the States' vote will be the means of preventing the exportation of a larger number of well-bred bulls than was the case formerly.

## P. E. ISLAND STOCK SALE.

The sale of Clydesdales and Shorthorns held at Charlottetown on May 1st by Messrs. Frank and F. G. Boyer, was well attended. The prices were not high, considering the quality of the stock. Four pure-bred Clydes, from the stud of Frank Boyer, Bunbury, lot 18, two stallions and two mares, realized an average price of \$181.25; and 19 Shorthorns, from the herd of F. G. Boyer, Georgetown, an average of \$102.50. The highest-priced bull, Silver Chief, a seven-year-old, bred by Mr. Arthur Johnston, Greenwood, Ont., was knocked down to Silas Lane for \$150. The highest-priced cow, Mina Mowbray, also bred by Mr. Johnston, and seven years old, was bought back by her breeder for \$325. Mina's yearling heifer also goes back to Greenwood, Ont., at a price of \$120. Old Silver Chief was in good form, and apparently has many years of usefulness before him. We consider that Mr. Lane has a bonanza in him at the price paid. It is well for the stock interests of the Island that this splendid Shorthorn bull stays here. Mr. Lane also got a very fine six-year-old cow at \$150, and a bull calf at a bargain. Three of the cattle went to Sackville, N. B.: a bull calf and a heifer calf to Bliss Fawcett, and a three-year-old cow to George Fawcett. Taken all together, the sale was considered a success.

## BRAIN FOOD

### Is of Little Benefit Unless it is Digested

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and in fact everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain-workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best, to get the best results from our food, that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive, and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric glands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives: cocaine, morphine and similar drugs have no place in a stomach medicine, and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty-cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.—Adv't.

## EARLY BEETS

constitute an exceedingly profitable crop when grown rapidly and shipped early to the Eastern markets. Best results are secured by the liberal use of

**Nitrate of Soda,** which forces them to early maturity and produces beets of a superior quality. Send for our free pamphlets and list of dealers in Nitrate of Soda to John A. Myers, 12-R John Street, New York City, N. Y.

## The Patent Fused Joint

AS USED IN OUR

## HECLA FURNACE

is the most valuable improvement in furnace construction in recent years. By means of this patented method we fuse the steel and iron which go to make up the dome and radiator into **ONE SOLID CASTING.** There is no danger of cement falling out, to let the dust, smoke and gas escape into the house. Another feature of the Hecla is that it will burn

## EVERY KIND OF FUEL

COAL, WOOD OR PEAT.
